Twelve Pages.

Dr. John H. Bond who was convicted 1888, and sentenced to the penitentiary for four years for complicity in the "corpse trust" in Charleston, was pardoned by the Governor October 21. The pardon was recommended by the board of directors and officers of the peniten-

It comes from Nashville that 3,000 miners liberated an equal number of convicts from their stockade and furnished a large number with citizens clothing to faciliate their escape. This is a continuance of the agitaion last summer when the miners made efforts to get the convites away from the mines.

An earthquake in Japan, October 21, destroyed the towns of Nagoya, Gifu and Ogaki. Probably three thousand persons lost their lives. Many vessels were wrecked. Few portions of the Niphou Islands escaped the earth-

## Weather Wisdom.

Laning, in his "Weather Wisdom,"

says:

A deep blue colored sky, even when seen through the clouds, indicate fair weather; growing whiteness, an ap-

proaching storm.

When the sky in rainy weather is tinged with sea green the rain will increase; if deep blue it will be show-A pale yellow sky at evening indi-

cates wet weather.

A neutral gray sky at evening indicates fair weather.

The same in the morning indicates wet weather. Haziness in the air, which fades the sun's light and makes the orb appear

whitish or ill-defined, or at night the moon and stars grow dim, indicates rain will follow.

## Japanese Wooden Shoes.

In Japan children's shoes are made of blocks of wood secured with cords. The stocking resembled a mitten, having a seperate place for the great toe. As these shoes are lifted only by the toes, the heels make a rattling sound as their owners walk, which is quite stunning in a crowd. They are not worn in the house, as they would injure the soft straw mats on the floor. You leave your shoes at the door. Every house is built with reference to the number of mats required for the floors, each room having from eight to sixteen, and in taking lodgings you pay so much for a mat. They think it extravagant in us to require a whole

Joom to o rselves.

The Japanese shor gives perfect freedom to the foot. The beauty of the human foot is only seen in the Japanese. They have no corns, no ingrowing nails, no distorted joints. Our toes are cramped until they are deformed and are in danger of extinetion. They have the full use of their toes, and to them they are almost like Nearly every mechanic make use of his toes in holding his work. Every toe is fully develope. Their shoes cost one penny and last six mouths.

## Abstain.

A schoolboy in Australia recently put the matter tersely, thus: "I abstain from liquor because if I wish to excel as a cricketer, Grace says 'abstain; ar a walker, Weston says 'abstain; as an oarsman, Halon says 'abstain; as a swimmer, Webb says 'abstain; as a missionary, Livingstone says' abstain; stain; as a doctor, Clark says 'abstain; as a preacher, Farrar says 'abstain." Asylums, prisons, and work-houses repeat the cry, "Abstain."

Suffering produces different results in different cases. When we accept it in the right spirit, as the beneficent appointment of our heavenly Father, it cleanses, humbles, and sweetens our hearts; but when we rebel against it, and resent the fact of its having been sent upon us, it makes us coarse and bitter and hard. We must determine for ourselves whether it shall bring us harm or damage.—Nashville Christian Advocate.
