HOROSCOPES

**ARIES** Do the work you're assigned with love, and don't think about asking for money. What you'll gain is something you'd never be able to buy anyway.  
**TAURUS** Criticism from an older person isn't much appreciated. Maybe your ego is in the way. Assess the situation objectively. If that's not possible, ask a friend.  
**GEMINI** A conversation about finances could become rather sticky, so beware. There's no point in complaining. Suggest a better alternative.  
**CANCER** You don't like it when people raise their voices in anger in your home. Enforce that rule. The argument will be resolved a whole lot sooner, or they'll move it someplace else.  
**LEO** Try not to be intimidated by the size of the job. Start thinking about the specialists you can ask to give you a helping hand. Start out with a person who's good with machinery.  
**VIRGO** A night on the town may be out of the question, but that's not a reason to grieve. A night spent at home could be lots more fun anyway. Invite somebody you love.  
**LIBRA** Continue with the chores and all the changes that you're making. You may not get the project done, but you can make the commitment. Start with a bigger mess; that's part of being creative.  
**SCORPIO** You've got determination, and that ought to make up for whatever else you might lack. Keep learning as fast as you can. That helps, too, as you'll soon see.  
**SAGITTARIUS** Instead of wasting your newfound wealth, spend it on something important. Buy books, or sign up for a class. Keep your magnificent brain cells busy, and they will serve you well.  
**CAPRICORN** You're not going to change your position, and neither is the other person. Present the facts logically, and then step out of the way for a while. Let your adversary figure it out.  
**AQUARIUS** You work well under pressure. You tend to settle down and seriously concentrate. This is a wonderful thing. Now if you could do it without the pressure, that would be even better. Practice.  
**PISCES** Don't offer a needy person a fish; teach him or her to cast a line. Actually, going fishing together would be a wonderful thing. You'd teach each other a lot that you didn't even realize you don't know.

CALENDAR

**Kings of Mexico**  
 TODAY
