# BIG LOTTERY SURRENDERS | M'KINLEY'S WIDOW TO THE GOVERNMENT

To Escape Jail Officers Agree to Pay \$300,000 in Fines.

#### WEALTHY MEN PLEAD GUILTY

Federal Authorities Accept the Plea -Gambling Game of Millions to Be Ended Without Trial or Imprisonment.

Wilmington, Del.-The sudden dismissal of the Federal Grand Jury, assembled especially to probe into the affairs of the Honduras National Lottery Company, and the notice to hundreds of witnesses, under subpoena, that their attendance will not be required, corroborates the news from New Orleans that the gigantic gambling enterprise has surrendered.

Among those who have been accused of having an interest in the Honduras Lottery are Alfred Hennen Morris, David Hennen Morris, of New York; Oscar Hauger, of Hoboken, and Frank T. Howard, of New Orleans, receiver of the New Orleans

The principals in the game will plead guilty and will pay a fine aggregating about \$300,000, which will be the penalty in lieu of imprison-

Scores of prominent men in Louisiana will contribute to this fund rather than go to jail, and the United States Government has elected to accept these pleas of guilty, apparently, rather than go to trial and bring the big men in the game into the limelight.

The surrender of the lottery men is complete and unconditional. The statement is made on trustworthy authority that absolute assurance has been given to the authorities at Washington that the lottery has been abandoned and its property sold or destroyed, and that there will be no resumption of the sale of tickets in any part of the United States at any

The company has not been in active operation since January. Tickets are said to have been printed for the February drawings, but they were all recalled early in that month, and the agents were informed that they would never be issued again. company is said to have offered its fine building in Puerto Cortez, Honduras, where the drawings were held, at public auction, having closed down and dismantled it.

It is also said that all the property that the Honduras Lottery people own in this country is being sold, together with all their machinery, equipment of every kind, and in fact everything in connection with the

District Attorney Nields also said:
"The Government is proceeding as rapidly as possible to destroy the Honduran National Lottery Company, to punish its officers and agents and to confiscate and destroy all its prop-

John M. Rogers, whose large printing plant at Sixth and Orange streets, in this city, was raided a year ago, but who was never brought to trial on that specific charge of printing lottery tickets, is one of the most prominent men of Wilmington. He is public spirited, and, being wealthy, has given freely to numerous philanthropic movements.

## FIGHT MAY SEND BEEF UP.

Packers and Commission Men Wrangle Over Inspection Losses.

Chicago.-The fight over the question whether the packers or the commission firms shall bear the expense of cattle condemned by the Government's post-mortem examiners threatens to send the price of beef sky high. Unless the Beef Trust recedes from its determination to delay payment on cattle until after that examination has been made by the Government inspectors there seems to be no doubt that the commission firms, backed by the cattlemen, will hold out for a long time and cause a scarcity of beef. The packers informed the commis-

sion firms that they would not bear the expense of condemned "cow stuff," and that they would not settle for cattle until after the inspection. The commission men in turn have sent thousands of letters and telegrams to their customers directing them not to ship any cattle to the big markets controlled by the trust until the fight is settled. Those letters, it is expected, will cut down the supply of beef tremendously.

The commission men say the packers are trying to enforce the rule with regard to "cow stuff" with the aim of extending it to sheep and hogs. 'Cow stuff" is a minor item in packing house business, and for that reason, the commission men say, it has been selected as the basis for the first fight. Less than two per cent. of this class of purchases is condemned as unfit by the inspectors.

The loss on it alone would not mean much to the commission men and the producers, but if the packers were allowed to make this rule in regard to cattle, they will extend it to other forms of live stock, the commission men say. The result would be that it would drive the commission men out of business and make cattle raising extremely unprofitable. The commission men have sent an appeal to the Secretary of Agriculture.

## TO VALUE NEW HAVEN ROAD.

Engineers to Cover Every Foot of Road in Specially Equipped Train.

New Haven, Conn .- A crew of engineers, in charge of George E. Palmer, has arranged to leave this city for a five months' trip, covering every foot of track owned by the New Haven Railroad to get the exact value of

the property.
A car containing measuring appa catus and other brakes, together with 1 living car and special engine, will make the journey.

## AMERICA FOR DISARMAMENT.

England Ready to Leave to United States Proposal of Question.

Rome, Italy.-According to the latest reports regarding the negotia-tions on the subject of the proposition to discuss the question of the limitation of armaments at the coming peace conference at The Hague. Great Britain is ready to withdraw from presenting her proposition if the United States decides to bring up the question, in which case Great Britain would support the American proposi-

Assassinated President's Wife Passed Away at Canton, Ohio.

