

Wedding Vows 'Repeated' By HARRISES on Golden Anniversary

Mr. and Mrs. Robert Poe Harris celebrated their golden wedding anniversary July 20. They took their wedding vows again, in a ceremony read by Rev. J. W. Spillers, pastor of Clinton Mills Calvary Baptist Church. The Rev. Frank Cagle and the Rev. Levi Rigdon, both of Pelzer, assisted Mr. Spillers. Mrs. Jack Langford of Greenville, sister of Mrs. Harris, and Clyde Harris of Pelzer, brother of the "groom", served as attendants. The couple also exchanged rings, gifts from their daughters.

CLINTON NEWS

guests of Eulila Owings on Thursday.

Mrs. Lucille Edmonds and children have as their guests recently Mrs. Agnes Floyd of Greenville, Linda Felt and Carroll Laster of Spartanburg, Mr. and Mrs. J. M. McPeters and children of Albuquerque, New Mexico, and Jimmie McPeters of Warrentville, S. C.

Little Douglas Ward, son of Mr. and Mrs. Claude Ward, is improving after undergoing a tonsil and adenoid operation.

Marion Lawson has the measles.

Carolyn Burden, daughter of Mrs. Maggie Burden, had a birthday August 17.

CARDING NO. 2

1st Shift

By John Fuller

It was a great pleasure to read about our former supervisor, Mr. Harris, who recently celebrated his golden wedding anniversary July 20th. They took their wedding vows again, in a ceremony read by the Rev. J. W. Spillers of Clinton. The ceremony took place in Pelzer.

Mr. and Mrs. O. S. Gilliland celebrated their 34th anniversary

The former Amanda Caldwell, Mrs. Harris is the daughter of the late Mr. and Mrs. W. D. Caldwell. Mr. and Mrs. Harris have three daughters, Mrs. W. D. Middleton of Lebanon, Ky., Mrs. E. C. Moody and Mrs. Anthony Selario, both of Detroit, Mich.

The three daughters were hostesses at a reception at the Harris home from 2-6 P. M. Lunch was served during the reception.

Mr. Harris was a supervisor at Clinton Mills from January 31, 1941 until his retirement March 30, 1956.

sary the 25th of August.

We are happy to have Tommy Beaman with us.

John Fuller was 19 on the 19th day of August.

Brooks Dunaway and family are getting a lot of pleasure this summer out of their new hobby of farming.

SPOOLING

3rd Shift

By Bill Lowery

Kathy and Joe Falasca of Irvington, New York, are spending a few weeks with their aunt, Mrs. Billy Henderson, and Mr. Henderson.

Teresa Seay celebrated her third birthday August 13.

Paul Hardman of the U. S. Navy spent a leave at home with Mr. and Mrs. Fern Hardman and Mr. and Mrs. Billy Lowery. Paul brought home a special surprise, his wife, the former Miss Mary Love of Muskogee, Oklahoma.

Billy Lowery spent two weeks with Battery B, Clinton National Guard at Fort Stewart, Georgia.

We hope that everyone who plans to attend the Darlington Southern 500 on Labor Day will be especially careful on the highway. I hope to see some of you there.

OFFICE

By Marie Weir

Mrs. Leila N. Johnson had as her weekend guests, her son, Charles, who is a rising junior of the Medical College of South Carolina, and Miss Frankie Fairev of St. George, also a medical student in Charleston. They motored to Greenville where they were all guests of Dr. and Mrs. Napoleon Hill.

Miss Betty Jo Chitwood visited friends in North Charleston recently.

Mr. and Mrs. Clinton West, with Mr. and Mrs. C. A. Cooper and family, visited in Great Falls, S. C., this past weekend.

What Am I Like?

Ever ask yourself this question: "Just what kind of an individual am I?"

A few minutes quietly thinking about the answer is interesting and often helpful. As part of this question, ask yourself further:

—Am I generally liked by others? Why

—How do I treat others? Am I helpful? Do I always let them know that I think I've got all the answers?

—What kind of people do I like the best? Am I similar to them in certain ways?

—What situations give me the most trouble? What kind of problems do I shy away from?

Understanding ourselves is helpful. We may not be able to make ourselves over. But, knowing our weaknesses and strengths helps us improve our ability to deal with other people more effectively.

Jimmy Gregory, son of Mr. and Mrs. James Gregory, Clinton Mills, celebrated his 2nd birthday June 30. His aunt, Margaret Chilton, is also employed at Clinton Mills.

Timmie Gregory, nephew of Margaret Chilton, Clinton Mills, celebrated his 2nd birthday July 19.

NURSE'S COLUMN

Back to School Visual Check-Up Advisable

by Myrtle West, R.N.

In this day of ever-increasing educational demands, all parents should see that their children are as well equipped as possible to shoulder their school burdens. An annual eyesight examination is one of the best means of doing this, for vision is a pupil's first and foremost tool of learning.

Twenty-five per cent of America's 32,000,000 school-children have seeing troubles, and many of them don't realize their vision is abnormal. Some of the more pronounced cases withdraw from their difficulties by becoming day dreamers and constantly gazing out of the window. Others make a determined effort to study but find that their vision blurs after 10 minutes or so and have to rest between brief periods of reading. Others suppress one eye to avoid seeing double. Still others, frustrated by inadequate achievement, resort to bad behavior in an attempt to find some avenue of self-expression.

A number of studies have shown a decided relationship between visual efficiency and scholastic performance. After a survey was made of one school and the children with seeing troubles received eye-care, the achievement level

of the whole school went up about 15 per cent.

Another study of 400 fourth grade children in five different schools produced significant results. Out of 126 pupils who were found to be visually below average, 75 per cent were in the lower half of the arithmetic class and 45 per cent were in the lowest quarter of that class. As for the reading class, 80 per cent of the 126 who were visually below average were in the lower 60 per cent and 35 per cent of them were in the lowest 20 per cent. To look at the situation from another point of view, of the 228 children in the lower half of the arithmetic class, 41 per cent were visually below average, and, of the 255 in the lower 60 per cent of the reading class, 34 per cent were under average visually.

Children's seeing troubles should be corrected promptly so that they may not develop any farther than necessary. In fact, modern specialists sometimes prescribe temporary preventive measures to protect a youngster's eyes from stresses which would be apt to bring on visual errors. The safest system is to take a child to an eyesight examiner at the age of about four and every year thereafter.

It Hurts To Get Hurt

Did you ever tear off a fingernail? Hurt, didn't it? But have you ever stopped to think how much more it would hurt if you lost your whole hand? Ever get a good bump on the head? That hurts too, but it's nothing compared to a fractured skull. Just about everybody has stubbed a toe in the dark. It's no fun, but it's not near as bad as a broken bone. A cinder in the eye is painful, but nothing like a jagged piece of metal.

Accidents mean pain, and no insurance, workmen's compensation or money in the bank can help ease that. If you get hurt, it's you who'll do the hurting.

B AS THE B!

Aerotechnicians can prove by their formulas that a bumblebee cannot possibly fly, because its wing area is not properly proportioned to the shape and weight of its body. But the bumblebee doesn't know this, and goes ahead and flies anyway... The mental attitude with which you attack any problem, it is apparent, has more to do with your success or failure in handling it, than anything other people may think about it!

Rust comes off knives quickly if you stick the blade in an onion for half an hour before washing and polishing.
