SOUTH CAR

### OF INTEREST TO THE FARMERS

BY W. F. HOWELL, COUNTY AGENT.

#### FEEDING FOR EGGS.

Clemson College, September 8.—Probably the most important reason why more eggs are not produced in South Carolina is the overfeeding of corn. The fowls are frequently kept in unsanitary mite-infested houses, or roost in the trees, or the flock contains so many different kinds and ages of chickens it is impossible to feed or manage them intelligently. These unfavorable conditions should be remedied says Prof. F. C. Hare of the Poultry Division, who makes the following suggestions.

There is one constituent of food that has an important bearing on egg production and the development of chicks. It is called protein, and from it is made the flesh, feathers, blood, and the whites of the eggs. If less than 15 per cent of protein is present in the ration, the hens lay few eggs, while the biddies are stunted, become stupid, and die.

Corn or hominy contains only a little over 10 per cent of protein, so that unless the poultry can supplement their supply of this constituent from bugs, worms, or meat found on the range, we should provide the hens and chicks with foods that contain more protein. This is exactly where many persons fail with poultry: they feed their fowls in the winter, when there are no bugs, the same as in the spring, when there are insects everywhere.

Buttermilk and Corn. Where buttermilk or thick, sour milk, is available, the simplest and best way to provide the needed protein and balance the ration, is to give the layers and growing chickens all the buttermilk they can drink. Feed whole or cracked corn once daily in warm weather, and twice daily in cold weather. If the hens range around the mule lots and pick up waste food, omit the feeding of grain—simply putting out pans of buttermilk.

All Grain Ration. A balanced ration for laying hens can be secured by feeding twice daily equal parts by weight of corn, peas, and oats. This food will produce eggs in winter from well matured pullets.

Middlings and Corn. Another sim-

ple method for obtaining eggs in winter is to feed wheat bran and middlings mixed with water each morning and to feed corn at night. It would be preferable to mix the shorts with buttermilk, but shorts mixed with water will give good results.

#### GRAIN GRADING AT STATE FAIR

Clemson College, September 8.—In order that farmers, country grain dealers, millers, county agents, and other persons interested may have an opportunity to familiarize themselves with the correct methods of grading grain under Federal standards for wheat, shelled corn and oats, Federal Grain Supervisor, K. B. Seeds will conduct grain grading demonstrations in connection with the Combined Agricultural Exhibits of the United States Department of Agriculture at the State Fair. At this demonstration a fully equipped grain inspector office will be arranged with exactly the same equipment and appliances that are used by the licensed grain inspectors in the large markets and offices of Federal Grain Supervision. Samples of wheat, shelled corn and oats will be handled the same way as in actual inspection to show how the grades are determined. A more limited and less expensive set of equipment which has been suggested by the U. S. Department of Agriculture, as convenient to apply to Federal grades at country points, will also be shown.

In order to make the demonstration thoroughly practical, farmers are invited to bring samples of their grain to the demonstration booth in order that factors that determine the grades may be indicated on their own grain.

Each day formal demonstrations will be made in the "open school," exactly as would be in the office of any inspection department in the large markets. Besides the grain grading equipment, type trays showing grades, grades and varieties of grain, publications of the U. S. Department of Agriculture relating to grain and grain grading will be distributed, and photographs will be on display showing various phases of

Federal Grain Supervision Work. The importance of these demonstrations, says F. L. Harkey, Agent in Marketing, has been emphasized because the U. S. Grain Corporation is requiring the proper application of the Federal grades by country buyers in order to properly reflect the guaranteed price scheduled to the local points. Properly applied grades insure a premium grade for premium quality wheat. One object of the demonstration is to enable local wheat buyers to be fully informed as to the grade requirements.

#### JOHNSON BLAMES PRESIDENT FOR H. C. L.

(Continued From Page One.)

er, every violation of natural right and self-determination, every oppression of the strong the weak. Natively the President remarks that secret treaties hampered him at the peace conference and embarrassed the whole settlement. Inferentially he concedes the wickedness of those hampered nor embarrassed to such a degree as to cause him not to stand manfully and courageously for his often expressed principle. Not only did he abandon his idealism, but he became surrender his idealism, but he became a part of the secret treaties he denounces when he united in making them the basis of action at Paris.

#### THE FOOD CONTROL ACT HAS BEEN PASSED

Provides Fine of \$5,000 and Two Years in Prison for violation.

Washington, Sept. 15.—The house bill extending the food control act to penalize profiteering, as requested by President Wilson and Attorney General Palmer as a means of reducing the cost of living, was passed by the senate and sent to conference.

