HOROSCOPES

ARIES An hour spent making lists and figuring out the route you'll take can save you much more time and money than that. Do it first.

TAURUS Investments in your own education always pay off well. Get a book or sign up for a class that will help you unlock your talent.

GEMINI Think about providing the best service. Don't think about the pay. If you do the former, you'll have plenty.

CANCER You'll soon be feeling more confident and looking more relaxed. Your intuition's excellent, and that gives you a big advantage.

LEO There's a bit of controversy going on. You'd be wise to step back and listen carefully. Don't add your two cents' worth yet.

VIRGO You're a practical person naturally, but you're under pressure. Advise an impulsive shopper to be patient. Don't give in and spend too much.

LIBRA The more you learn, the more you have to change what you thought before. Don't be embarrassed; let old stereotypes dissolve.

SCORPIO Get everything ready so you can go on a special outing this weekend. Go to the beach, lake, river or stream. You relax best near water.

SAGITTARIUS When the confusion dies down, assess the damage. Don't worry. You have hidden assets to draw upon. You should be covered.

CAPRICORN This weekend's good for visiting friends and relatives by marriage. That ought to give you a few good ideas. Get busy.

AQUARIUS You've got a rather analytical mind, but you're in a phase where you're willing to consider things that can't be verified — easily, anyway.

PISCES It's about time for you to relax. Schedule a celebration for this weekend, starting tonight, with your favorite companion.

Scene at USC
