HOROSCOPES

ARIES Feeling a little pensive? Less confident than usual? This is natural. Mull over the news you recently received, and review your plans for this weekend.

TAURUS Don't be afraid to use your imagination. There's nobody on Earth exactly like you, so it figures that nobody else can come up with your ideas. Write them down and share them.

GEMINI More listening is required in order to get your meaning across. No, it's not the other person who needs to pay attention; it's you. Do it, and you'll be amazed.

CANCER It may seem as if there's way too much conversation going on. And you're right, because the most important messages are being sent without the words.

LEO You're excellent at getting what you want, even when others think you can't. But don't get overexuberant this time. The naysayer is right.

VIRGO Don't be overly critical of a person who can be a big help to you. Carefully explain how things should be done, watch to see that they're done right, and provide support.

LIBRA By now, you may have escaped your old familiar routine. You could be out in new territory, unsure about how to proceed. This is good. Real creativity emerges.

SCORPIO Follow through on yesterday's project, buying what's needed at the best possible price. Again, it's experience that will lead you to the wise purchases.

SAGITTARIUS A disagreement will take a while to resolve. Be patient. You may end up with a workable compromise that neither of you likes much, but you can both adapt.

CAPRICORN More study will be useful in solving a technical problem. Or you can simply hire somebody to come fix it. What do you have more of, time or money?

AQUARIUS Festivities may be interrupted by a practical need. Like, for example, doing whatever it is that you do to pay the rent. Don't forget!

PISCES Connect with a faraway loved one and get a nice energy boost. You're appreciated, even if little things still go wrong.