In addition to penalties—\$5,000 fine and two years' imprisonment—for profiteering, hoarding, destroying or monopolizing the food and other necessities or "making an adjust or unreasonable rate or charge," the bill extends the law to include wearing apparel and containers of food, feeds and fertilizers as well as food, fuel fertilizers and agricultural machinery. The life of the proposed law

would terminate upon the proclamation of peace.

Although many senators criticised the bill, and with general expressions of reluctance grudgingly assented to its passage without a record vote, there was virtually no opposition to the measure and only about a dozen senators followed its course.

Only one amendment of substance was made to the bill as passed by the house—a rider proposing an official body to supervise property rentals in the District of Columbia to prevent profiteering.

The senate struck out a committee amendment, championed by Senator Smith, democrat, Georgia, authorizing specifically the establishment by the department of justice of "fair price" committees and providing that charges above the price schedules fixed by such committee should be considered to be profiteering. As passed, however, the bill does not prohibit or limit the department's plan to administer the law through the agencies of voluntary "fair price" committees. All of the house provisions designed to extend the open of an "put teeth" in the law were adopted by the senate.

#### NO MORE RATS

or mice, after you use RAT-SNAP. It's a sure rodent killer. Try a Pkg. and prove it. Rats killed with RAT-SNAP leave no smell. Cats or dogs won't touch it. Guaranteed.

25c. size (1 cake) enough for Pantry, Kitchen or Cellar.  
50c. size (2 cakes) for Chicken House, coops, or small buildings.  
\$1.00 size (5 cakes) enough for all farm and out-buildings, storage buildings, or factory buildings.  
Sold and Guaranteed by Lancaster Drug Co. and W. S. Stewman & Co. t

#### PROFESSIONAL CARDS

DR. J. REECE FUNDERBURK, Dental Surgeon.  
Office Hours:  
8:30 to 12:30 A. M.  
2:00 to 6:00 P. M.  
And by Appointment.

# See Plyler

## The Live Wire in Real Estate

Because, "If It Can Be DID---PLYLER WILL DO IT"

- 120 acres two miles from town, on public road; creek runs through this place; cheap at \$6,000.
- 100 acres known as Caskey place, 2 1-2 miles from town; some timber and some good bottom land; only \$35 per acre.
- 100 acres belonging to Mr. W. B. Plyler, one mile from Antioch school and church; almost new house and barn. Buildings are easily worth \$2,500. This is a bargain at \$5,000.
- 107 3-4 acres known as Hunter place, two miles from town; only \$3,800.
- 223 1-2 acres on crossing of Liberty Hill and Brown's Ferry roads. Close to school and church. \$40 per acre with terms.
- Two lots on East End, \$50 each, 40 x 200 feet.
- Nice, net, almost new 4-room house with hall; 1-2 acre lot; Can't put this house up for \$1,500; house and lot for only \$1,500. Located on end of South Main street.
- Five-room house and lot, almost new house with wood fibre walls; ceiled overhead; Can't be erected today for \$3,000 Only \$3,000 for house and lot.
- Three two-room houses that rent for \$4 per month each. A good investment for \$1,200.
- Store room on Midway, nearly new \$8,000
- From \$10,000 to \$12,000 worth of lots in town.
- Six-room house and lot, fine location, only \$3,000
- Mr. J. K. Helms' nice improved farm within two miles of town. This farm is one of the best bargains that I have. It has nice 6-room dwelling, big barn, cow shed, garage, cotton house and buggy shed, five tenant houses, two of these houses have three rooms and small barns, fine well of water, in house and machinery, including 2 70-saw gins, boiler, engine, belting, etc. All of these buildings are in first class condition. Soil is red clay loam, which is the best that you can buy all things being considered. Price \$75.00 per acre.
- Mrs. Laura Connor's plantation seven miles from town on the Wadesford road. This farm has some very strong land with nearly 75 acres in branch bottom. The bottom land alone is worth the price that I ask for the place. One mile to school and one-half mile to church. Dwelling, barn, three tenant houses, about 20 acres in fine pasture; 232 acres, priced \$31.50 per acre.
- Nice little place of 50 3-4 acres owned by Mr. Sanford Rowell. Known as Sam Mack place; 2 miles from Tabernacle school and church, 3-room and kitchen, well and ood spring, 400 bushel capacity crib with 2 stalls. This place has over \$1,500 worth of buildings on the place. Price \$2000.00.
- \$35.00 per acre buys Mr. Mobley Parks' plantation of 264 3-4 acres. This place has five building, 20 acres pasture 3 good wells, some branch bottoms. Don't wait long on this place. It is cheap at this price.
- I have a place that I can sell you for \$20.00 per acre within one mile of Tradesville, 1-2 mile of Spring Hill Church and school. Nearly half under cultivation, about 8 acres bottoms, 4-room dwelling, barn, 15 acres good pasture, 130 acres in this place. See me att once about this place.
