ndeer Meat. an 174 tons of fresh and deer meat were sent last om Uleaborg to the interior of Northern Russia. The reindeer skins go chiefly to St. Petersburg, where

they are treated in the local tanneries.

Zanzibar Copra. During the year 1902 there were exported from Zanzibar over twenty million pounds of copra, valued at a little over \$625,000. It went almost entirely to Marseilles, France.

Russian Sugar.

According to official returns there were 275 sugar mills in operation in European Russia last year. The beet crop of the country amounted to nearly 9,000,000 tons, while the area under cultivation was 1,310,000 acres. The sugar mills are all situated in the western, central and cis-Vistula provinces of the empire.

FITSpermanently cured. No fits or nervous-ness after first day's use of Dr. Kline's Great estorer. \$2 trial bottle and treatisefree Dr.R.H. KLINE, Ltd., 931 Arch St., Phila., Pa.

Wild Animals in Captivity.

Captivity changes animals' nature. A lion captured when it is full grown will always be treacherous, but lions tigers, leopards or other carniverous animals that have been born in captivity can be tamed till they are quite as gentle and affectionate as poodle dogs.

Deafness Cannot Be Cured

by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitational remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube re-stored to its normal condition, hearing will be destroyed forever. Nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any

case of Deafness (caused by catarrh) that can-not be cured by Hall's Catarrh Cure. Send for circulars free. F. J. Cheney & Co., Toledo, O. Sold by Druggists, 75c. Hall's Family Pills are the best.

Homing Instinct of the Horse.

When Dr. Erwin's possessions were in transit between Oklahoma and Morrill, Kan., last March, a fine Arabian horse was lost from the car. The horse turned up last week at its old home in Oklahoma and was all right .-Kansas City Journal.

DYSPEPSIA OF WOMEN.

Mrs. E. B. Bradshaw, of Guthrie, Okla., cured of a severe case by Lydia E. Pinkham's Vegetable Compound.

A great many women suffer with a form of indigestion or dyspepsia which does not seem to yield to ordinary medical treatment. While the symp-toms seem to be similar to those of ordinary indigestion, yet the medicines universally prescribed do not seem to restore the patient's normal condition.

Mrs. Pinkham claims that there

is a kind of dyspepsia that is caused by derangement of the female organism, and which, while it causes disturbance similar to ordinary indigestion, cannot be relieved without a medicine which not only acts as a stomach tonic, but has peculiar uterinetonic effects as well.

Thousands of testimonial letters prove beyond question that nothing will relieve this distressing condition so surely as Lydia E. Pinkham's Vegetable Compound. It always works in har-mony with the female system. Mrs. Pinkham advises sick women free. Address Lynn, Mass.

BY FREDERIC HOWE MARION.

AB'S eyes did it all. In the first place I fell in love with them. That is not strange, for they MOK were blue and bright as a

rain-washed sky. I had been called to Roseville on business. I have no hesitancy in pronouncing Roseville the prettiest place in the world, for everybody has a rose garden. Moreover, wild roses bloom all along the roadside, and some species of rose-creeper climbs the rough bark of the outstanding trees, and hangs' clusters of odorous blossoms from the swaying boughs. The houses are all respectable country seats, the people all comfortable. I don't believe there is a beggar or a cripple in the town. And into this modern Eden, a mile from the railroad station, I walked one

It was June, and all the air was fragrant. The bluebirds were flitting to the high heels on the boots of the about, and the robins were singing on Texas cowpunchers, and vanity is the stone walls. Some late apple trees given as the reason of the high heel. were in blossom, and everybody's doors This is somewhat of a mistake. No and windows were open to let in the doubt vanity figures in it, for the scents, and sounds, and sights of early summer.

Suddenly a carriage, driven by a boy, came around the corner of a road. At side. But to return to the real use of the same moment a little Blenheim the high heel-for it has a use. We poodle, white as wool, rushed from a all know the broncho, some of us by dooryard, and dashed under its wheels. I heard a sharp scream, saw a distracted blue cambric wrapper rushing after. and threw myself, all on the impulse of the instant, into the melee. To seize the bits and raise the shivering and large wooden stirrup, similar to the whining animal from the dust was but one used in the cavalry, but mostly the work of a moment. As I bore it without the leather guard over the toward the house, Mab, in Mab's blue front, and it is here where the high cambric wrapper, with Mab's eyes, met

"Oh, thank you! thank you a thousand times! Oh, sir, do you think he is not take much imagination to picture killed?"

As the dog, at that moment, gave a sharp yelp, I ventured to proclaim that he probably was not killed. "My darling! My dear, dear little

Snow!" she murmured, taking the dusky and dismal little wretch into the lovely shelter of her bosom. As she was turning away I experienced a sudden and brilliant thought.

"Does not Miss Flint live here?" "Yes, sir," replied Mab, pausing with her closely-clasped burden.

