

To the Young Fellows

While we have Clothes for men from 18 years old to 80 years "young" our talk in this space is especially to the Young Chaps about the "Youthful Spirit" in Dress.

Our Young Men's Suits are built especially for boys in the last teens and early twenties. No young fellow wants to wear large sizes of boys' clothes or small sizes of men's. They are made for the youthful figure—made to assist nature—to give that all-desired athletic build; yet so splendidly is it done that there's no suspicion of padding or freak distortion.

The garments pictured here will show you. The "STADIUM" is one of the most popular young men's suits ever designed. The "CONQUEROR" is an ideal coat for street wear or motoring. Serves also in wet weather—Cravenetted. Rainproof.

A HANDY SHOPPING LIST FOR MEN—READ IT!

- UNDERWEAR**—We sell cotton, wool and cotton and wool mixed—but never one for the other. Medium and heavy weights. Garments 50c up.
- SHIRTS**—Stiff and plaited bosoms and the winter negligees. Snappy stripe patterns, 50c to \$1.50.
- TIES**—New panel effect four-in-hand; rich, refined silk in beautiful autumn shades, 25c and 50c.
- GLOVES**—Walking and dress gloves in new shades \$1 to \$1.50. Wool Gloves 25c and 50c.
- SOCKS**—Solid colors in all the new shades, 10c, 15c and 25c.
- SWEATERS**—Coat sweaters in solid colors 50c up.
- OVERCOTS**—Medium and heavy weights, short and long. Rain Coats in Priestly and other clothes.

PARKER & REESE

BEHAVIOR. Mr. Newman of Baltimore was in Bellevue Friday tuning pianos. Mr. S. J. Cowan, of Anny Gr., Mr. C. D. Cowan, of Warrenton, and Mrs. Ada Kennedy of Leddon were guests of Mrs. Cowan on Wednesday.

Mr. and Mrs. Frank McGee returned to town on Monday, they were summoned by telegram on Saturday of last week to attend the funeral of Mr. A. C. Kennedy. The friends of Mrs. F. McGee are glad to know that she is improving.

Wayland Britt, of Clemons visited home-folks in Sandover Saturday. Miss Bessie Morrish left Saturday for Anderson, she began teaching on Monday. The Clemons Cadets attended the State Fair in Columbia.

Mr. Tatum Bradley was in Abbeville on Monday and called upon some of his Bellevue friends over the phone.

David Kennedy, Clifton, Ben and Lesley Britt, of Clemons spent last Sabbath at home, and attended the funeral of Mr. Kennedy.

Some of our citizens will attend the Georgia-Carolina State Fair in Augusta this week.

The Willington people realized Seventy-five dollars including expenses at their Bazaar on Friday night.

We can almost hear the sound of wedding bells.

Our farmers are in good spirits, cotton is bringing a good price.

Dr. Britt was in Abbeville Tuesday.

Mrs. M. E. Bradley is spending some time with her parents.

Prof. Mark Bradley returned to Clemons on Wednesday.

For trunks, suit cases and hand bags see the Rosenberg Mercantile Co.

Poultry Yard Notes.

Grain should not be fed oftener than twice a day.

Thousands of hens are killed every year by feeding too much wet food and washes. The greater portion of the feed should be dry.

Chickens of different ages should not be kept together. Much better results are obtained when they are kept separate.

Charcoal in granulated form should always be kept before fowls of all ages.

More satisfactory results are obtained from keeping only one variety than in having several, unless a person has plenty of patience and an abundance of room.

A hen should be fed some grain that she doesn't have to scratch for. Although exercise is necessary to keep her in good health, she needs time to rest and dust herself in the middle of the day.

Money Comes in Baubles

to A. A. Chisholm, of Treadwell, N. Y., now. His reason is well worth reading: "For a long time I suffered from indigestion, torpid liver, constipation, nervousness, and general debility," he writes. "I could not sleep, had no appetite, nor ambition, grew weaker every day in spite of all medical treatment. Then used Electric Bitters. Twelve bottles restored all my old-time health and vigor. Now I can attend to business every day. It's a wonderful medicine." Infalible for Stomach, Liver, Kidneys, Blood and Nerves. 50c. at Speed's drug store.

Weddings?

China? Dargan's.

Good singing, good music and handsome costumes at Opera House, Monday night.

HELPFUL HINTS ON HAIR HEALTH.

Scalp and Hair Troubles Generally Caused by Carelessness.

