#### Meaning of High-Priced Cotton to the South.

Manufacturers Record.

If present prices prevail through the crop season, it is possible that the cotton crop this year will be worth to the South \$200,000,000 to \$1,000,000,000. Last year's cotton crop was valued at \$683,000,000, not including the seed, and if to this be added the value of the seed, it was about \$780,000,000 with cotton salling at about \$780,000. the value of the seed, it was about \$780,000, 000. With cotton selling at about present prices and the fine grades of long staple selling in many cases as high as 18 or 20 cents and over, it is possible that this year's crop, counting the seed, which are selling relatively as high as cotton, may yield 150,000,000 to \$200,000,000 in excess of last year's value.

But for the help of an old colored woman she would have burned to death. Mrs. Winn had her babe in her arms when she first discovered her clothing on fire, but like all good mothers she never forgot her babe. This should be a warning to all women to be careful about fire, and will say we should never forget our old time last year's value.

Wonderful, indeed are these figures. If realized, as it now seems altogether probably they will be, this year's cotton crop will be worth largely more than double the world's production of gold, great as that is, or, stated in another way, it will exceed in value the aggregate capital of all the national banks in the United States.

The high price now ruling for cotton.

The high price now ruling for cotton means that the farmers in the Southwest, means that the farmers in the Southwest, whose cotton crops were short, will receive for the smaller yield equally as much as they received last year, and in some cases even more, and thus be fully compensated by the increased value. The farmers of the central South, however, where the cotton crop is as large as it was last year, will reap such a harvest of prosperity as they have never known. In Georgia the increased value of the cotton crop this year over last, should present prices hold, will be about \$50,000,000, giving that State probably \$1.75,000,000 or more for its cotton probably \$175,000,000 or more for its cotton and cottonseed. The Carolinas will do proportionately as well, and Alabama and Mississippi although their crops may be less than last year, will receive in the aggregate much more for cotton this year than they did last. These wonderful facts are of tremendous

These wonderful facts are of tremendous import to the South. They will give to that section a surplus of wealth such as it has not had before since 1860. The \$50, 000,000 of profit on cotton over and above to the profit made last year by the farmers of Georgia is in itself a vast wealth which ought to be productive of limitless good to ought to be productive of limitless good to that State. This billion-dollar cotton crop may be made to do great things for the South if this wealth be wisely utilized. Out of the surplus profits many thousands of new and better homes can be built, many thousands of new and better schools and churches should be built, many thousands of miles of good roads should be constructed and every avenue of business. constructed and every avenue of business activity should feel the thrill of the new life that comes from this great influx of

And then, too, it is not cotton alone that is this year blessing the South. The grain crops as a whole have been good; the orange crop of Florida will probably run to 6,000,000 boxes, or 50 per cent more than to 6,000,000 boxes, or 50 per cent more than last year; the apple orchards are yielding in many sections a harvest to their fortunate owners, while fruit and trucking, dairying and kindred pursuits are all helping to enrich the South with large yields and good prices which have this year prevailed.

Moreover, to the prosperity of the farmers is to be added the increasing prosperity of industrial interests. The railroads are once more crowded with business, and everywhere there are indications of com-

are once more crowded with business, and everywhere there are indications of coming car shortages and of inadepuate facilities to meet the growth of traffic. Coal mines are becoming crowded to their capacity at advancing prices for their output; the consumptive demand for iron is exceeding the producing capacity of the furnaces. In the lumber regions there is the consumptive demand for iron is exceeding the producing capacity of the furnaces. naces. In the lumber regions there is a gradual trend to better things, and though at the moment cotton mills claim that there is no margin of profit between the raw ma-terial and the finished product, the cotton goods trade of the world must adjust itself to the higher range of values and give to spinners a fair measure of profit. Into Texas thousands of well-to-do Wes-tern farmers and investors from many sec-

Into Texas thousands of well-to-do Western farmers and investors from many sections are pouring, blessing that State with a great influx of additional energy and capital, while in Florida the same movement is under way on a somewhat smaller scale. Into other Southern States here and there new settlers are coming, although the movement is not on such a scale as in Texas or Florida. The whole South, however, must soon become the center of immigration activity, just as Texas and Florida. migration activity, just as Texas and Florida and Oklahoma now are. The outlook is cheering; it is optimistic in the highest

degree,
The South is on the high road to prosperity. Let it utilize its great wealth wisely; let its people avoid speculative dangers which are sure to come; for wherever great wealth suddenly develops the unwary are sure to be led into many wild-cat enterprises by men who make a bussiness of living on the hard cearned profits of others.

others.
With all this wonderful wealth which is with all this wonderful wealth which is coming upon the South, with this billion-dollar cotton crop now being gathered, let us forever banish from every mind the thought of the South being a poor country; let us forever cease to talk poverty. Let us, on the contrary, rejoice in the boundless wealth that is coming upon the South; that has already come upon it and let us that has already come upon it, and let us come into a full realization of the fact that in the light of such wealth no greater dis-grace could come upon this section than to grace could come upon this section than to permit any of its people to pose before the world as seekers after either charity of philanthropy from outsiders for school or churches, or even for the eradication of the bugaboo of the hookworm from the South; let us forever banish the hookworm of mendicancy which has been used by many outside people, and, unfortunately, by some Southern people, to give to the world the impression that the South is a land of laziness and of poverty. What a travesty upon a land of such boundless wealth - creating, wealth - producing resources!

