# HOROSCOPES

**TODAY'S BIRTHDAY (NOV. 14)** — It might take an investment and some more education, but you can make a dream come true. Most favored fantasies involve travel, publications or higher education. Focus on what you'd love to make happen. Opportunities will pop up all year long. Be ready to pounce on them.  
**ARIES (MARCH 21-APRIL 19)** — You and your friends might be frustrated. Your forward motion is blocked. You can't yet do what you have in mind. A lot of planning is required to carry off a grand scheme.  
**TAURUS (APRIL 20-MAY 20)** — This isn't a good time to ask for a raise, a favor from the judge or a day off. Your boss, teacher or local police officer won't be feeling generous. If you assume authority figures will be a little stressed, you'll do fine. And, if you ARE an authority figure, relax.  
**GEMINI (MAY 21-JUNE 21)** — You're swamped! Too much to do, not enough time, gratification delayed. It's tough, but you'll survive.  
**CANCER (JUNE 22-JULY 22)** — You could easily be swept off your feet. This gorgeous,

fascinating creature with whom you're so enamored might be the same person you've been married to for years. Either that, or you're crazy about a child. Or a puppy.  
**LEO (JULY 23-AUG. 22)** — Aren't renovation projects fun? Well, maybe not all the time. Sometimes you just have to go back to the drawing board. Revise your plans until they work.  
**VIRGO (AUG. 23-SEPT. 22)** — You should lock yourself into a quiet, comfortable place where you can study. You've always had good retention, but right now you're awesome. Work up your strategy for the coming year.  
**LIBRA (SEPT. 23-OCT 22)** — Negotiations should be well under way by now. Use your skill and expertise to advance your position. Choose your words carefully and use them sparingly. Don't make promises you don't intend to keep. If you remember that, you'll profit.  
**SCORPIO (OCT. 23-NOV. 21)** — You could explode with a burst of energy, so make sure you're pointed in the right direction. What do you want to accomplish? Don't scatter all that power. Concentrate!

**SAGITTARIUS (NOV. 22-DEC. 21)** — Don't discuss your plans anymore. Now is the time to take action. A decisive blow at the right moment should do it. Don't waste energy second-guessing your decision. Your inner resolve provides your power.  
**CAPRICORN (DEC. 22-JAN. 19)** — If you don't have a significant other, ask your friends to set you up. Looks like one of them might know a good prospect. This is also a good time to get recommendations for any other kind of partner you might want. Like an attorney, for example.  
**AQUARIUS (JAN. 20-FEB. 18)** — It might seem like everybody's against you, but that's not true. This isn't a good day, however, to get into arguments with authority figures. Save your comments for some other time. Right now, just do the job.  
**PISCES (FEB. 19-MARCH 20)** — Travel is still complicated, but love looks pretty good — good reasons to call in sick and have your favorite person do the same. He or she might be under a bit of stress, by the way. Do something especially nice.