Dandruff is a contagious disease caused by a microbe which also produces baldness. Never use a comb or brush belonging to someone else. No matter how cleanly the owner may be, these articles may be infected with microbes, which will infect your scalp. It is far easier to catch hair microbes than it is to get rid of them, and a single stroke of an infected comb or brush may well lead to baldness. Never try on anybody else's hat. Many a hatband is a resting place for microbes.

If you happen to be troubled with dandruff, itching scalp, falling hair or baldness, we have a remedy which we believe will completely relieve these troubles. We are so sure of this that we offer it to you with the understanding that it will cost you nothing, or the trial if it does not produce the results we claim. This remedy is called **Rexall "93" Hair Tonic**. We honestly believe it to be the most scientific remedy for scalp and hair troubles, and we know of nothing else that equals it for effectiveness, because of the results it has produced in thousands of cases.

Rexall "93" Hair Tonic is devised to banish dandruff, restore natural color when it has been brought about by disease, and make the hair naturally silky, soft and glossy. It does this because it stimulates the hair follicles, destroys the germ matter, and brings about a free, healthy circulation of blood, which nourishes the hair roots, causing them to tighten and grow new hair. We want everybody who has any trouble with hair or scalp to know that **Rexall "93" Hair Tonic** is the best hair tonic and restorative in existence, and no one should scoff at or doubt this statement until they have put our claims to a fair test, with the understanding that they pay us nothing for the remedy if it does not give the full results in objection in every particular. Two sizes, 50 cents and \$1.00. Remember you can obtain **Rexall Remedies** in Abbeville only at our store.—The **Rexall Store**. The C. A. Milford & Co.

Why It Succeeds

Because it's for One Thing Only, and Abbeville People Appreciate this.

Nothing can be good for everything. Doing one thing well brings success. Doan's Kidney Pills do one thing only. They cure sick kidneys. They cure backache, every kidney ailment.

Here is Abbeville evidence to prove it.

J. C. Black, Main St., Abbeville, S. C., says: "I have used Doan's Kidney Pills and must say that I am well pleased with the results I obtained. I had been feeling miserable for some time on account of backache and pains across the kidneys. I was lame and sore nearly all the time and irregular passages of the kidney secretions caused me annoyance. I had heard of Doan's Kidney Pills being a good remedy for such troubles and going to P. B. Speed's drug store, I procured a box. They helped me so much that I have had but little pain or distress since."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

Died in the Proper Way.

A clergyman, who was not averse to an occasional glass, hired an Irishman to clean out his cellar, says the San Francisco Argonaut. The Irishman began his work. He brought forth a lot of whiskey bottles, and he lifted each one looked through it at the sun. The preacher, who was walking on the lawn, saw him, and said: "They are all dead one's Pat." "They are!" said Pat. "Well there is one good thing about it; they all had the minister with them when they were dying."

PELLAGRA.

Free Lance.

Pellagra is increasing in the south. It has not been definitely decided whether the disease is caused by unsound corn or not. The following statement will prove interesting, whether it is based on scientific fact or not:

Pellagra, the disease that has excited alarm in southern states, is to become immediately the subject of an inquiry. The work will be performed in the hygienic laboratory in Washington. This action has been ordered by the treasury department at the instance of the health authorities in various states, who fear the disease may be closely related to those found in tuberculosis. They may be destroyed by electrical treatment and nature will then work a cure.

Dr. Carroll planted three acres of corn on May 15 in 150 rows. When the crop ripened he found 50 stalks with a moldy blight in the form of a black bulb, a sight common to farmers everywhere. Under the microscope thousands of germs and seedling parasites were found in one of the bulbs.

The head has hooks of tentacles," Dr. Carroll writes to the New York World, "that enable it to seize and hold the moist, sticky surface of the ear of corn, the stomach and intestinal tract of the human or lower animal that feeds on corn infected with the mold. This black bulb goes through stages of development, and finally disintegrates and is scattered in a black powder by the wind. Thus healthy ears of corn are infected.

"The germs and parasites closely resemble those found in germs infected in dairies, know to have tuberculous cattle. The close resemblance of these corn mold germs to those in the sputa of consumptive leads me to suspect pellagra to be closely related to tuberculosis.

"A simple and easy way to curtail or wipe out pellagra would be for the farmer to go through the corn field shortly after it is in tassel, before the ears of corn are formed, and gather all the black mold bulbs or balls on them. Then in harvest time the gathered crop would probably be free from pellagra pests and suitable for healthy, nutritious food.

"Pellagra, or periarthritis, being a disease of germs or parasitic origin, it is only necessary to destroy the germ of parasite. To this end a germicide that may be safely administered directly to the organs involved should be employed. For that purpose I use an acid germicide applied to the intestinal tract, driven into the diseased parts by an alternating current of electricity.

