HOROSCOPES

ARIES You're entering a practical phase. For the next several weeks, make a plan. Figure out what you want to accomplish this year, and break it down into monthly chunks. This will work.

TAURUS If you've been keeping your part of the deal, your luck will soon change for the better. Your partner's about to gain a distinct advantage, and you may get in on it.

GEMINI A plan should begin to formulate. It means work, but you'll be in the mood to work over the next few weeks. Might as well make the most of it.

CANCER You're entering a lovely phase for reinforcing old ties. Commitments based on love will last, the others will fall apart. Let 'em go.

LEO If you anticipate technical difficulties, maybe you can prevent them. That would sure be nice, since you're moving slowly now. The fewer surprises, the better.

VIRGO The challenge is to make a date and/or sign up for a class without losing your job or making a costly mistake. It can be done, but it requires finesse and creative scheduling.

LIBRA You're entering an intense four-week phase that should be good for business. Figure out what you've got and what you owe so that you can make the most of your time and money.

SCORPIO You're most comfortable in a committed relationship that's based on trust, so lead the way. You usually don't have to put your feelings into words, but it would be good to do that now.

SAGITTARIUS You can't do it all by yourself. That's obvious. But if you get a few friends to help, anything is possible. Call and let them know what you need.

CAPRICORN You've been working your tail off lately, but life should soon get easier. A routine is being established, and it'll be accompanied by a growing sense of security — and not a moment too soon.

AQUARIUS Conditions are changing. You'll be asked more often in the next few weeks to prove you know what you're talking about. With practice, you'll do fine.

PISCES What you're learning helps you realize how unrealistic you've been. Abandon a method that can't succeed, and adopt one that most likely will.
