"Deeply penetrated with this sentiment, I, George Washington, President of the United States, do recommend to all religious societies and denominations, and to all persons whomsoever. within the United States, to set apart and observe Thursday, the 19th day of February next, as a day of public thanksgiving and prayer, and on that day to meet together and render sincere and hearty thanks to the great Ruler of nations for the manifold and signal mercies which distinguish our lot as a nation; particularly for the possession of constitutions of government which unite and, by their union, establish liberty and order; for the preservation of our pence, foreign and domestic; for the reasonable control which has been given to a spirit of disorder in the suppression of the late insurrection, and generally for the prosperous condition of our affairs, public and private, and at the same time humbly and fervently beseech the kind Author of these blessings graciously to prolong them to us; to imprint on our hearts a deep and solemn sense of our obligations to Him for them; to teach us rightly to estimate their immense value; to preserve us from the arrogance of prosperity, and from hazarding the advantages we enjoy by delusive pursuits, to dispose us to merit the continuance of His favors by not abusing them, by our gratitude for them, and by corresponding conduct as citizens and as men to render this country more and more a safe and propitious asylum for the unfortunate of other countries; to extend among us true and useful knowledge; to diffuse and establish habits of sobriety, order, morality, and piety, and finally to impart all the blessings we possess or ask for ourselves to the whole family

The fight was kept up to the outskirts the town, the soldiers returning in squads of twos and fours. At night another party was organized. It was not known how many men Ball had at his command, though the soldiers believed that there could not be less than fifty in the band that repulsed them in the afternoon.

The wires going into Cumberland Gap have been cut and Ball threatened to do the same for the remaining wires. The cause of the present trouble dates back eight weeks. At that time Frank Ball was a candidate for Sheriff, seeking the Republican nomination. John Boien, a barber; was also a politician. So dawned and waned the first Thanksgiving.

The first national observance of the day followed the proclamation of President George Washington, Issued in January, 1785. It will be read with interest, as it was the first real "crow" that our forefathers permitted themselves after the stirring times of the Revolution. It was as follows:

"When we review the calamities which afflict so many other nations, the present condition of the United States affords much matter of consolation and satisfaction. Our exemption hitherto from foreign war, an increasing prospect of the continuance of that exemption, the great degree of internal tranquility by the suppression of an insurrection which so wantonly threatened it, the happy course of our public affairs in general, the unexampled prosperity of all classes of our citizens, are circumstances which particularly mark our situation with the indications of the Divine beneficence toward us. It is divided, like coat-tails, and lined with black satin, the corners being turned back in revers. It, as well as the blouse, is pleated. And it falls over a sham skirt of fine taffeta, which is finished around with a shaped flounce of the corduror and covered at the centre front and back with a gore of the corduroy.