She Was an Invalid For Many Years -Her Health Shattered After Death of Two Daughters.

Canton, Ohio .- Mrs. Ida Mc! aley, widow of President William Ac-Kinley, died at the famous McKinley cottage here. The transition from life to death was so peaceful and gradual that it was with difficulty that the physicians and attendants noted when dissolution came. Mrs. McKinley did not know of the efforts made for days to prolong her life.

Mrs. McKinley's last words before she became unconscious showed that death would not be unwelcome. An attendant said:

"Mrs. McKinley would say: 'Why should I linger Please God, if it is Thy will, why defer it?' She would also say: 'He is gone, and life is dark to me now.' Other kindred expres-sions would fall from her lips."

Mrs. McKinley's life of almost sixty years had been made familiar to the Nation by the fact that more than half of it was a period of invalidism. Through all that, however, she showed a firm and unwavering belief in the career of her husband, and by her cheerful words, in spite of personal afflictions, encouraged him in his darkest hours. She believed his star of destiny never would set until he had become President, and for more than a quarter century she cherished that belief until her hope was realized.

Ida Saxton McKinley was born in Canton June 8, 1847. James A. Saxton, her father, was an intellectual and progressive business man and banker, his wife a woman of extraordinary culture and refinement. Ida Saxton was reared in a home of comfort and ease. After attending Canton school she was a pupil in a pri-vate school at Delhi, N. Y. She next went to a Cleveland academy, and finished her education in Brook Hill Seminary, Media, Pa., where she stu-died for three years.

#### THEODORE TILTON DEAD.

A Voluntary Exile in Paris After the Beecher-Tilton Scandal.

Paris, France. — Theodore Tilton had been unconscious for hours before he passed away.

Theodore Tilton exiled himself from America in 1883, following the Beecher-Tilton scandal. Mr. Tilton was born in New York in October, 1885. His education was obtained chiefly at the Free Academy, now known as the College of the City

of New York, from which he was

graduated in 1855. About the time that Mr. Tilton became superintendent of the Sundayschool Mr. Beecher received into the church Elizabeth M. Richards. Mr. Tilton married her in 1855, the Rev. Henry Ward Beecher officiating at the

wedding.
Mr. Beecher and Mr. Tilton became friends almost from the day that Tilton joined Plymouth Church. It is said that Tilton first attracted the notice of Beecher by the stenographic reports he made of his sermons. The friendship between the two men became more intimate, however, after Tilton became connected with the Ineditor. When Beecher retired as editor Tilton succeeded him in that posi-

Through all this period the Beecher and Tilton families were on visiting terms. Mr. Beecher was a frequent caller at the Tilton home, which was at 174 Livingston street, Brook-He and Mrs. Tilton were openly very friendly. There was no gossip about them until about three years before the suit.

In August, 1874, Tilton sued Beecher for \$100,000 damages, charging the alienation of Mrs. Tilton's affections. The trial lasted 112 days. It resulted in a disagreement of the

## SOUTHERN JURY CONVICTS

A Woman Who Killed a Banker in Defending Herself From Assault.

Eastman, Ga.-Although she declared dramatically on the stand that she killed Banker W. J. Marrell because he was attempting to assault her, Mrs. Sallie Freeny, a young widow of good family, was found guilty of murder in the first degree. The jury reached a verdict after being out nineteen hours and recommended mercy, which under Georg!2 law will prevent her from being hanged. A remarkable feature of the verdict is that more than half the jurors were in tears as Mrs. Freeny told the story of being forced to kill Marrell.

## KILLS GIRL PLAYING CIRCUS.

Playmate Shoots Cousin With Revolver She Supposed Wasn't Loaded.

Scranton, Pa .- While playing circus at the Dawson home, Lottie Dawson, twelve years old, shot and killed her cousin and playmate. Verna Davis, fourteen years old.

Lottie unlocked a drawer in the sideboard, and taking out a revolver which she supposed was not loaded. pointed it at her cousin and laughingly said, "On, let us play show." The weapon was discharged and Verna fell dead with a bullet in her

According to the opinion of prominent labor leaders, the most satisfactory employment of convict labor would be on the building of public highways and the reclamation of State lands.

# ROOSEVELT TALKS FOR THE AMERICAN BOYS

Tells Archie's Schoolmates to Be Brave, Strong, Gentle and Kind.

LEARN TO HOLD THEIR OWN

The Bully the Meanest Boy in the World, Declares the President-Defines Desirable Citizens-Hit the Line Hard.

