a few days last week, but the thunder began to roar real spring-like Thursday, but it did not rain much until Friday, when it put in a full day, with plenty of cold east wind, to make it very disagrees ble to be out.

We had Prof. D. N. Barrow to lecture here Saturday, but the attendance was not as large as it should have been to show the appreciation due the state, for its efforts to dissminate agriculturval information, especially on the use of fertilizers; the time has come to stop the promiseous use of fertilizers, as the information is easily obtained as to the kind that can be counted on for the best results has proven by actual experiment. The time is not far distant when the farmer who goes heedlessly on will notice away to this nearly best actual experiment. A business census of Liberty, shows 19 selling goods fourteen of them carrying a line of jewelry, two banks, two liveries, two markets, two general repair shops; one oil mill and gin nery; one grist mill; two lumber dealers; two cotton mills; watchmaker and machine repair shop; three photographers; shoe shop; pressing club; barber shop; painters, and "Street & Walker" have one white and quite a number of the colored persuasion employed at present packing streets and hanging around in general; we suppose everybody understands that this is the last job except actually drawing breath for dear life, for ablebodied mankind.

The Boston Ladies Quartette filled the fourth lyceum course the 15th, which was much enjoyed.

The peach trees have begun blooming in the last few days and the oaks are budding, and spring will soon be here in earnest.

We notice quite a change in the appearance around the school building, the yard has been cleaned off and a flower yard arranged in front of the building with walks.

We Kepair Jewelry too just as skillfully as we do watches. If you have one or more pieces laid away as useless, bring them here and see what wee can do for them.

East End News

Mr. Editor, you have been complaining that the people did not send you the news, so we thought we would send you some from East end of Pickens for the first.

Our little town is improving; we have eleven families and a late land trade, which I suppose the man's object is to build, who winter layers. Eggs at \$1.00 and \$2.00 has traded with Dr. Cannon for per setting. a lot near the railroad, land here R. I. Red and Buff Orpington Eggs. is a good price, the people anticipate another cotton mill in the per setting of 15 Eggs. near future and, they know this is the place for it.

The last, sold by Judge Welborn sold one acre for three hundred dollars; he commenced at \$200 per acre, and the last one at \$300. The R. R. as every body knows runs right through it, has a station in the town. The only objection can be bought against it is, it is a little too close to the cotton mill, it has a nice election on April 9 at Cane Creek school house branch running right through the town, affording water by steam.

Mrs. Rebecca Holders land of 28 acres joins Cannon, Carey and Bruce on the north I. G. Welborn on the South and in three hundred yards of cotton mill, or we have no store in our little or before the 1 day of slay 1910 or be debarred payment and all persons town, but will soon have one I day of slay 1910 or be debarred payment and all persons town, but will soon have one I day of slay 1910 or before the 1 day of sla soon see their opportunity, the delivery wagons is delivering goods in the town every day, Notice of Final Setflement and Diswe have as healthy a place as can

COLOR in Fabrics

Will be a marked feature of the fall and winter season; a great variety of beautiful patterns is being shown.

Some of the new colorings are so attractive that men are apt to neglect the plain blue serge or black

We advise you to have at least one good blue or black suit, in addition to the fancy, colored weaves; and a black or Oxford Gray Overcoat, in addition to the fancy fabric.

This permits a change, and gives each suit a rest; to get cleaned ane pressed. It prolongs the life of all your clothes, to treat them this way.

Look into our show windows, you will see there a display of new models from some of the foremost makers, they represent the latest fashions, and you will spot them at once as
