HOROSCOPES

**Aries** Your friends are about to come to your rescue, and not a moment too soon. You'd do it for them, so don't get all goofy when they do something nice for you.

**Taurus** A person with high ideals is good to know, if somewhat amusing. You provide the practical touch he or she is so sadly lacking.

**Gemini** A pleasant distraction could make you late for an appointment or for meeting a deadline. Take care, the boss is watching.

**Cancer** Money's tight, so go over your budget carefully. You're the perfect person for this job. You're a master at saving money.

**Leo** Your mate or partner has an idea

that seems, at first, quite inspiring. Don't rush right into agreement, though. It may have a fatal flaw. Investigate.

**Virgo** Paperwork interferes with what you'd rather be doing. Dig into it now and be better prepared for a meeting the day after tomorrow.

**Libra** You yearn for a quiet, yet meaningful conversation with one who truly understands. Don't do it on company time, however. That would be too expensive.

**Scorpio** Don't schedule lots of outside activities for tonight. Stay close to home and mull over all the stuff going on in your head.

**Sagittarius** You'll find it easier to

study for the next couple of days. It's also easier to fix things, because it's easier to read instructions.

**Capricorn** Don't brag to your friends about a bonus that may or may not be coming. Wait until the check clears before you discuss it or spend it.

**Aquarius** You're growing in power, but this doesn't necessarily make your life easier. A person who'd like to dominate you is getting a little worried.

**Pisces** Take care of paperwork for the next couple of days. Postpone travel and fun. Well, you can have fun, but use it as a prize to keep yourself motivated.