"This germicide thus applied kills instantly all forms of pathogenic bacteria or parasites that may be present in the blood stream traversing the system, clogging the mucous membranes, such as lungs, kidneys, salivary tract and the glandular system generally. The violet electrical ray will stimulate the diseased mucous membranes by the polarization of cells that by disease are depolarized, and when the mucous membranes are so stimulated, they will perform their true functions and carry off the dead bacteria."

United Daughters of the Confederacy Entertainment Erskine Auditorium.

Monday evening, Nov. 15, 1909, United Daughters of the Confederacy will give an entertainment in Erskine Auditorium, Due West, S. C. See the funny farce, Hear the melodious music, by the masterful band of D. W. W. See the bewitching beauty. Dreams of the Dixie girl. Smile at the lonely old bachelor. In short come and you will never regret it.

GUMPTION ON THE FARM.

I bought a pretty cottage On the outskirts of the town; Then was afraid the wind would come And blow my cottage down. Nor North wind, nor East wind, Such a scurvy trick would play; But up there came a mortgage wind And swept my house away.

The only man not deeply concerned in good roads in your county is the tramp who goes that way but once.

A good many folks will have cold fingers when they are through heating corn this fall. Don't let that somebody be you. Keep a lot of bag strings hanging in the granary, and many times, some in the barn come handy. A broken harness strap is a good thing to have on hand.

The folks who do the most dawdling in the fine autumn weather are often the most surprised when in the cold, wet season catches them with their outdoor work half done.

A horse will do more and do it ten times more willingly, for the man who has a kind, ring in his voice and who says "get up," as if he were going along.

Some farmers are surprised the first time their wives sell enough eggs and butter to furnish the table and the wardrobe, and after that they are surprised if she does not keep quiet.

Save the beautiful things in nature. Don't cut down a shapely pine or poplar just to see if the axe is sharp; and when grubbing out fields, seek the fine, straight, hardwood shims in some forest for future use.

All rubbish about the place that would harbor insects and other pests should be cleaned up and burned. If it has not already been done, hotbeds and cold frames should be cleaned up and soil prepared for bedding.

There are life insurance, fire insurance and stock insurance, all of them good enough so far as they go, but none of them do any good for the industry that insures against unhappiness and want in old age.

Now that the days are shorter you will be doing chores sometimes after dark. Do it in the evening, not at night. Hang it up where it will not be knocked over. It is an awful thing to have the barn burn up. By the way, a harness snap suspended from the ceiling by a bit of old pump chain is a good thing to hang the lantern on. Have it just above the reach of your head.

In November is the time to prune grapes; but in very cold localities it is safer to delay until the first of December is practically over—say the latter part of February. Cut back new wood so as to leave two buds on each cane.—November Farm Journal.

Little Load Lifters.

Jelly cake should have the edges pared off carefully to make it roll better.

Whole peppers are better for seasoning soups and sauces than ground peppers.

For removing from the hands stain made by paring fruits and vegetables use oxalic acid.

Faded plush may be brightened by brushing it very lightly with a clean sponge dipped in chloroform.

For a refreshing dinner salad, toss white cherries, bits of orange and cold chicken with French dressing and serve on lettuce leaves.

To make butterscotch mix four cups of brown sugar, two cups of butter and three tablespoons of water and boil until thick in water.

Do not wash colored clothes in the same water with all-white ones. This especially holds good if one happens to have table linens colored in the wash, saw him, and said: "They are all dead one's Pat."

After the weekly washing rub a little vinegar and spirits of camphor over the hands. This will keep the hands in good condition summer and winter.

Do not rub your eyes occasionally just before going to bed the juice of half a lemon in a small tumbler of water, without adding any sugar to it.

If you have a black gown that needs freshening, cleanse it thoroughly with clear black coffee, diluted with water and containing a little ammonia.

When cut flowers become wilted after a while they may be made to be fresher by cutting off the ends with a sharp knife and dipping the stems in hot water for a moment.

If you cannot afford to visit the masseuse frequently, take consolation in the thought that it is better for you to do it yourself, because you exercise other muscles while developing those muscles.

ABBEVILLE FALL CARNIVAL

COMMENCING

ONE SOLID WEEK MONDAY, NOV. 15th

Executor's Sale of Real Estate.

By virtue of authority vested in me under the will of L. C. Clinkscales, deceased, I will sell at the late residence of said deceased, on Wednesday, the first day of December, 1909, the following real estate belonging to the estate of said deceased. All that tract or parcel of land, known as the John F. Clinkscales place, containing Seventy (70) Acres, more or less, and bounded by lands of C. M. Clinkscales, Max Below and others.

