HOROSCOPES

ARIES You're a person who's famed for taking quick action, but don't do that now. Think about all the possible consequences carefully, before

TAURUS Improve your skills through practicing, so you get to the point where you don't have to think about what you're doing at all. It's worth the effort.

GEMINI Don't think about the money you'll make, or whether or not it's fair. Provide excellent service and you will be well rewarded.

CANCER You're not a fool, you're making choices based on good sense. If you're also

LEO You may feel bogged down by other people's worries, concerns and agendas. It may be wise to go along on the minor points, however. Make changes later.

VIRGO You have a laser-beam ability to concentrate now. Study something you can use to protect your family's interests. Discuss your insights later with someone near and dear to your heart.

LIBRA You may be tempted to reveal what you've learned, but that isn't a good idea. Hold onto all new information for another week or two. Well, another 24' hours,

unopposed. Move quickly to gain the terms and territory you're after. SAGITTARIUS Somebody may attempt to coerce you into making a commitment. Promises made now will last forever, so think it over carefully

CAPRICORN A person who has more experience in a particular area is of great assistance to you now. Be respectful, show appreciation.

AQUARIUS Pretend you're in charge of all the proceedings, even if you aren't. This will help you understand and anticipate the orders.

PISCES An absolutely brilliant idea escape. You'd work for your better write it down so you don't get all excited, and forget it.