Washington, D. C. - President Roosevelt delivered an address at the annual presentation exercises of the Friends' Select School in this city, where Archie Roosevelt is a student. His subject was "The American Boy." The President said: . "I want to see the boy enjoy him-

self. The boy at play sometimes exhibits these qualities which determine the kind of man he will make. If he dislikes his work, if he shirks his studies, he will develop into a great fail-ure in everything else. If he hasn't character to study, he won't have character to play. Play hard when you play, and work hard when you work. Right here there is as great a lesson for the grown-ups as for the younger ones.

"I want to see the boy work hard, but at the same time I want to see him remember the other side of life. I want to see you brave and strong, and I want to see you gentle and These are the qualities that kind. make up the good citizen. I want to see you so conduct yourselves that among your fathers and mothers there will be a feeling of regret, and not relief when you are away from

The element of courage in the young boy, as essential and imperative along with any other trait, was the basis for some references by the President.

"When you are out among your playmates," he said, "don't be afraid of the little boy who happens to be rude to you. The boy who is too nice to hold his own is not the boy who will grow to be the best citizen. When you boys grow to manhood I want to see you put the wrongdoer out of the way, and to make the man who does wrong feel that you are his superior both in strength and character. If you can't hold your own you will be a curse in any environment and remain the dread of those around you.

"The bully, the boy who would maltreat a weaker boy or an animal, is one of the meanest boys in the world. I want to see you protecting those who are weak against those who would oppress the weak. It's a boy who becomes a citizen that will be strong enough to abhor and despise the betrayal of a trust and strong enough to stand for the right. "Hardness of heart and softness of

head" was the term applied by the President to many parents whose boys were utter failures, and who lacked the fundamental principles for good citizenship. He declared that the mother who permitted her boy to have his own way without restrain, and whose selfish wishes were always granted without a single curb, would see that boy develop into an undesirable citizen and a "selfish and brutal husband or father."

"Nov, I have finished, and just a President. "I am going to give you some of the rules of which I am fond and which are as applicable in life as on the football field: 'Don't flinch, don't foul and hit the line hard."

FURNITURE TRUST FINED.

Judge Thinks Men Would Prefer to Work For \$1.50 a Day.

Chicago.—Judge Landis fined F. A. Holbrook, the American Seating Company, and the A. H. Andrews Company \$5000 each, and nine other furniture companies amounts ranging from \$500 to \$2000, for violation of the anti-trust laws in forming a conspiracy in restraint of trade. The defendants pleaded guilty.

Judge Landis delivered a scathing denunciation of the methods adopted by the church and school furniture trust, declaring that the punishment fixed by law is inadequate to fit the crime.

When I reflect upon the methods resorted to," said Judge Landis, "I wonder why men engage in such business to get money. Almost any man, I should think, would prefer to work in a ditch at \$1.50 a day. That is unquestionably a more dignified

CONNECTICUT CALLS FOR HELP. Farmers Willing to Pay \$30, With Board, For Spring Planting.

Pomfret, Conn .- Farm help is so scarce throughout the agricultural sections of Connecticut that farmers are uniting to pay the expense of advertising for and bringing to some central point men and women from the seaports where immigrants are obtainable.

Members of the Grange have reported that an active agent could send from New York and Boston any number of able-bodied Swedish and Polish immigrants, who, having landed, are in search of work, and would prefer farm work to city employment. The wages offered to farm hands has never been higher, the prevailing figures being \$30 a month, with room and board, and yet not enough help has been obtained to do the spring planting.

Disarmament Not Advocated. The Lake Mohonk Conference on International Arbitration adjourned after adopting a platform of recommendations to The Hague peace conference, in which all reference to disarriament or the curtailment of ar-

RIOT IN SANTIAGO; OUR SOLDIERS OUT

Mob Uses Firearms and Threatens City's Safety.

**CUBAN OFFICIALS POWERLESS** 

Believe the Revolutionary Societies Are Behind the Strikers in the Present Movement-Business at a Standstill

Santiago, Cuba .- With the Government unable to control the strike situation, residents in all parts of the city are arming themselves, and barricading their homes against the violence that threatens. Five hundred members of the Rural Guard patrol the main thoroughfares, but the strikers do not fear them. It is reported, in fact, that the soldiers and the strikers are in sympathy, and some testimony is borne in this direction by the latest developments when strikers fired pistols recklessly without any sign of interference from the military patrols. The attitude of 'a strikers to-

ward Americans is ex. mely hostile, and has been growing since the recent fight in which a squad of American sailors was badly beaten. The strikers were infuriated when troops of the Eleventh Infantry discharged the cargo of the steamer Antilla, the crew of which walked out in a body. Threats to fire on the American soldiers were heard, but the men at work were guarded by a strong line of their comrades. American residents are filled with fear that the rioters will attack them. It is said that there has been an attempt to move the strikers in concerted action against the Americans, but that so far wiser counsel has prevailed. Many of the American colony assert, however, that an assault may come at any time, and that the small force of American troop's at hand may be unable to cope with the emergency.

