The Political Forecaste.

Unless the signs of the times and the wisdom and sagacity of our political leaders in Washington are misleading, we may expect warm times in South Carolina next year.

But the antis will be led by new men, men with broader views and more liberality of thought and action, than characterized our recent campaign.

Those who have been reading the papers have had fully as much opportunity to know the situation as we have, and without knowing anything and without asserting anything, our plain every day common sense leads us to believe that we may now see the rift in the cloud, and read the handwriting on the wall.

The policy of Tillman and Irby from the first, and until the present time, has been one of extreme partisanship. Governor Tillman has declared that no anti need apply to him for favors, and Senator Irby has said that he would give nothing to anybody except he were a Reformer of the most pronounced type. We believe none will deny that this is the true status.

Again: Governor Tillman inaugurated a system of blacklisting in Washington certain of our South Carolina politicians, namely: Cal. Caughman, Ben Perry, N. G. Gonzales, M. L. Donaldson, and perhaps others. We believe this will not be disputed.

On the other hand: In retaliation, certain antis blacklisted Tillman, Irby, Latimer, Strait, and perhaps others.

The question as to who will control the patronage from South Carolina has been delayed, but now certain things may be conceded:

1. That Irby and Tillman will have little or no influence with the President.
2. That Butler and Brawley will control the patronage from Washington.

From which conclusions certain other conclusions may be drawn, as follows:

1. That Butler is in the race for re-election, and that he intends to use his vantage ground in the wisest and most skillful manner.
2. This being so, he cannot, under any circumstances, recommend any Haskellite, or any offensive Tillman partisan to any office.
3. That if the extreme men on both sides are relegated to the rear, the conservative men of both wings will be eligible to positions of appointment.
4. That Butler desiring re-election will seek to act in such a way as to make the greatest number of friends.
5. The Tillman ranks being full of voters, and the great crowd of disappointed office-desiring conservative Reformers will be a fruitful field in which he can work.
6. That being so, the efforts of Senator Butler and President Cleveland will be to unify the Democratic party in South Carolina, and to do this, offensive partisans on either side may just as well stand aside. Blessed is he that expects nothing.

It will be seen that Perry and Hunter will get the appointments for revenue collector and United States Marshal.

Antis will get the collectorships at Charleston and Beaufort.

Antis will be postmaster at Charleston and Columbia.

The Tillmanites in the up-country will get the post offices.

The object will be to give a majority of the political appointments to conservative Reformers.

We believe we have outlined the policy of both factions, and it will take a test of strength to show whether any extreme or offensively partisan man can be elected to any State or Federal office in South Carolina.

Does "Haskelism" Begin to Smell?

To the Laurens Advertiser is credited the following paragraph:

"Haskelism is a dead issue, and it should never be alluded to by self-respecting papers which desire peace."

We admit that it is improper to mention some things in polite society, and we know that in the presence of other things, we must hold our noses, but we were not informed before that "Haskelism" had become quite so "dead," that the mere mention of it was offensive. The fact is, however, that some things become so "dead," and reaches such a stage of putrefaction that they will make themselves known despite the application of deodorizers.

We know of none but self-respecting editors in this State.

Every newspaper may be held individually responsible for its utterances, and the naming of those may have violated the proprieties, it seems to us would have been better than laying down a specific rule for the guidance of others.

If any brother has made himself the proper subject of criticism, why not say so, and not assume to do it by generalities.

We do not know that our brother had any reference to us, but if the Press and Banner has erred, we will cheerfully listen to any criticisms from him which may be made in respectful terms, and will give just and proper consideration to all that he says. It is not the desire of this newspaper to offend the proprieties of journalism, and if our brother will give us a good reason for not alluding to "Haskelism," and he convinces us to his way of thinking, then we will so conduct of our paper in the future as not to offend in this particular at least, but he will please excuse us from accepting his mere dictum on the subject of alluding to an issue, which if not already dead, should at least feign sleep.

The Political Pot Beginning to Boil.

Just now it seems that the Tillmanites are dividing at the top, and leaders of more or less importance are striking off into orbits of their own.

Tillman has set his seal of condemnation on Donaldson, the President of the Alliance, and it is thought that he must step down and out. Cal. Caughman, Ben Perry, and other recalcitrant members of the "dominant element" have been marked for slaughter.

On the Conservative side there seems to be as little unity of sentiment. The lines between the antis and the Haskellite faction seem to be developing plainly, and it is fair to presume that the distinction between the two factions of the Conservative element will soon be as definite and pronounced as is the line between Tillmanism and Conservatism.

