NEW-YORK, FEBRUARY 7.

## LATEST FROM EUROPE.

The packet ship *Albion*, which arrived yesterday, sailed from Liverpool on the 1st of January. Capt. Williams has favored the editors of the *Mercantile Advertiser* with papers to that date, and London dates to that of the 30th Dec. both inclusive. We have also received Lloyd's Lists of the 24th and 28th December.

The papers contain no political news. The House of Lords have passed a bill laying a duty, the same as is now paid on newspapers, on all pamphlets, with a view to check the circulation of seditious writings.

American Stocks at London, Dec. 23—3 per cts. 62 1/2 nominal—old 6 per cts. nothing doing—Louisiana, 6 per cts. do.—New 6 per cts. 101, a 102—Bank shares 24. 10s.

It is stated that the counties of Roscommon, Galway, and the upper part of Sligo, are in a disturbed state—the disaffected assemble in great force, seizing arms, administering unlawful oaths, and swearing even magistrates and gentlemen who fall in their way.

No information had been received from the discovery ships, and it was expected they would remain out during the winter.

LONDON, DECEMBER 30.

The funds have been improving for some days, Consols, for account, are this day at 68 1/2.

LIVERPOOL, DECEMBER 31.

In the course of this month our Cotton market has undergone no material alteration—the demand in the early part of it was moderate—fairly it has improved and been steady, though not of a great extent. The sales of Sea Islands at auction in the course of this month have been considerable, and have gone off at rather higher rates, but the ordinary and middle qualities of Uplands are about 1 1/4d and New-Orleans about a 1/2d lower. The finer qualities of both descriptions being scarce have continued steady. Some small parcels of new Uplands, which arrived in the early part of the month, have sold at 1 1/4d, quality good.—Two vessels have arrived with new cotton and more will soon come in. It may reasonably be expected there will be a very good demand for new cotton—the market is steady with a fair demand from the trade. We quote Uplands from 12 to 13d from ordinary to fair—good and fine up to 14d. N. Orleans 11 1/2d a 14d good and fine up to 16 1/2d.—For E. India Cottons, the prices are scarcely supported.

The precise mode in which the new duties on cotton are to be taken, after the 5th of next month, is not yet fully determined—it will probably be on a fixed valuation or fixed duty per lb.

LONDON, DECEMBER 28.

The Eleven persons delegates from the disaffected districts, who were apprehended at Manchester, have undergone an examination before the Magistrates. Ten of them were committed to Lancaster Castle for want of bail, charged with a conspiracy.

A considerable reduction has taken place in the Hanoverian infantry. It now consists of 12 regiments. The population of Hanover amounts to 1,300,000. The Prince Regent has purchased the country of Spiegleberg from the government of the Netherlands, and a loan is opened at Hanover for the payment of the purchase money.

A very important question has lately been discussed by the royal board of trade at Stockholm, in relation to the application of the governments of the United States of America and of the Netherlands to the Swedish government, for the addition of what is called the "bill of productions." This bill prohibits the subjects of foreign states from importing into the Swedish ports any goods except such as may

be considered the production of their own country. The Board of Trade, with the exception of their President, are against the repeal of the bill. The subject has been referred to his Swedish Majesty.

The King of Sweden, according to advices from Berlin, has ordered 100 medals to be struck in gold, silver and copper, in honor of a hundred individuals of all nations, who have contributed to the cultivation and improvement of mankind.—Who are to compose this centesimal group of universal benefactors is not even hinted at.

**Longitude &c.**—La Borronne De Paris Boisrowray, has arrived in England from Paris, charged with a commission to present to the Admiralty Board a theory of the compass, which gives the longitude and latitude of the globe, for the discovery of which the whole world has so long looked. The husband of this lady has submitted his theory to the academy at Paris. His wife's mission to London was to prevent delay, as well as to have a trust-worthy agent.

The newspaper Stamp Duty bill has had a second reading in the House of Lords. Lord Donoughmore observed that ministers had wound up their measures of indiscriminate coercion to an appropriate conclusion by this attack on the liberty of the press.

The King of England's landed property in the city of Chester has been sold for 27,516 pounds.

A dreadful eruption of Mount Vesuvius commenced during a severe tempest on the 26th of November last.

An English paper states that it had been ascertained that the bones brought to England were not Tom Paine's bones, but those of a poor negro!

The editor of the *Liverpool Mercury* states "that eccentric and celebrated work [American Sketch Book] of Washington Irving, Esq." is in his possession.

## CAMDEN.

THURSDAY, FEBRUARY 17, 1820.

It is stated in Letters from Washington, that in a few days, a proposition will be made in Congress, to fund the Yazoo Stock. Originally there was about \$5,000,000 of this stock—and it is said there is yet unredeemed 1,600,000. It bears no interest, and is redeemable out of the sales of land in Alabama, &c. conveyed to the United States by Georgia.

