## Leader Explains Campfire Work

By Mrs. Elizabeth Siddall  
Campfire Supervisor

When a girl is ready for second grade, she is usually ready to be a Blue Bird and she will probably be one until she is ten. The Blue Bird activities begin right where these girls are in their social development. That means that for the first time they are going to belong to a club because they want to. They will continue to attend if at their meetings they learn gradually how to get along with each other so that the things they do can be fun for all. This means that no single child will be the center of attention. Perhaps the shyest will become less shy and the boldest less inclined to push herself after joining in the friendship circle. This happens over a period of weeks. Then, too, very young people are tremendously interested in what makes the world go round. From morning to night mothers and fathers and other grown-ups go to work, or keep house, and life is such a busy hum that all the questions about how and why never do get answered. But learning how to live and grow up is the business of young people and the learning can't all be in school, or in church, or at mother's knee.

At ten the Blue Bird flies up from her nest to a Camp Fire Group, ready to compete against herself for the honor beads and the ranks she can earn only by trying out each new activity. Camp Fire will soon be established long enough in Clinton to have high school members. These

girls belong to the Horizon Club. The Horizon Club has many goals set by the girls themselves as they realize that soon they will be expected to take a responsible role in the world.

As a Regional Field Supervisor for the Southeast may I help you in thinking about your place in the local Camp Fire Council?

First, as a mother, if you believe Camp Fire's goals are your goals too, you are the one who encourages and sympathizes and supports your girl and her leader. You are not only grateful to the Community Chest for its financial support of Camp Fire but you work on the chest drive in some capacity if possible. Of course you give your share. And sometime during the years while your daughter is a member, you share the responsibility of leadership as an assistant, leader, sponsor, or on one of the council committees.

Clinton Council has done so well in giving an opportunity to all girls who wish membership that it cannot afford to let down in its efforts to make our slogan come true. "Be friendly; make friends; join the Camp Fire Girls."

Little Jane Ficklin, daughter of the L. C. Ficklins, Clinton, was four years old Sept. 17.

Bruce and Audrey Dees are the grandchildren of Mr. and Mrs. W. H. Beckham of Clinton Mills.
