Editors Press and Banner:

For some time past our portion of the county seems to have been very quict, and especially concerning political matters. But as the time for the meeting of the County Club approaches, the attention of our best citizens is being directed to the important duty which devolves upon them. We do not doubt that it will be conceded that we are entering upon one of the most important campaigns which we have ever had in this county. And for this reason, we should choose for our leader the best man in the county. We need a man that has the ability of leading the people correctly, that has influence in our State as well as in the county and that will be at Columbia. All the pulse of the colored Teacher.

These reasons for an extra session are as obvious, as they are conclusive. If the re-districting the State shall be postponed until the next regular legislature shall meet, and the Radicals shall carry the November election and obtain a mathematical proof against starvation, and need not even be hungry. As it will grow to perfect on when ordinary corn perishes for refreshing showers, every farmer should devote a small area of his land to its profunction. THESE WORKS WERE ESTABLISHED in 1847 by Messrs, Geo, Sinclair and James Anderson and purchased by me in the year 1856, and from that time till now carried on ancessfully by myself. My friends and customsers will bear witness of the large and stupendows jobs executed by me. It was at my works wiegre the largest and almost only job of its class byer executed in this city was done, viz.: the making of the pipes for the City Water Works in they year 1858. In the branch of BELL FOUNDING, I can say that I have made the largest bells ever cast in the State, such as the bell for the City Hall in Columbia. My stock of patterns for ARCHITECTURAL WORK. COLUMNS for Store fronts, is large and various, and in RAILINGS for Balconies, Gardens and Cemeteries I have the largest variety and most modern patterns; many of these are patented and I have purchased the right for this State.

In the machine line I can furnish my patrons with STEAM ENGINES and BOILERS of any size and description. My CIRCULAR SAW MILLS have carried off the prize at every State Fair held in this city, and in their construction I have taken pains to combine simplicity with the most useful modern improvements, and may flatter myself that my CIRCULAR SAW MILLS find favor with every sawyer who understands his business.
