

MANY EMPLOYEE'S YOUTH OFF TO COLLEGE

Many sons and daughters of Clinton-Lydia employees will leave next month for colleges in this and other states. A number of these young men and women have been employed in the mills during the past summer where they gained valuable work experience and earn money to aid with college expenses.

Four of these young people will receive financial assistance for their advanced education as Mercer Silas Bailey Scholarship recipients.

This year's winners, Clinton's Mary Cunningham and Lydia's Cecil Davenport were chosen, as were last year's winners, Shirley Dunnaway and Martha Joan Reeder, on the basis of character, high school scholastic record, qualities of leadership, participation in student and community activities, their goals in life, and financial need. Each was permitted to pursue their chosen course of study at the South Carolina College or University of their choice.

Parents of these young people are justly proud of this fine group, however, their return to school is met with mixed emotions. They are pleased that they are able to make this opportunity available but regret having them away from home for the semesters ahead.

Every effort was made in an attempt to obtain a complete list of those going off to college. As in most instances it is almost impossible to get a complete list, so the following can be considered as only a partial list.
