"My Part-time Job at UPS is Really Working Out."

"UPS is paying me almost \$10,000 a year to get in the best shape of my life. See, I work part-time loading and unloading packages, about three to five hours a day. After sitting in class all day, it feels good to get some exercise. It's like doing a couple of hours in a gym—except you get paid to work out.

That's not the only advantage of working at UPS. There are other benefits-like

choosing your own work schedule and getting paid holidays and vacations. No other company understands students like UPS. And no other company offers more. They make it easy to work your way through school.

If the whole student body worked at UPS, everybody would be in better shape—physically and financially."