At the same time and place I will also sell the personal property belonging to the aforesaid deceased, consisting of farming implements, a lot of corn and fodder, three mules, one cow and household furniture, etc.

J. F. Clinkscales, Executor.

Say, Dad—

Here is a chance to shoe your boy so he'll stay shod for a reasonable length of time. The shoe that will do it is the "Square Wear." The best wearing shoe for boys your money can buy.

Bring in the lad and let us fit his feet and your pocket-book with a pair of these stylish, comfortable and long wearing shoes.

D. POLIAKOFF.

LOWNEVILLE.

Happenings of a Week in and About the Seven Hill City—Personals.

Lowneville, Nov. 8th, 1909.

The family of Dr. A. J. Speer, who had made their home at Cordelia, Ga., since last winter, came back to this place several days ago, and are occupying the house from which Hon. C. Lomax moved some time ago, belonging to Mr. Jas. Lattimer.

Yesterday week Mr. and Mrs. E. F. Lattimer went to Honea Path to see the home of their first son, Mrs. Lattimer remained there until yesterday, when Mr. Lattimer went over and brought her home.

Mr. C. G. McAllister, Sr., of Lattimer, was here today was a week ago on business.

Mrs. J. C. Lomax and Mrs. E. C. Meade went to Columbia last Monday. They spent several days at the fair, and then went to Marion to stay a few days with the family of Mr. Jas. Lomax, son of the first named.

Mrs. J. G. Hutchison and Mrs. E. W. Humphries went to Anderson Tuesday to do some shopping in which they could not be suited here.

Mrs. Annie E. Moorehead, so pleasantly known in this section, till a few years ago, now of Atlanta, Ga., came here Tuesday and remained with friends until next day.

Mr. A. V. Barnes had a horse, somewhat on the pony order, that he valued highly. Last Wednesday one ever seen in the lot, reared up, fell back, struck its head upon a stump and broke its neck—an unusual accident which caused a loss to be felt.

Mr. and Mrs. D. L. Barnes and Mrs. A. V. Barnes and her little girl Alpha, went to Anderson Thursday.

Mr. J. F. Gibert went to Mt. Carmel Thursday, from there to Lebanon, and from there to Abbeville on business. The rounds consuming several days.

There have been such very fine weather conditions in the near past for gathering crops, that reports reach us from all parts of this township, that what corn was made has been gathered, nearly all of the cotton has been picked, a good many oats sowed, and farm work for this year will soon be wound up. As there is practically no late cotton, the cotton picking season will soon end.

A few days ago, a man on a motor cycle from somewhere and going somewhere, passed through this place. It was the first and only one ever seen and heard of here. We had thought that some of the auto-cars made fuss enough, but the little machine was far ahead of the big ones.

Troupe.

Attention Nobles.

On Thursday the 18th day of November, Alec Temple of the Ancient Arabic Order of the Nobles of the Mystic Shrine will journey to the Oasis of Augusta.

To all of the Nobles of any Temple who can wish us on that date, Alec Temple and the local Augusta Nobles extend a most cordial invitation. A great session is expected. Enthusiasm is high. Fresh meat is plentiful, new stunts are profuse and everything is altogether lovely.

All Ye Sons of the Desert come and enjoy the good fellowship of Alec.

Box Supper.

The teachers and pupils of Betha School will have a "Box Supper" at the school house, Friday night, November 12th, 1909, for the benefit of the Library. All are cordially invited to attend.

Just think of "Fluffy Ruffles" being at the Opera House. The greatest show of today.

Office—First floor City Hall.

Weddings? Cut Glass? Dargan's.

Mrs. Louie Hite, 428 Outlen St., Danville, Ill., writes, October 1st: "Foley's Kidney Pills started me on the road to health. I was treated by four doctors and took other kinds of remedies but grew worse, and was unable to do my housework, and the doctor told me I could live from two to six months. I am now so much better that I do all of my own work, and I shall be very glad to tell any one afflicted with kidney or bladder trouble the good results I received from taking Foley's Kidney Pills." Commences today, and is sold by C. A. Milford & Co.

The right way to cure piles is to apply something to all parts affected. The best thing that we know of in such cases is Manzan, the great Pile Remedy. This may be applied directly by means of a tube with a nozzle attached. You will find Manzan to be an excellent remedy for any kind of piles, whether bleeding, blind or itching. Manzan is sold by C. A. Milford & Co.

It will soon be time to paint your house so as to use the paint that goes the furthest and lasts the longest—DeVoe's. For sale only by Speed's Drug Store.

If you want a John B. Stetson hat see the Rosenberg Mercantile Co.
