**HOROSCOPES**

**ARIES** The direct approach won't work as well as a more subtle advance. So if at first you don't succeed, come around the back way.  
**TAURUS** Share your vision for the future with a sensitive, supportive person. It may be too hard to accomplish alone, but with faith and a good friend, anything is possible.  
**GEMINI** Push hard to get a tough job done. It might have been easier if you'd finished it sooner, but there's no use worrying about that now.  
**CANCER** Money may be a little tight, but it's out there. You can use your own creativity to make more. Accept a loved one's encouragement and inspiration.

**LEO** Finish whatever you need to do in order to strengthen your infrastructure. You'll be much more creative, and have much more time, after this basic stuff is done.  
**VIRGO** You're one of the few who can get a message across, when others aren't speaking. Help out a couple of people you know who can't see eye to eye.  
**LIBRA** By putting more work into your own place, your investment goes up in value. It's another way to make money and build self-esteem.  
**SCORPIO** You learn pretty well through books, but you learn best through hands-on experience. Maybe that's why you'll be able to do something that somebody else can't.

**SAGITTARIUS** People think you're lucky, and maybe you are. Luck isn't all you have going for you, however. It also helps to have good timing.  
**CAPRICORN** A person who's a good strategist could help you with the perfect scheme. Find a way to do your work faster so that you have more time to play.  
**AQUARIUS** Something that seems impossible at first really can be accomplished. Don't let yourself be intimidated. Stay cool and you'll win the prize.  
**PISCES** Compassion can travel great distances and touch hearts so far from your own. When one door slams shut, look for the one that opens.