If we could banish the mendicant mind from many people who for the sake of no-toriety or the desire to share in the "pap" are forever prating about the South's pov-erty or about sickness in the South, without exception the healthiest part of America, or about lack of energy, this section would stand erect before the world, with a backbone that neither asked nor received the patronizing gifts of the rich, and, thrilled with the strength of its own possibilities, the South would lead the world in manhood and in wealth.

## Cottolene Comes from Dixieland!

The source of lard is against it. Lard-cooked food may not cause indigestion and throw your stomach out of kilter, but it will be only a matter of 'luck if it doesn't.

The source of Cottolene is pleasing—the product is healthful. The oil is extracted from the cotton seed grown in the fields of the Sunny South. It is then refined and rendered odorless and neutral in taste. From Cottonfield to Kitchen-human hands never touch the oil from which Cottolene is made.

Cottolene is an absolutely pure product-of pure origin and ancestry, and will make palatable, digestible, healthful, wholesome food. It is the best frying and shortening

medium made to-day. If the best is none too good for you, ask your grocer for Cottolene, and do not let any prejudice stand in the way. The only way to know Cottolene is to test it yourself.

COTTOLENE is Guaranteed Your grocer is hereby authorized to refund your money in case you are not pleased, after having given Cottolene a fair test.

Never Sold in Bulk Cottolene is packed in pails with an air-tight top to keep it clean, fresh and wholesome, and prevent it from catching dust and absorbing disagreeable odors, such as fish, oil, etc.

DOTS FROM ARBORVILLE.

Arborville, November 22, 1909. A SAD ACCIDENT.

On last Thursday while attending to her household duties, the dress of Mrs. Annie Lee Winn, the wife of Mr. C. M. Winn, caught on fire, and before anyone could come to her relief she was severely burned. But for the help of an old colored woman she would have burned to death. Mrs.

sowed in this section this fall than has been in ten years before altogether.

All one can hear is some darkey saying, "Cap, don't you want to trade for another year? If so, you have struck the right man; if you will let me have some ten or fifteen dollars, I am your man." But we think this think hear leaved out. think this thing has played out. The farmers have been forced to give up that plan. Now, boys, what will you do? Be your own judge, but act prudently.

#### ADVICE TO WOMEN.

Message from a Famous Beauty Specialist to Women Lacking in Energy and Vitality.

Thousands of women vainly attempt to improve their complexions and to remove blackheads, crows' feet and other blem-ishes, through the use of cosmetics. This treatment falls because the trouble lies far deeper than the skin. They are suffering from impure and impoverished blood. This condition is in many cases due to a ca-tarrhal condition of the whole system which finds its expression in sallow, mud-dy complexion, dark-circled eyes, general weakness of the system, and perhaps most plainly in the weeping of mucous mem-branes that is commonly called catarrh. In fact this whole tendency is, properly speaking, Catarrh Banish this catarrh, and the complexion will clear as if by magic, eyes will brighten, faces become rosy and shoulders erect. Perfect beauty goes only with perfect health, and perfect health for women can only be obtained through one certain treatment—that which will

cure catarrh. Mme. Swift, New York, the famous beau-ty specialist known throughout the world and an accepted authority on all relating thereto, states that the one positive and permanent relief for catarrh is Rexall

Mucu-Tone. Here is her letter:
"I can strongly endorse the claims made for Rexall Mucu-Tone as a cure for systenon-kexam mucu-1one as a cure for systematic catarrh. Its tonic effects are remarkable. It builds up the strength and restores vitality. If women who are tired and run down, lacking in energy and vitality, will use Rexall Mucu-Tone, they will praise as I do its strengthening and healing qualities."

ng qualities."

Rexall Mucu-Tone works through the blood, acting thus upon the mucous cells— the congestion and inflammation of which causes local catarrh. This remedy causes poison to be expelled from the system, and the blood is purified and revitalized. Thus the natural functions of the mucous cells are restored, and the membranes are cleansed and made strong. We know that Rexall Mucu-Tone does relieve catarrh. We positively guarantee to refund the money paid us for this remedy in every case where the user is dissatisfied. It is a builder of vigorous health and a creator of good complexions. Price 50 cents and \$1.00. good complexions. Price 50 cents and \$1.00 per bottle. Mail orders filled. It may be obtained only at our store,—The Rexall Store. C. A. Milford & Co.
