HOROSCOPES

ARIES (March 21-April 19): You're more interested in shopping for bargains. If you want to make money, buy something you can sell at a profit.
TAURUS (April 20-May 20): Maybe you could get all your work done if more didn't keep coming in. But you'll be able to pay all your bills and put money in the bank.
GEMINI (May 21-June 21): You're not very interested in working, but you'd better pretend you are. You're not invisible, you know.
CANCER (June 22-July 22): You'll grow more confident in the coming months. Meanwhile, talk with a practical friend about changes you're making at home.

LEO (July 23-Aug. 22): You're able to learn quickly now. Somebody's about to ask you some difficult questions. You always like to be the best at everything, so study!
VIRGO (Aug. 23-Sept. 22): The job is demanding, but it should pay well. If you're accepting a new assignment, that's how it'll be throughout.
LIBRA (Sept. 23-Oct. 23): Your influence is more far-reaching than you realized, so be careful. Although you can do lots of things, you need to be careful.
SCORPIO (Oct. 23-Nov. 21): Your deep inner sense of satisfaction protects you. Shrug off annoying criticism. Hold firm to your convictions,

and you'll persuade them.
SAGITTARIUS (Nov. 22-Dec. 21): There's work to be done. First, set your priorities. Then, promise to get the work done later. Next Thursday or Friday would be good for that.
CAPRICORN (Dec. 22-Jan. 19): You have a knack for going straight to the bottom line. Do that, and you can increase your own profits at the same time.
AQUARIUS (Jan. 20-Feb. 18): This would be a magnificent time to fly off to Tahiti for a romantic vacation with the one you love. But you can sure dream.
PISCES (Feb. 19-March 20): Paperwork isn't usually your favorite thing, but it could be almost enjoyable now. It ought to go quickly, so have

that it needs.

Also, in front of the camera we have Hartnett, deservedly destined for better roles such as his in the current "Black Hawk Down," portraying the everyman

with utter allegiance. Along side Hartnett we find a solid row of secondary and tertiary characters, headlined by Paulo Costanzo ("Road Trip") and Michael C. Maronna ("Slackers"). Both are seemingly made for roles such as these.

Finally, serving to balance things out, the beautiful young Sossamon goes a long way to

show audiences what to expect in her sure-to-be-bright future.

Ultimately, "40 Days and 40 Nights" proves to be a risqué step that ends up being a much-needed jump-start to a dying breed.

Why is it so hard for a 30-year-old to think about retirement? When you're young, retirement planning is pretty far down on your list of concerns. Say, somewhere between the melting polar ice caps and dishpan hands. And that's completely understandable. But by planning early and sticking to that plan, you can increase the money you'll have to enjoy retirement, and potentially decrease the years you'll spend working. We offer a range of different options, including tax-deferred retirement plans, SRAs, and IRAs, all with low expenses. Now that's something to fall in love with.
