TAMILY WASHING can be accomplished in a FEW MINUTES without the labor of RUBBING or the use of the Wash Boards or Washing Machines. This wonderfal Discovery was patented by Dr. J. K. McWhorter, of Salem, Ya., June 21st, 1857, and comes with glast tidings to every household and accomplishes in a few minutes of itself, what has heretofore required days and hours of hard toil. It is estimated that One-Third of the Wearing Value of Clothes was RUBBED OUT under the old process of washing, but now with the introduction of the "Washing Compound" this waste is preserved and the unavoidable EVIL of the PAST is REMEDIED, and A NEW ERA HAS DAWNED UPON OUR COUNTRY which saves TIME, LABOR and MONEY. For Noveity, Simplicity, Cheapness and Thoroughness it is Unsurpassed. Perfect Satisfaction Guar-anteed. The entire washing of a large family can be done in TWENTY MINUTES, and LESS TIME, at eost of only a few cents. There is nothing in the preparison that will injure the hands or clothes.