Senator Butler is a wise and sagacious politician, and will take a hand in securing votes next year. He is looking for votes where they are to be found. He recently gave a position to an ardent Tillmanite, and he has not slighted either faction of the Conservatives in the dispensation of favors and recommendations at Washington. How far he will disturb the political equilibrium is not known, but there can be no doubt that he will be a factor in the political pot.

For the present the great body of the voters seem to be with Tillman, and just now it appears that if all the political fragments, driftwood or "traitors" were gathered together and put in one column that Tillman would still stand in with a large majority.

But for all that, the disturbing factors in the political situation are indicative of the beginning of a feeling of unrest, which unrest must be the beginning of a political upheaval at a time not far in the future.

The unity of sentiment and the unprecedented subserviency of the people to the will of any one man can now no more last indefinitely than did the idolatry of Hampton in '76.

The Railroad Cases.

The Courts are taking testimony in the contested railroad cases, involving the question of the assessment of the railroads of this State.

The railroad companies are resisting the assessment put upon their property by the State Board of Equalization, alleging that their property is more highly assessed than other property in the State.

A few days ago Messrs. W. W. Bradley, L. H. Russell, H. T. Wardlaw, and J. F. Miller went to Greenville as witnesses to testify as to the assessment of property in this county.

We learn that the trend of their testimony is to the effect that real property is assessed at about 66 per cent. of its true value, and that personal property is not assessed higher than sixty per cent. of its actual value.

The witnesses from Newberry and Anderson placed their estimate of the assessment at even a lower per cent. of values.

Mr. McCaughrin of Newberry thought that real estate was not assessed at over fifty per cent.

Mr. Crayton of Anderson placed the same estimate as to the assessment of land in Anderson.

The Auditor of Anderson testified that Boards of Equalization were instructed to assess at not over seventy-five per cent.

The horses and mules in Abbeville were assessed at a fraction over $48, while the same kind of property in Newberry was rated at a little more than $45.

We make the above notes as we recollect to have heard them, but believe them to be correct.

If, therefore, we are not mistaken as to the nature of the testimony, the evident desire of the State Board to oppress the railroads will fail of its purpose.

Assuming that we are correct in our information, the Courts will upset the State in its unworthy effort to ruin the corporations while pandering to the prejudice of the voters.

The Judges of the United States Court are not dependent upon the voters for their positions and can afford to look at the issue from an unbiased standpoint.

They need not do a mean thing in order to curry favor with the excited crowd which would confiscate the property of the people who are seeking to make an honest living and a fair return from their labor and their capital which may be invested.

Divided by Three—Do We Need a Driver or a Leader of Public Opinion?

According to our understanding of the public sentiment in South Carolina, it is divided in this way:

1. A majority of the people and a considerable number of newspapers are for Tillman.
2. A majority of the defeated faction of the people, and a majority of the newspapers are Conservative in the true sense—opposed to Tillman before the election, but since the election abide the verdict of the majority and accept the situation.
3. A few newspapers and a fraction of the defeated faction are irreconcilable and can see no good in anybody or anything which is not of their own way of thinking.

Our diagnosis may be altogether wrong, but that is the way we see it.

Great and successful popular leaders in all ages have appealed to the reason and the prejudices of the people.

But we know of no instance where a defeated faction has won success by a system of insult to the majority.

The people may be led to do almost anything, but when did anybody know of a select coterie of bull-dozers driving or forcing the masses of the people to do anything?

To win success a leader must be respectful to the people.

Mr. Bradley's Success.

It will be seen that W. O. Bradley, Esq., of this village, has been appointed a Chief of Division in the Treasury Department at Washington. Abbeville congratulates Mr. Bradley on his success in seeking the appointment. He is a Conservative and his appointment gives satisfaction to all who know him, regardless of political bias.

Four years of life at the capital of the nation is worth much to any citizen, and we doubt not that it will be worth as much to Mr. Bradley as to any other man in the State.

"Ninety-Six and Her Traditions."

This is the title of a pamphlet which was written by James Henry Rice, son of Hon. James H. Rice, of Ninety-Six.

It is a valuable contribution to the history of the old Star Fort, and old Cambridge.

Mr. Rice is a talented scholar, and a writer of force and beauty, and in this last production he places Abbeville county under a debt of gratitude to him.

It is to be hoped that some able and patriotic citizen may write for all of Abbeville a book half as good as that which has just been published about "Old Cambridge."

POSTAL RELIEF.

A Change of Schedule on the C. & G. Gives Us Better Mail Facilities.

We are glad to note the change of schedule on the Columbia and Greenville Railroad which went into effect last Sunday.

