HOROSCOPES

ARIES A moment of perfect bliss is marred by a choice you have to make. Will it be caffeinated or decaf? Mocha or latte? You can do this.
TAURUS Once you get the deal settled, you'll have more time to relax. Don't do that before the check clears, however. There'll be last-minute complications.
GEMINI While you're in the mood, learn how to be more practical. You can fix up your place yourself, and save a lot of money.
CANCER It's good to get yourself a treat every once in a while, but don't spend so much that you have to take an extra job to pay for it. Not unless, of course, it's something you really want.
LEO You'll have to focus more attention on work for a while. The more you do, the more you make, and that is a good plan.
VIRGO You'll be on a neatness rampage for the next couple of days. Be careful not to make a bigger mess than you had when you started.
LIBRA The main way to get your creative muse to show up is to tell a joke. Your sense of humor helps you find the answer to a tough question.
SCORPIO Conditions are not easy for romance, but it does seem to be that you could get a job that pays more. Is a move required? Only go if you must.
SAGITTARIUS You're about to be held accountable for every little thing you've said or done in the past few weeks. Stand up for the truth, and you're fine.
CAPRICORN Indulge in something to help you get more exercise while you're in your own home. You'll get a good deal, or maybe find it in your own attic or garage.
AQUARIUS A brilliant insight propels you and your team in the right direction. You might not have had the original idea, but you're the one who makes it happen.
PISCES Accept the applause for a job well done, and then learn to delegate. A chore you find extremely tedious will be fun for someone else.
