

Quigmans • By Buddy Hickerson

"When doing business, I always lock on a person's eyes when I shake their hand ... so they don't see me light-fingering their wallet."

HOROSCOPES

ARIES It's not a good day to travel. There'll be too many complications. You'll have enough on your mind if you hide out and go through your lists instead.

TAURUS Confer with a person who's got the technical expertise you lack. You might be planning to spend more than necessary, and you'd hate that.

GEMINI Be alert, and try to see things from many points of view. You can act as translator and mediator for people who can't get along.

CANCER The answer to your question might be found in the next county. Don't go there — you can't afford to take the time. Do make inquiries.

LEO You'd like to give a loved one something special, but the odds are high you'll pick an item that's not quite right in some way. Best to take the recipient along when you go shopping.

VIRGO The situation at home might be tumultuous, at least for a while. That's because it's a work in progress. Don't be too critical. Just keep putting in the corrections.

LIBRA Creative ideas are difficult to control. They seem to come when they want, not when you want them to. You can put yourself in a likely place for that to happen, however, and open up.

SCORPIO You'd like to buy your loved ones the sun and moon and stars. Miniatures are a better idea, or offer a rain check. You're a little short on cash.

SAGITTARIUS You don't have much patience with whiners, and you'll be even more disgusted if the person complaining is you. Let loved ones talk you out of a stinky mood.

CAPRICORN You're about to drop a preconceived notion. It got you this far, but now it's time to let it go. You've learned enough to start moving up to the next level.

AQUARIUS There's instability around your financial situation now. It's not a good time to buy, sell, loan money or start a new job. Take care.

PISCES Some of the ideas you come up with seem almost bizarre to others. That's partially because you have trouble explaining a complicated concept. Wait until you can show them.
