Horoscopes

ARIES Take it slow and easy again, even though conditions are improving. You'll be able to push yourself farther tomorrow if you catch up on your sleep now.
TAURUS You and your friends are on the same wavelength. They'll help you get rid of any tension that has built up from dealing with a person who doesn't share that same wavelength.
GEMINI Your partner's good idea could easily fall flat. Don't blindly follow a misguided scheme. Put in your two cents' worth.
CANCER This isn't a good day to travel, except in your imagination. If you have to go, there'll be more work than you expect. Sharing ideas with someone far away could be fun, but don't get

upset if you occasionally lose the connection.
LEO Your energy level may not be high, but it'll soon increase noticeably. Take this opportunity to rest. There's a busy week coming up.
VIRGO You may have heard that opposites attract, and you could experience that soon. You need somebody who has the talents you lack. This person can help you straighten out a mess. Challenges can be bonding.
LIBRA You could run into a problem, but don't let it stop you. If you need somebody to lend a hand, it's no disgrace to let them know.
SCORPIO Love is grand, but it can be expensive. No need to impress a loved one by throwing your money around. If this

is the right person for you, your hugs are more valuable than any gift you could buy.
SAGITTARIUS You may be changing some of your opinions. Give yourself plenty of peace and quiet so that you can ponder a new perspective.
CAPRICORN If you can't trust love, what can you trust? Your worries? That's ridiculous. If you're in a battle between the two, focus on compassion.
AQUARIUS You often gain great wisdom and insight by consulting with your friends. This time, that's not such a great idea. Go back to the textbooks first.
PISCES Be gracious even if someone else isn't. You'll gain the advantage. You may also make a profit on the deal.
