Facts About The Great Majestic Range

It is the only range in the world made of Malleable and Charcoal Iron.

It has, beyond any question of a doubt, the largest and best reservoir.

It uses about half the fuel used on other ranges, and does better work by far.

The Majestic All Copper Nickeled Reservoir heats the water quicker and hotter than any other. It is the only reservoir with a removable frame.

The Charcoal Iron Body of the Great Majestic Range lasts three times as long as a steel body.

Being made of non-breakable material, there is practically no expense for repairing the Majestic.

. As for baking, it is perfection, not only for a few months, but for all times to come.

A GREAT MAJESTIC RANGE lasts three times as long as a cheap range, . it it don't cost three times as much.

PROOF-We don't ask you to take our word for any of the above statements, but if you will call at our store, a man from the factory, where Majestic Ranges are made, will prove to your satisfaction, that wese are absolute facts, and will show you many more reasons why the Great Majestic Range is absolutely the best that money can buy.

Shooting near Bordeaux

One day last week, one of Dr. S. T. Cade's hands reported to him that a negro Luce Rouse and his son had stolen one of Dr.Cade's cows. Dr. Cade and his brother went to see the negro and charged him with the theft They took hold of the negro, and a struggle ensued whereupon he broke loose from them and ran around the house and they thought he was gone. Report has it that the Cade boys fired their pistols in order to scare the negro. Thinking that the negro had gone they get in their buggy and started to drive away home. The negro soon reappeared on the scene with shotgun in hand. He followed the Cade brothers some distance down the road. The firing was at once renewed. The negro was not hurt. He shot both the Cade boys and sprinkled the back of their buggy considerably with shot. The gun was loaded with bird shot, however, and no seriouwound was inflicted. The negro left and went across Savannah

Sheriff Lyon and his deputy were soon on the scene. Information was sent to the negro that Mr. Lyon was there and for him to surrender. He came up and surrendered to

Roosevelt's Error.

Mr. Lyon and is now in juil.

William Billy Bryan has spoken again. I our memory is not at fault the aforementioned William Bil'y Bryan, not so long ago proposed Government ownership of railroads. He has reversed himself and thinks that Roosevelt's proposition to govern railroads by congress is wrong and that Roose veit is fatally bent on mischief in favoring scheme that might tend to centralization. The editor of this newspaper, speaking for himself personally, is something of a centralizationist, and thinks Roosevelt is right on the subject of Congressional control of rail-Such a course would be of immense benefit

to both the people and the railroads in that cross roads polititions could not enact urfriendly State laws. Congress now regulates inter-State com-

merce, and it would with advantage to all, regulate railroads.

Let Us Take Our Mersure Again. Many towns are boasting of their increase in population. Why can't Abbeville have census to show how we are progressing. This newspaper may be mistaken, but we are of the belief that Abbeville has grown much since the last census was taken. The cost would be little.

Ought to be Shot. Somebody is always trying to scare the life out of Americans by saying that the Japs have designs on this country. Suppose we shoot the profits of evil, and keep our souls in patience, waiting for results. The United States has been taking care of itself for more than a hundred years, and it is fair to presume that the old flag will proudly wave in the breeze for many yet to come.

An advertisement in a newspaper, say out in Alanka, reads this way:

As a rule, patron, patronage, or pratron

izing, are objectionable words. We want pusiness but we do not want "patronage."

Happiness at Our House.

The Ocola, (Fla.) Banner of Thursday, October 10, 1907, contains the following interesting notice of a pleasant reception at the home of our former townsman, Mr. W. T. McIlwain, but is now a citizen of Ocala. Florida:

"The home of Mr. W. T. McIlwain has been blessed by the arrival of another little son. The young gentleman was born Wednesday morning, and is being gladly welcomed by his parents, and his small brother and sister."

Prof. John G. Clinkscales declines to besome a candidate for United States Senator.

The telegrapher's strike has collapsed, and the strikers are seeking former jobs. The efficient telegrapher at Abbeville, Miss Ida Mathews, remained at her post, and we presume, that she will continue to hold her job

What is love. I think the genuine article is wise, unselfish interest in other people's welfare, interest in other lives than my own; it is to be happy in their happiness. If I have but little happiness of my own, this is one way to borrow some—by being giad in the gladness of others.—Charles G. Ames.

LOWNDESVILLE.
