# HOROSCOPES

**ARIES** As you're figuring out your plans for the next couple of days, remember that excessive spending will cause you a bad case of buyer's remorse.

**TAURUS** If you concentrate on serving others, you'll never have to worry about others taking care of you. What goes around comes around.

**GEMINI** No time to rest on your past successes — there's another task to be handled. The faster you provide what's requested, the more abundant the reward.

**CANCER** Get your place in order. That way, you can entertain spontaneously if the urge strikes. They'll think you're prepared all the time.

**LEO** Focus on something you want to accomplish. Something you can be proud of. Something that will last for generations. Something solidly built on love.

**VIRGO** You'll now find it a little easier to get what you deserve. That's fair pay for a good job done. Insist on it if necessary.

**LIBRA** Make sure the money is coming in at regular intervals. Cinch the deal so you that you don't have to worry about it any longer.

**SCORPIO** You may be feeling slightly pressured. But the pressure might motivate you to start something that you've been thinking about too long.

**SAGITTARIUS** You're getting more powerful each day, but along with that power comes something else. You'll have to take on more responsibility, regardless of whether you want to.

**CAPRICORN** An older person appears to be in a generous mood. If you're accepting a new position or contract, get the terms in writing.

**AQUARIUS** You're pretty smart, but the exams aren't over. Don't start celebrating yet. You still have a few tough questions to answer over the next couple of days. Study!

**PISCES** If you're going out of town in the next day or two, take precautions. Mechanical difficulties could slow you down. Check out all your belts and hoses.