**Legislative Bounty.**—A committee of the Pennsylvania Legislature, appointed to enquire into the "extent and causes of the present general distress," have reported sundry resolutions, recommending to the Commonwealth to borrow a sum of money, to be loaned to the inhabitants of the several counties and cities upon landed security, in a ratio proportioned to their representation—likewise to appropriate a sum for internal improvements, and to deprive certain Banks of the power of purchasing property sold under their own judgments or mortgages.

A writer in the *St. Louis Enquirer*, (says the *Boston Gazette*) demonstrates the practicability and advantage of our trading to the East-Indies, by the Columbia and Missouri rivers. Time will work wonders. If our merchants find it to their interest to go this route, they will soon take measures to put it in execution. A respectable house in Boston, not long since, received information of the arrival of a valuable ship at Canton through this medium.

A Bill has passed the Maryland House of Delegates, staying all executions on judgments until November 1821. In the same House an attempt has been made, to remove disqualification of Jews in the State of Maryland.

COLUMBIA, FEB. 15.

Arrived at Granby, on Friday evening last, the *Steam-Boat SOUTH-CAROLINA*; Captain JUST, (with a tow boat in co.) 13 days from Charleston, with sundries, to A. Herbermont, and others. She left Charleston on the 29th ult: about 3 P. M. and arrived at Granby on Friday the 11th about the same hour. This arrival may be called the first fruits of the enterprising spirit which actuates our citizens, and is the pledge of others much more extensive and important which are unfolding. It also shows the growing importance of our town. Five years ago the enterprize was deemed altogether impracticable; it is now accomplished with ease; what five years more will produce, perhaps we cannot well imagine.

The South-Carolina is a beautiful boat, about 110 feet long, and does not draw three feet water.—Her engine is of twenty-four horse power, of clean and beautiful workmanship, and plays admirably well. There was abundant water in the river, and captain Just gives it as his opinion, that she can ply with ease during ordinary high water. In entering the river she struck upon an oyster-bank, which is the only accident of the slightest nature which we could discover in pursuing the log-book, which the captain politely furnished us. There was much difficulty experienced on the passage in procuring wood. One entire day and several parts of days were lost in this way. This and other minor obstacles will be obviated as speedily as possible, when she will be able to make an ordinary run from Charleston to Columbia in eight or ten days, and back again in six or seven.

The tow boat has discharged her freight, and is now taking in a load of cotton, and it is supposed they will sail for Charleston this day or tomorrow.

CHARLESTON, FEB. 10.

**During Murder.**—About 7 o'clock on the evening of Tuesday last, a party of Runaway Negroes were observed to land upon Dewees's Island, between Long-Island and Cape Romain. Two young men, sons of Capt. Delicesseline, who reside there, with a Mr. Laval, a visitor, went out in pursuit of them. One of the Negroes was immediately overtaken and secured, while one of the young men, Mr. Thomas J. Delicesseline, pursued and came up with a second, and seized hold of him by the coat, which came off in the scuffle—Mr. D. commanded him to stand, at the same moment presenting and snapping his gun at him; but it missing fire, the Runaway instantly drew a pistol from his breast, heavily charged with buckshot, and discharging it into Mr. D's face, killed him instantly upon the spot. It was some time before his companions were apprized of his fate, it having become quite dark. When they found him, the murderer had fled.—One other of the gang, a fellow belonging to Mr. Whitesides, was subsequently taken by Capt. Delicesseline's Negroes; he stated that the runaway who shot Mr. D. was named *Albro*, and that he belongs to Mr. Brandt, of Long-Island.—He has not yet been taken, but we understand a detachment of Riflemen was ordered out last evening for the purpose.

The distressed father of the unfortunate young man, was in town yesterday afternoon, and furnished the particulars of the tragical event.

Various Letters from Officers of the Missouri encampment, give favorable accounts of the soil and climate in vicinity of the new settlement. They have an abundance of game, such as elk, deer and turkeys; but they complain for the present want of vegetables.

The act of the Legislature of Pennsylvania abolishing imprisonment for debt in that state, has received the signature of the Governor, and is now a law of the state,

The last Calcutta Accounts, speak of a dreadful earthquake, which happened about the 17th July—by which in one town above 7000 houses were thrown down, and 1000 persons buried in the ruins.

A novel proceeding is mentioned in the Frankfort (Ken.) papers. One of the members of the present House of Representatives in the state of Kentucky, was indicted as guilty of a felony in the state of Indiana, about two years ago, for seizing and bringing away his own slave. Since the commencement of the present session of the General Assembly, the Governor of Indiana has made a demand on the Governor of that state to deliver this gentleman for trial.

**Toleration!**—The New-Hampshire Patriot informs us that it is a standing rule in Dartmouth College, to admit no person as a student who is a freemason, except he disowns his connection with them, and to doubly disgrace the student who shall become one after he has entered the college!