"I was about to call on Miss Flint," I said, most falsely. Then Mab looked at me again, and

"Walk in, if you please," she said, "and I will speak to aunty." I congratulated myself on having dis-

covered so much-that she was Miss Flint's niece. But I was quite desperate for an errand. Miss Flint ap-4 415 peared. "Miss Flint," said I, rising and bow-

ing, "I have lately heard that your Brother-in-law, Judge Twing, of Mapleity. I thought I would call and tell thinking, perhaps, that you had not heard of it.

"A relapse?" she inquired, anxiously. "No-no-not that I am aware of." "My brother was very ill some six weeks ago, but I heard yesterday that

tire and three of the felloes of her it does take place, that it should lead the medium size is eleven and a half wheel were broken.

"How did it happen?" asked I. horses?" exclaimed I.

"No." sobbed she; "I am so nearsighted."

Just then the faint light shone on her face, and I recognized Mab. "May I inquire where you were go

ing?" said I, gravely. "I was going home," answered she, full of engaging distress. "I was driving fast because I thought my aunt would be anxious about me. I never thought of meeting any one on this lonely road."

"Well, you will have to go to Irving and stay all night. I will take you to my mother's house, and send word to your aunt to-night of what has happened. Do you think you can ride half a mile on a bayrack?"

"I unhitched her horse and tied him behind my team, pulled the broken buggy to one side of the road, and then lifted Mab into the bayrack. I was obliged to put one arm around her to keep her stendy, when I started the horses, while she clung to my wrist with one little hand, and thus we went very happily to Irving.

Need I say that I did not lose so good an opportunity of making love to the owner of those beautiful eyes that had cost me so much anxiety?

We had a long evening before us, too, after my mother had welcomed Mab, and I had sent a messenger, on horseback, to Miss Fiint. The moon shone, the nightingales sang; the flowers shed their fragrance just for us as we sat in the little porch. I wasn't the sort of fellow to half do things, either, and before Mab left Irving she had promised to be my wife.

And to-day Mrs. Mab will agree with m: in the statement that her eyes did it all .- New York Weekly.

The Cowboy's High Heels.

A correspondent who signs himself "D. W. H.," writes entertainingly as follows: "In one of the articles in the 'Nosegay' column reference is made writer has been witness to the factseeing heels so high that they were braced with small iron rods on the inreputation, and others by experience, and know he is, to say the least, a trifle unreliable. On the saddles used in the West the small, light stirrup of iron is not used. In its place is the

heel plays its part. The wooden stirrup is so large that an ordinary shoe as worn would slip through, and it does

well adapted to suiting material and cloth of lighter weight as well as to the silks and pongees of warmer handsome buttons and held by loops as the sparkling Whitby jet. of silk cord. The long lines of the pleats are singularly becoming and the generous sleeves mean comfort as well

Trimmed With Blue Thistles.

Purple thistles beloved by donkeys are most familiar to wayfarers, but the requisitions of a fashionable milliner take a different view of natural history and botany. A blue straw hat is trimmed with bunches of blue thistles arranged on both sides of the middle and front. A scarf of white tulle is twisted loosely about the crown, and forms a sort of bed for the blue thistles to spring from. A green straw hat with a medium brim has an Algerian scarf as over-brim trimming. This is of changeable silk gauze, two shades of green, bluish and yellow green one of white and one of blue. A bunch of white thistles is set at the left of front.

The New Pendant.

The heart of cut jet is the latest addition to the ladies' chain. Pendants are never long in coming where ornamental chains are worn, so it is not thought out of the way to wear a jet heart at least two inches long swinging from your two-yard neck chain, whether it be of beads, black bogwood, which imitated the expensive teakwood bead chains, or in the twisted bead chains of cable effect. The heart is no prettier a finish than the tassel, but then it has the appearweather, and to both the odd wrap and ance of smartness, because of its comthe costume. As shown, however, it is made of black taffeta stitched with shaped pendants of dull-finished jet, corticelli silk, and is trimmed with but they are not nearly so handsome

One would imagine that with so much petting children must be spoilt and disagreeable. The contrary is the case, the children of Japan being the most well-behaved and charming little people in the world.-Philadelphia Telegraph.

The Weight of Ice.

In order that consumers may determine whether or not they are receiving the correct weight of ice a very good method to employ, next to weighing the ice itself, is to measure it very carcfully with reference to its length. breadth and thickness, and then compute the weight by the following method: We know in the first place that one cubic foot of water weighs 62.5 pounds, under ordinary conditions, and that the weight of any volume of ice is just ninety-two one-hundredths as much as the weight of the same volume of water! Therefore, one cubic foot of ice weighs ninety-two one-hundredths as much as the same volume of water. This equals .92 times 62.5, or 57.5 pounds. Hence to determine the weight of the ice take the product of the three dimensions, divide by 1728 (since there are 1728 cubic inches in a cubic foot) and multiply by 57.5. The result will be the weight of ice in pounds .- New York World.