One bullet entered the main office

of the Ward line of steamships, lodging in the wall a few inches above the head of a man at his desk. The strikers have threatened openly to burn property, and many of the wealthier families have stripped their town houses and fled to their country homes.

Business is at a standstill, and no meat was received in the city for two days. Bread is delivered under armed guard. The strikers seized two wagons and spilled the bread they contained into the street. After the strikers had retired the bread was gathered up by hungry women and children. There are several ships in the har-

bor, all with large quantities of per-ishable supplies. One plan proposed is to permit the starving citizens to remove the supplies from these ships under the protection of the Rural Guards. But the strikers have declared that they will not allow this to be done, as it would go far to defeat their object. The cigarmakers voted to walk out, and this means practically the cessa-tion of all work in the city. The street cleaning brigade stopped work,

and they were followed by men in other city departments. Intense dissatisfaction is felt at the delay of the closing word to you, boys," said the Board of Arbitration in starting its deliberations, with a view to ending the strike. The longshoremen, who precipitated the trouble, are opposed to an early settlement, and it is said that when the board finally begins its sittings they will come forward with increased demands. The ship owners

Nothing I Ate Agreed With Me.

MRS. LENORA BODENHAMER.

Mrs. Lenora Bodenhamer, R. F. D. 1, Box 99, Kernersville, N. C., writes: "I suffered with stomach trouble and indigestion for some time, and nothing that I ate agreed with me. I was very nervous and experienced a continual feeling of uneasiness and fear. I took medicine from the doctor, but it did me no

found in one of your Peruna books

a description of my cymptoms. I then wrote to Dr. Hartman for advice. He said I had catarth of the stomach. I took Peruna and Manalin and followed his directions and can now say that I feel as well as I ever did.

"I hope that all who are afflicted with the same symptoms will take Peruna, as it has certainly cured me."

The above is only one of hundreds who have written similar letters to Dr. Hartman. Just one such case as this entitles Peruna to the candid consideration of every one similarly afflicted. If this be true of the testimony of one person what ought to be the testimony of hundreds, ves thousands, of honest, sincere peoplet We have in our files a great many other testimonials.

ANNUAL SALE, TEN MILLION BOXES

Dr. Aked on Newspapers. Dr. Charles F. Aked's second sermon in the Fifth Avenue Baptist Church, Rockefeller's church, in New York City, was listened to by an audience which crowded the auditorium. Dr. Aked denounced the sensational newspapers in an address which was devoted to a discussion of the right

and the wrong sorts of curiosity.

was based on the incident of Moses and the burning bush. "Socrates was such a prying fellow, so solicitous of other people's business, that is is no wonder that the Athenians killed him. Now, no man, much less myself, will want to break a lance for ignorance. But there is a good curlosity and a cheap and worthless one. With the world so full of marvels, of good, of deeply interesting things, we make a great mistake not to direct our attention,

our curiosity, to all this, instead of to the merely trifling. "There is much interest in the trifling. In fact, those of our newspapers which are filled with the least useful and worthy matter are the very ones which have the largest circulation. People have an unfortunate desire to know what they do not need at all to know and what is of no use to them. This is tragedy to me. It means a stagnation of the higher faculties of mind. We should direct

Mastery of Life.

our curiosity in the right direction."

Life is an art in which we too often remain mere dilettanti; one cannot attain mastery in it except by pouring out one's heart's blood.— Carmen Sylvia (Queen Elizabeth of Roumania).

Now an Elephant Farm.

British mills turn out daily more

than 10,000 miles of cotton cloth. DR. TALKS OF FOOD Pres. of Board of Health.

"What shall I eat?" is the daily inquiry the physician is met with. I do not hesitate to say that in my judgment, a large percentage of disease is caused by poorly selected and improperly prepared food. My personal experience with the fully-cooked food, known as Grape-Nuts, enables me to speak freely of its merits.

"From overwork, I suffered several years with malnutrition, palpitation of the heart, and loss of sleep. Last summer I was led to experiment personally with the new food, which I used in conjunction with good rich cow's milk. In a short time after I commenced its use, the disagreeable symptoms disappeared, my heart's action became steady and normal, the functions of the stomach were properly carried out and I again slept as soundly and as well as in my youth.

"I look upon Grape-Nuts as a perfect food, and no one can gainsay but that it has a most prominent place in a rational, scientific system of feed ing. Any one who uses this food will soon be convinced of the soundness of the principle upon which it is manufactured and may thereby know the facts as to its true worth." Read "The Road to Wellville," in pkgs "There's a Reason."
