

RESOLUTIONS OF RESPECT.

In Memory of L. E. Horton, of Flint Ridge Council No. 12, Junior Order.

Resolutions by the Flint Ridge Council No. 12, J. O. U. A. M., of Heath Springs, S. C., on the death of Bro. L. E. Horton, who died on the 7th. of January 1916.

Bowed with sorrow we come together to put on record in our minute book the sad fact that our beloved brother has passed away over the river.

Silently one by one God calls us home one by one and we are here to give utterance as best we can to the great sorrow which is ours.

Forever we have parted with an efficient executive; we have lost one of our shining lights; be it

Resolved, that in his death the order has lost one of its most devoted members and desires to express by these resolutions the high regard in which he was held.

That while we mourn his loss we bow in humble submission to the divine will.

That we extend to the members of his family our deepest sympathy in their great bereavement.

That these resolutions be recorded in our book to his memory as one who was loving and loyal.

That a copy of these resolutions be sent to his family and published in the Lancaster News.

How to Treat Croup Externally

Rub Vick's "Vap-O-Rub" Salve well over the throat and chest for a few minutes—then cover with a warm flannel cloth. Leave the covering loose around the neck so that the soothing medicated vapors arising may loosen the choking phlegm and ease the difficult breathing. One application at bedtime insures against a night attack. 25c, 50c, or \$1.00. At druggists.

Golden Rule of Life.
Avoid extremes in living. Be generous (as generous as you can) getting as much pleasure as possible out of life, and take care that proper provision is in some way made for the future.

How Much Land There Is.
If all the land now above sea level, 25,000,000 cubic miles, were spread uniformly over the globe, it would form a shell about 660 feet thick.

Working With Intelligence.

(Continued from Page 2)

fill is safe with God, the results are His for all eternity, and it is by those results that He takes our measure. If we work in an indifferent way, with a more or less unappreciation of our responsibilities we must expect to abide by the indifferent results in just the same way that we shall share in the reward which follows worthy effort. To many such reasoning may sound dull and monotonous because we do not all look upon the obligations and responsibilities of everyday life as keys to the better life, but when we come to think how little else there is in this world really worthwhile save the working out of our salvation, we cannot afford to underrate our obligations. Life in many ways is simple enough; in others it is difficult of adjustment and replete with conflicting interests, but the latter condition is only possible to those who have never found the way, or who having found it have been so unfortunate as to lose it. We cannot get on very rapidly or make much progress unless we are sure of our way, and the sooner we sort out those interests which are vital to our existence and keep them apart from the non-essentials of life the quicker we shall proceed over the path in which our feet are set to the goal just ahead.—News & Courier.

ANNAPOLIS DEBUTANTE

Miss Gladys Christy, one of the season's most attractive debutantes of the "navy set" of Annapolis, is the daughter of Capt. Harley H. Christy, U. S. N., and Mrs. Christy, and her debut was one of the features of the Annapolis season.

HUNTS 19 YEARS FOR UNCLES

Men Named Poe, and Relatives of the Writer, Thought to Be in California.

Chico, Cal.—Continuing a search for her two uncles which has extended over a period of 19 years, Mrs. Nellie E. Miller, whose father was the first cousin of Edgar Allan Poe, arrived in Chico recently.

Her uncles, Edgar Allan Poe and Clifford Poe, were last heard from in 1896, when she was at her home in Hutchinson, Kan., at which time they were in San Francisco, having come there from their home in Hutchinson.

Mrs. Miller came to California in 1896, and since then has conducted a search for her uncles, which has taken her to various parts of California. She first went to Redding, where she entered the employ of Judge F. P. Primm as stenographer.

From Redding she went to Yakima, Wash., where she remained for nine years. For five years she was employed as court reporter there. Leaving Yakima she went to Eureka thence to San Francisco, and thence to Reno, Nev., where she entered the employ of Senator Huskey.

Mrs. Miller has had no trace of her uncles since the San Francisco fire and earthquake in 1906, and fears they perished in the disaster.

She believes her uncles, if alive, would be anxious to hear from her and is unable to account for her inability to locate them in this event.
