### CLEMSON SOPHOMORES.

### TOOK GLASS TUBES.

The offense Cadet Thornwell was guilty of was taking four glass test tubes from the chemical isopratory without permission. The members of the faculty say they have been troubled a great deal by action of this kind and determined some time ago to break up and determined to be the college which are of small glass oplinders with little or no value may not have been taken with any wrong intent, the faculty say, but the taking of them was a violation of the rules. As a matter of fact the faculty say the college has been annoyed a great deal by the disappearance of a number of years ago has returned to the city and ker.

Mr. Sam Pritchard and her interesting children from Blacksburg. Va., are in the city in the city with Mr. Wyatt Aiken.

Rev. and Mrs. James Boyd, of Due West, Were shopping in the city last week.

Mr. J. B. Norton, who lived in Abbeville a number of years ago has returned to the city and accepted a position with the Seaboard Air Line.

Dr. and Mrs. F. Y. Pressley were down from Due West Thursday shopping. Dr. and Mrs. Pressley are always welcomed visitors to our city.

### STATEMENT FROM STUDENTS.

STATEMENT FROM STUDENTS.

The students' side of the question is this. They admit that there is a rule that no test tupes or other college apparatus shall be taken for use by any of the students without the consent of the professors, but they say it has not been pobserved generally. Cadet Thornwell did take four of the tubes from the gen in class work and they consider his suspension an outrage, as no wrong was intended The students say they thought the facts had been misrepresented or exaggerated to the facelity and petitioned for a rehearing of the facelity request they fell that loyalty to their class made demanded that they should leave the ording in a body and this was done.

The main point urged by the students is that the punishment inflicted on young Thornwell is in excess of that warranted by the ease. For instance they say there is a college roberty for use in his class work without removing it from the building and was suspended therefor.

This correspondent this afternoon talked without removing it from the building and the suspended therefor.

This correspondent this afternoon talked without removing it from the building and are overwhelmingty in sympathy with the sophmores, can for the students who left when the reporter was leaving the ground a notice was being sent around calling a meet in for the past fee days.

Mr. and Mrs. James Chalmers leave Thready for a strended visit to the family of each of the students who left.

### ing of the junior class for the same purpose MONEY ADVANCED BY COMRADES.

When the sophmores decided to leave many of them did not have money enough to get away on. Money was furnished them by the members of the other classes and the college societies exhausted their treasuries. The departure of the cadets was conducted in a quiet and orderly manner and there was no demonstration or excitement but a great deal of feeling and determination.

President Hartsog and the other members of the faculty said this afternoon that they fell that they had simply discharged their duty as required by the circumstances. "It was simply a question," said Col. Simpson, "as to who would run this college, the faculty of the students. The faculty left that they were the ones to run it and had proceeded accordingly."

NEARLY A FATAL ACCIDENT.

Mr. Bob Brown, son of Mr. John Brown, while running his saw mill on the plantation of Mrs. Agnes Pennal, met with a severe accident last week; while a band was bearing off a plank from the saw one end of the plank was struck by the saw, the other end striking Mr. Brown with great force in the chest, throwing him about ten feet over the running saw. He was taken up and brought to Mrs. Pennal's house, where he lay for several hours in a partially unconscious state, suffering intensely. Dr. Sherrard was sent for and rendered prompt and efficient service. In a day or so he was carried home by his father. This is the third time he has been burt at the mill business and he is lucky to escape death so parrowly.

PUBLIC SCHOOLS CLOSED. All the public schools along Route No. 3, closed last Friday, and the teachers have gone to their respective homes to enjoy the quiet and rest they so much need.

## AMUSEMENTS FOR ABBEVILLE.

Now that the stores close at 6 o'clock and our people are having a little respite from labors, we are asked what are the amusements for the season? Is our hustling and wide awake little city to be so quiet trust our young neople will have to seek pleasure elsewhere? We hope not. How about a bleyelf tournament base ball team, a cornet band? which would liven up things wonderfully. We hope Prof. Hill and others directly in this line will look after the interests of the city and the pleasure of our people.

THREE PRETTY LITTLE GIRLS WIN PRIZES. Miss Ina Pinkerton, the popular assistant teacher at the Sharon School, offered three prizes to scholars in her room—one for punctuality, one for deportment and one for good lessons, and on closing the school the names of the following little girls were read out as having won the prizes: Miss Ada McNeill, Miss Marle McKenzle and Miss Eva Williams. They went home happy over the bright record they had made, and much pleased with their gifts.

SALES DAY IN MAY AND FARM WORK.

Owing to the rush of business in every section, there was a small gathering in the city last Monday. Farmers are moving things "down on the farm" just now, chopping out cotton, planting corn and finishing the planting of cotton, all the rush is on them at once. The grain crops are growing nicely, but are very small for the time of year, slthough with favorable seasons good crops may yet be harvested. We hear considerable complaint already about the bugs eating up the Irish potatoe vines. Paris green and flour will do them up in short order. Some farmers have already set out sweet potatoe silps—rushing for an early crop on the market. The fruit crop promises to be abundant and will help out wonderfully these hard times.

Now is the time to work roads.

If our hustling and efficient Supervisor will fix up the roads at the Hammond branch on the Cabin road, and cover that awful rocky place over, at White's bridge, and drain off the quagmire just beyond the branch this side of Mr. Edwin Parker's, he will be held in everlasting remembrance by the traveling over them once a month, but when a man has to go over them once a month, but when a man has to go over them once a month, but when a man has to go over them every day in the week, the wonder is that he ever gets back, and that his buggy is not literally forn to piecos. He touched on the dispensary and said it was a primary school for making drunkards; this was a legalized national sinliquor traffic—in which we were all stockholders because from a certain portion of its revenue or profits we could send our children to school. He said the people were the government and were responsible for all these sins and had to a great extent lost the Divine favor and copartnership with God, and therefore our land was cursed and needed healing, and concluded his remarks, "let us learn this sad lesson and turn our faces to the Lord and all things shall work together for our good." His sermon at night was principally to the young people. His sermon was earnest and young people. His sermon was earnest and forceful, furnishing much food for serious

## EDUCATIONAL MRETING.

Supt. J. S. Gibert attended last week the maeting of the Educational Board from the North which convened at Athens Georgia Four of the number represented the Southern Schools. Mr. Gibert was much pleased with the interest manifested by the Board in the educational interests for both North and South, and seems to think that the prospects for an increase in more money for the southern schools is near at hand. They were all delightfully entertained and had altogether a good meeting looking to the advancement of educational interests.
