Pi Kappa Alpha

The Pi Kappa Alpha Fraternity will soon be added to the University of South Carolina campus. This highly respected international fraternity believes the historically strong Greek community at USC presents excellent opportunities for a new colony.

Pi Kappa Alpha, commonly referred to as PIKE, was founded in 1868 at the University of Virginia. The establishment of the colony at USC will add yet another page to the Fraternity's distinguished 137 year history. Since 1868, the Fraternity has grown to 210 chapters and colonies throughout the United States and Canada with over 200,000 initiated members. One of the most influential fraternities in North America today, Pi Kappa Alpha proudly boasts the largest average chapter size and the most pledgings and initiations per chapter for any inter/national fraternity over the past decade.

"We have achieved this success by attracting the highest quality individuals," noted Expansion Consultant J.R. Parsons. "The men who represent PIKE have made the decision to make the most of their college careers. From the youngest person ever to receive the Congressional Medal of Honor to countless CEO's and United States Congressmen, Pi Kappa Alpha members have set themselves apart."

Pi Kappa Alpha takes a unique approach when establishing a new colony. The Fraternity recruits its members on a recommendation basis. Recommendations come from several sources including alumni, university administrators and faculty, athletic coaches, and student organizations. Recommended men then meet with Pi Kappa Alpha consultants, who use these meetings in the development of the new colony.

"Pi Kappa Alpha is seeking outstanding men with diverse backgrounds at the University of South Carolina to develop our Fraternity's newest colony," Parsons stated. "We believe Pi Kappa Alpha can elevate the college experience and bring future success to USC, the Greek community, and our colony members."

Parsons, along with Chapter Consultant Tom Olsen, will be on campus from March 13th through April 13th. Anyone interested in further information about this opportunity may contact them by e-mail at jparsons@pikes.org / tolsen@pikes.org or by phone at (901) 748-1868.
