How to Raise Tomato Plants.

The tomato was first grown in the flower yard for its phowy fruit, which was sus-pected of being poisonous. Now it is one of the most highly prized vegetables, and is used in more different ways than any

other.

The seed should be sown in boxes or hotbeds in February, and as soon as large enough tninned. They should be but in a cold frame, four inches from one another until they develop fibrous roots and be-come strong enough to bear the change to the open ground. When the plants are ready to be put in the garden the ground ready to be put in the garden the ground where they are to be put must be properly prepared and fertilized and holes dug about three feet apart. Pour a quart of water in ment of Bliss seed poratoes—the last of the season. their tops will be below the general surface of the soil. Several important advantages will be gained by setting out the plants this way. First, the plants are easily pro-tected in such position from frost. Secspring housektepers. We have them, don't you want them?

We have a very five feed for small chicks—
you should try a little of it.

Ice cream as it now or safe. Also the nicest and driest package of table sait ever offered the trade.

Amos B. Morse Co.

Amos B. Morse Co.

Teterden in such position from frost. Sector, ond, the cutworm does not like to go down below the general surface for his victim. Third, the tomato plant has to bear the brunt of the hottest season; and if its roots are deep in a well manured furrow it will withstand heat and drought.

When the fruit has become about half grown put, a waron load of pine straw on rown put a wagon load of pine straw on

way with the straw the bush bears for a longer period than it would otherwise do

Boys, we have something new in Suits for Good Wear.

New in cut, new in their dashing lines, new in fabrics. If you want those things that right now are worn on the boulevards of New York we have them. Smart suits in wood brown, reseda green, gray, blue and black. In fact anything that the well dressed men would wear. We made the price low enough to be interesting. Its up to you.

When You Buy Shoes.

There's three things to take into consideration-style, comfort and durability. Shoes contain the maximum amount of comfort with 100 per cent. style-durability that's took care of by the materials usedonly rock oak soles cut from the bend are used. Look at these Shoes and you would expect a higher price.

A Fine Pair of Trousers for You Boys.

The man who can't find just what he wants here in our line of Pants is hard to please. I don't believe he lives in Abbeville, for there is every kind of Pants in the way of color and that's what you want for good wear.

Hats.

Hats in almost any conceivable shape-soft, stiff or the knock about styles. Most any of the colors, with green in the front rank of course. You'll find the real hat satisfaction in every one of these items. For prices, look for my locals.

H. WEINRAUB.

Money to Loan!

\$100,000 to lend on improved farms. Terms of loans 5 years. Interest payable annually. We are headquarters, therefore no delay. When writing give number of acres; number of acres cultivated; kind of buildings and amount wanted.

JAMES FRANK & SON, - - - AUGUSTA, GA.

LOOK!

We have a few dry batteries that have been in stock about three months. We will sell these at 20c each, \$1.15 for six or \$2.10 per dozen. Let us know if you need any.