By that schedule the mail train will be run on the Abbeville Branch, as follows:

Leave	8 50 a m
Return	10 20 a m
Leave	2 00 p m
Return	3 25 p m

This is daily except Sunday, when only one train will be run, leaving Abbeville at 8.50 and returning at 3.25.

There is nothing in the way of mail facilities for which we are more grateful. For about a year it has been almost impossible to get our papers away from Abbeville in any reasonable length of time after printing them.

By this schedule our friends on all the railroads will be better served, and the travelling public will be better accommodated.

THE ALLIANCE.

The Next Quarterly Meeting to be Held July 6.

The regular quarterly meeting of the County Alliance will be held at Abbeville on Thursday 6th of July. This being the time for re-election of officers for the ensuing year, a full attendance is desired.

As a County Trustee will also be elected by the sub trustees, it is important that the various Alliances holding stock in the State Exchange elect sub trustees, and urge their attendance.

The chairman of the different groups organized at the last quarterly meeting, will come prepared to arrange the program for the August meetings.

The County Lecturer request the Sub-Lecturer to meet the "Lecture Board" in the Court House at 8 o'clock on the night of July 5th.

The Committee of Arrangements will meet the Lectures in Auditor's office at 6 o'clock p. m., and assign them homes.

Secretaries will please foward their reports promptly and oblige,

J. Y. Jones.
Secretary A. C. A.

BACK AFTER MANY YEARS.

A Former Citizen of Abbeville is on His Native Heath.

Mr. Lewis T. Harmon, of Parksville, Edgefield county, is in town. Mr. Harmon is a native of Bordeaux in Abbeville county, but has been living at Parksville for seventeen years, where he has been engaged in farming and selling goods. Mr. Harmon has not been at Abbeville since 1876 when the big political meeting was held, and when the Republicans were put to route. Mr. Harmon is in good health and is yet in the prime of life. To us who had not seen him for so many years his heavy black beard is a complete mask. Many years ago, he went the way we long have sought, and is now the happiest of men in a happy family.

LEWIS W. PARKER, now of Greenville, will be married to-night at Richmond, Va., to Miss Magaret Smith of that place.

We offer Glenn Springs water by the gallon and will make special prices for quantities. Harrison & Game, druggists.

A NEW ENTERPRISE.

The National Gold Cure Institute has Established in Spartanburg.

Headlight, Spartanburg, S. C.

Dr. Frank Bright, of this city, has charge of the South Carolina branch of the National Gold Cure Institute, of Wilmington, N. C., and is now opened for business in the Central Hotel. He has a suit of elegantly fitted up rooms, and has also arranged to board his patients there, where they can be overlooked and treated under his immediate eye. Mr. W. Frank Osborne, secretary and general manager of Gold Cure, is now in our city assisting Dr. Bright. This is a well-established scientific treatment and cure of alcoholic poisoning and the various diseases caused by the excessive or moderate use of whiskey, morphine, opium, etc., etc., and a permanent cure is guaranteed, or no charge will be made. This institution is so entirely convinced of the solvency of their remedies, that parties seeking treatment, if they so desire, can deposit the amount of charges in some bank, subject to the order of the manager when a permanent cure is effected. Their charge for treatment, including board at the Central Hotel is only $75, which is certainly as reasonable as one could ask. Mr. Osborne says that there are occasional cases where the system is so diseased by the prolonged and excessive use of liquor that a cure is an utter impossibility, and such patients are not received. But in a large majority of cases they can destroy the taste for liquor in twenty-four hours, and in forty-eight hours their patient is thoroughly relieved of his thirst. But they keep their patient under treatment for four weeks, so as to effect a lasting cure and build up the system.

Chloride of pure gold, which is the fundamental treatment used in the treatment of alcoholic poisoning, is by no means a recent discovery, as is generally supposed. Its application for the treatment of a disease has been known to chemistry since 1810, and has been an important factor in the compounding of various formulae in the practice of medicine. The double chloride of gold is an unknown quanity in Materia Medicine. This is a scientific fact, which cannot be controverted.

The National Gold Cure Institute, with this valuable remedy and other compounds, which have been ascertained, after careful analysis of these special diseases, to possess those healing and nurtrious qualities which has crowned their system of treatment with an absolute and positive success, gratifying in the highest degree, enable them to guarantee to patients entrusted to their care a speedy cure of their affliction. Read their advertisement in another column.

BIG EXCURSION.

The Knights of Honor Invite Us all to their Picnic.

Anderson, S. C., May 31st, 1893.

