## HOROSCOPES

**ARIES (MARCH 21-APRIL 19)** There's plenty of confusion. Plenty of action, too, and some of it falls right into your lap. The challenge is finding a place to rest and catch your breath. No retreating back into the woods. Pluck the quiet moments hidden in between the chaotic ones and savor them.

**TAURUS (APRIL 20-MAY 20)** Don't believe anybody else's accounting when it comes to your money. Read receipts and phone bills, just to be sure. The miscalculations of others probably aren't intentional. The earlier you catch them, the less damage they do. To relax tonight, a book recommended by a friend is a good bet.

**GEMINI (MAY 21-JUNE 21)** If you want a bigger allowance or a pay raise, you'd be better off NOT asking for it. Do something to show what a hard worker you are. Clean your room. Do NOT lip off. That would be extremely counter-productive.

**CANCER (JUNE 22-JULY 22)** One of your preconceived notions is about to be shattered, or at least roughed up. You might not have realized you had any preconceived notions, but we all do. They're invisible to us until somebody doesn't act the way you thought they would.

**LEO (JULY 23-AUG. 22)** Continue to sort through your paperwork. Get everything straightened out to eliminate confusion. Make sure you have enough insurance. Get your will or trust fund all in order.

**VIRGO (AUG. 23-SEPT. 22)** You're again called upon to provide left-brain realism for a bunch of right-brain idealists. That just means everybody else is coming up with schemes that don't take gravity into consideration. You're the one with good sense. Speak up!

**LIBRA (SEPT. 23-OCT 22)** You're drawn to other people's problems like a moth to a flame. You don't want to make their decisions for them; you want to present them with their choices. But if you're not getting paid to do

that, be careful. If you keep talking to friends on company time, you'll have troubles of your own.

**SCORPIO (OCT. 23-NOV. 21)** No need for you to get upset just because a loved one is upset. The other person may have misunderstood. No point in taking sides based on hearsay evidence. Keep listening, and eventually you'll hear the rest of the story. Save your comments until then.

**SAGITTARIUS (NOV. 22-DEC. 21)** Ever feel like you're pouring your money down a hole? You could work long hours and not get much accomplished. The treadmill keeps going, but you don't seem to be getting anywhere. You are. Tomorrow will be much better, partially because of what you're doing now.

**CAPRICORN (DEC. 22-JAN. 19)** If you need help, ask an expert. Don't hesitate. Do whatever is necessary to keep cranking out the work. Minimize distractions. Your job is to help others stay on track. Do it, even if that's not in your job description yet. It soon will be.

**AQUARIUS (JAN. 20-FEB. 18)** Most of the confusion should be over. However, there's still a good chance you'll miss a connection with the one you love. Make that clear if you're trying to meet. Stay in touch by cell phone. If you don't have cell phones, you'll have to rely on luck. It'd be easier to find a needle in a haystack. Can you postpone your date until tomorrow?

**PISCES (FEB. 19-MARCH 20)** The debate continues. You might be stuck in the middle of an argument between two very different people. You get to play peacemaker and referee. You're armed with love, and that gives you a strength that's hard to define. Hopefully they'll learn to listen.
