HOROSCOPES

ARIES It's best to take whatever you've gained and squirrel most of it away. Don't blow it on candy or nights on the town, and don't spend it all on your friends.

TAURUS You should be feeling pretty good, but there's trouble ahead. An older person could throw you a curve, so don't take anything for granted. Watch out for a change in plans.

GEMINI Put your social life on hold while you get your finances straightened out. You're smart enough to get rich if you just apply yourself. Do the math.

CANCER Friends back you up when you ask for their help, and not a moment too soon. But don't let them in on all of your secrets — they don't need to know.

LEO Best to keep a lid on your enthusiasm while you listen to what's being asked. You can do it, but it's a much bigger assignment than you first imagined.

VIRGO You may have a few nagging annoyances to deal with, but don't worry. You're so smart and resourceful that there won't be any problems.

LIBRA You're a great talker — no doubt about that. But it's better to listen, and maybe to work more on straightening up your house.

SCORPIO Accept an offer of help from a person with distinct tastes. Just understand that you may get some unsolicited advice.

SAGITTARIUS You work hard for the money, or you will for the next couple of days anyway. Don't spend it all on books or computer programs. Save some for food and rent.

CAPRICORN The person who's right for you doesn't want you to spend a lot of money on gifts. He or she can help you stick to a tight budget, and this person only wants love in return.

AQUARIUS Domestic matters take precedence tonight and over the weekend. Get your place whipped into shape now so that you can relax later.

PISCES Continue to do the homework so that you'll do well on the test. One of the paths you'll go down is a dead end. Don't be dismayed. Find out which path is which.
