

When You Pay a Little More

For a suit of clothes, you generally get what you pay for---a little better quality and a little better service.

Same Way With Printing

You pay a little more for a little better grade of paper and a little better grade of work.

When We Print for You

You get the best that can be made with modern type faces, modern machinery and good papers.

Compare Quality and Quantity

And see if you pay any more---if you do, it is because you are getting more quality.
