Geneva 1 and 2: Jackie Adkison, Wallace Vinson, Blonnie Monk, Pauline Mayhair, Herdis Brown, Belinda Ogburn, Woodrow Weeks, Beil Grimes, Doyle Slaughter.

Clinton Mills "First In Safety" bumper stickers have been widely accepted. They have told the Clinton Mills First In Safety message as employees showed their interest and participation as they drive their vehicles to and from work and in the surrounding areas.

First In Safety

Clinton Mills was recently recognized for its overall safety performance for 1981 as compared to 1980. Examining the plaque which the company received are (left to right): Floye Nelson, Mark Davenport, A.M. Shumate and Carrie Boyd. Clinton Mills is continuing its efforts to improve further its safety and accident prevention performance.

Clinton Mills, Inc.
P.O. Box 1215
Clinton, S.C. 29325

Dear Bob:

Congratulations to you and Clinton Mills for the excellence demonstrated in the winning 1981 Most Improved Award in Group C for 1,000 to 3,999 employees in ATMI's "First in Safety" Contest. Recognition of this fine achievement by your company and by the winners in the other categories is planned for the ATMI annual meeting on the morning of April 15. We hope that you will be there to receive your company's award.

Finishing in front of the tough competition in each category means that the people in Clinton Mills take the challenge of safety seriously. Achievements such as yours will go a long way toward making the textile industry "First in Safety".

We plan public release of the names of the winning companies immediately following presentation of the awards. We will appreciate your cooperation by keeping this in mind as you inform people in Clinton Mills the good news.

We look forward to seeing you on the 15th. Sincerely,
Robert E. Coleman
President

A Message To All Employees

I'd like to take this opportunity to personally thank each of you for your efforts in enabling Clinton Mills to win the most improved safety award in the American Textile Manufacturers Institute's First in Safety Contest.

For many, many years Clinton Mills has been a recognized leader in safety and accident prevention.

As we continue working safely together, let's strive to maintain our position of leadership in the field of safety.

Each of you is responsible for this safety award because of your working in a skilled, efficient, and safe manner.

George H. Cornelson

Steven C. Wright

Anita Glenn

Honor Students At Piedmont Tech

Two Lydia Plant employees have been named to the Phi Theta Kappa National Honor Society for Junior Colleges.

Steven C. Wright, a Lydia Loom Technician, is a Textile Management student at Piedmont Technical College.

"I go four nights a week," stated Wright, a former Army veteran with eight years military service. He is currently staff sergeant of the Clinton National Guard Unit. When asked why he enrolled in textile management, Wright stated, "I have done well since being at Lydia. I've progressed from service operator to warp hauler to smash specialist rather quickly. After mastering these jobs, I learned weaving and then trained as Loom Technician."

At the present, Steve is a Lydia Loom Technician Instructor.

In addition to attending Tech., Wright attended the University of South Carolina for 2 1/2 years where he studied engineering.

Wright's father, Carter, is a No. 2 Plant Loom Technician. His mother, Ruby, is a Lydia Weaver.

Anita Glenn, a Cloth Grader, is in her "third quarter" at Tech. majoring in Computer Programming.

"I wanted to improve myself, so I got a list of courses offered at Piedmont Technical College. After a careful review of the curriculum, I chose computer programming."

A graduate of Whitmire High School, Anita had been exposed to data processing work while employed by Rockwell International.

Both Glenn and Wright have a straight "A" average in their particular field of study.

Quick Facts About Textiles