The Joint Committee from the lodges at Walhalla, Pendleton, Pelzer, Due West, Ninety-Six, Abbeville and Anderson, met to day and organized with Brother R. E. Belcher as Chairman. The following action was agreed upon:—

Committee of arrangements — Dr. P. H. E. Sloan with one member from each of the lodges participating. (Brother G. A. Neuffer, M. D., from Abbeville lodge.)

Committee on Invitation—Bros. P. K. McCully, D. A. Smith and J. B. Bonner.

Committee on Transportation—Bros. L. P. Smith, W. A. Templeton and William Hill.

Clemson College was selected as the place to hold the celebration on June 30th. The Committee on Transportation were instructed to apply for rates on an excursion to be run from Ninety-Six via. Belton and Seneca to Calhoun on the R. & D. R. R. Also for reduced round trip rates from Greenville and Pelzer to Belton; from Abbeville to Hodges; and from Westminister and Walhalla to Seneca, so as to allow parties from these points to meet the excursion train.

Hon. J. C. Sheppard, Dr. G. W. Holland and L. H. Wannamaker, Esq., were suggested as speakers to be written to by the Committee on Invitations.

The Lodges at Spartanburg, Gaffney and Welford are also invited to participate with us. As soon as possible circulars will be issued by the Committee on Transportation giving full particulars. Please give this due publicity, and let us make our celebration a success.

The general public are invited to participate in the pleasures of the excursion. The ladies are especially invited to go.

Rates and schedule will be published later.

J. B. Lewis,
For Committee.

It is a matter for congratulation that the recent Legislature of Ohio passed a bill making hazing a misdemeanor punishable by a fine of from $100 to $300 and imprisonment from six months to two years, and branding by use of nitrate of silver or otherwise punishable by a term in the penitentiary.

White Brothers

Have this Season the Stock of Goods that Takes the Eye of the Ladies?

WHY?

Because their attractive Stock of Dress Goods embraces all that is desirable in Fabrics, Styles and Colors.

The largest line of India and China Silks for Dresses and Waists ever offered in this market. Changeable Silks, Silk Surahs, Bengalines in all the most delicate and fashionable shades. Never have we had such a trade in Silks, and already we have found it necessary to duplicate our original purchases. The verdict of the ladies who have seen our stock of Dress Goods is that it is the most beautiful ever offered in Abbeville.

Our stock of Black Dress Goods cannot be surpassed. Among these may be found

SILKS, GLORIAS, EPINGLES, WHIP CORDS, SERGES, HENRIETTAS, NUNS VEILINGS

and all the most desirable fabrics extant this season. In WASH DRESS GOODS we have an elegant assortment of Pongees, Pine Apples, Cloths, Lawns, Ginghams, Chambrays, &c., &c. Our line of Percales for Dresses, Waists and Shirts, is the most extensive and the handsomest to be found anywhere. The department of WHITE GOODS has always been one of our favorites, and if the ladies will examine our Lawns, India Linens, Mulls, Nainsooks, Dotted Swisses, Handkerchiefs, Laces, Trimmings, &c., they will find that our reputation for always carrying an elegant line of White Goods is fully sustained.

HOUSE-KEEPERS

can always find with us a most complete stock of full width Sheetings, Table Damasks, Table Oil Cloths, Towels, Napkins, Doylies, Scrim China and Japan Mattings, &c. If you wish to see an article of real merit as well as beauty ask for the Towel we sell at 25 cents.

Our stock in all lines is complete and attractive, and we are now prepared to give all who may favor us with a call the very best attention.

If there are any two lines in which we excel this season, they are

HARRIS' LITHIA WATER,

Harris' Lithia Springs, S. C.

After a long and varied experience in the use of Mineral Waters from many sources, both foreign and domestic, I am fully persuaded that HARRIS' LITHIA WATER possesses efficacy in the treatment of afflictions of the Kidney and Bladder unequalled by any other water of which I have made trial.

This opinion is based upon observation of its effects on my patients for the past three years, during which time I have prescribed it freely and almost uniformly with benefit in the medicable maladies above mentioned.

When failure to relieve has occurred, I have imputed it to insufficient use of the Water, for my experience teaches me, that from one to two quarts daily should be taken from two to four weeks, to secure its full remedial effects. A. N. TALLY, M. D., Columbia, S. C.

J. T. Harris, Waterloo, S. C.:

Dear Sir—I find great benefit from the use of your Lithia Water. I consider it a fine tonic, and general regulator of the digestion, as well as very efficacious in those diseases for which Lithia is considered somewhat of a specific.

JUDGE J. B. KERSHAW, Camden, S. C.

My wife has been using your Lithia Water and is very much benefited. I consider it in every respect equal to the famous Buffalo Lithia Water.
