Our 3rd Year Here

Has just closed, and we wish to thank our friends and patrons for their liberal patronage during the past year and respectfully solicit a continuance of same.

Our Business is Growing

We have many more customers today than we had a year ago-people from quite a distance are trading with us. They say that our stock is the equal and our prices a little better than some of our neighboring ed? towns.

Our Greatest Aim

Is to hold our customers—we want every one of them satisfied—and in order to accomplish this we will make greater efforts then ever before to keep

The largest and best stock of building with branch water, throw in a pile of inmaterial carried in this section.

Some of the things we control here are just a little better; we mention a few of them-

Gaffney Lime, Acme Cement Plaster, Lehigh Portland Cement, Magnolia and Paroid Roofing.

When in need of any of these brands remember we are their agents. Yours very truly,

Carsja coffee, 5 pounds roasted and ground. Your \$1 00 can't buy better. Rock sait for cattle,

Good sods 11 pounds for 250.

THE LIEN LAW.

Lowndesville, S. C., Jan. 10, 1910. Editor Press and Banner: As I was one of the number who fought the repeal of the lien law, will you allow me space in your valuable columns to say something about it now?

The readers of the Press and Banner, have no doubt, well remember what I said in reference to the repeal of the law. I said, that whenever the Legislature re-pealed the lien law it would be the greatest mistake for the general good of all classes of our people that they could nake; that the lien law was the best law on the statute books: that it was the best law for the farmer, the best law for the merchant, the best law for the stable man, and for all during this aviation contest. best law for the stable main, and for an business of the country. I said again that the repeal of the lien law would tear the business of the country all to pieces, and if the people will hunt up the communications that I wrote in reference to the repeal of the law, they will see that it has turned out just as I said. I told the peo-ple that time would reveal whether I was right or wrong, and I think that the has fully come when a one-eyed man can see that I was right. If there has ever been a time when all the business of the country was in as bad a fix as it is now, it is not in my recollection. I told the tenant farmers in the Press and Banner and on the stump that if the lien law was re-pealed that they would not have the poor privilege of trading with the merchant of

privilege of trading with the merchant of their choice,—they would have to trade where "Cap" and "Boss" said. Just so, I have heard of them following "Cap" and "Boss" around from one store to the other like the Indians around the Allegheny mountains, till they have made a trade.

I told the people again that the repeal of the law would demolish the labor of the country, that it would drive the labor out country; that it would dive the labor of the country. How about it now? According to the statement made by the newspapers, thirty thousand negroes have left the farms in the State already. The prosperity of every country on earth de-pends on its labor, and when you legislate against labor and make laws to oppress the labor of the country, the prosperity of the country is just as sure to go down as the sun sets behind the western hills. Take the labor away from the farms, and the farm will go down; take the labor away from the cotton mills and they will go down; take the labor from any business and it will go down; take it from the streets of Abbeville and the streets of all other cities, and they will go down. I am satisfied that our honored Representatives see by this time that they made a mistake, so let them come out like men and acknowledge their mistake and re-enact the line law; put it best some status bests. lien law; put it back on our statute books just like it was. It has been a bridge across a bad place for a long time, and everybody crossed over safe; for it will not do to oppress or deny the poor. The good Book says that he that giveth to the poor lendeth to the Lord, and it also teach-es that Lazarus lay at the rich man's gate

Majestic flour is the best. Sold by The Rosenberg Mercantile Co.

and begged the crumbs that fell from his table; and it is said that the rich man, Dives, llfted up his eyes in hell, and saw Lazarus afar off in Abraham's bosom; and so everyone who will read that portion of the Holy Word will know that it was never intended for the room to be corporated.

intended for the poor to be oppressed or denied. W. C. Shaw.

There is nothing so annoying or so disagreeable as plies. We know of nothing so effect ive in case of blind, bleeding, itching plies as ManZan. You apply ManZin very conveniently by means of the nozzie attached to the tube in which ManZin is put up. Sold by C.A. Milford & Co.

Washington, Jan. 9 .- "It is just to please

Washington, Jan. 9.—"It is just to please the eye. No good can come from making flour white, declared Chemist Wiley of the department of agriculture. "You cannot find any igreat amount of bleached flour going into interstate commerce now. Every time I cut a loaf of bread I rejoice because instead of its having the whiteness of a corpse, it has that beautiful delicate amber tint that all bread ought to have.

"Several cases are pending against millers, and I do not betray any confidence of the millers when I say that the fight on this case is made chiefly by the men who are selling the bleaching machinery. The millers themselves would not fight it for a moment if left to themselves. The bakers of the United States were always opposed to bleached flour. They know the flour was injured by the process.

"A fund of \$100,000 I understand has been raised to defeat the government's content

raised to defeat the government's conten-

And who raised all this money with which to force on the helpless public flour denaturized, cadavered, killed and bleach-

The owners of bleaching machinery. Here is a job for the Law and order League. Where is the Anti-Saloon Leagne? Let it take the matter up, since it is out of a job just now.

That we must eat dead, bleached flour, line our alimentary grape vines with clorides and clorines, sulphides and sulphates or such foreign delterious substances in machinery for bleaching flour is the limit the jumping off place of civic long suffer-

The worst feature of the whole affair is that some people actually prefer the "cadavered" flour to the good kind. They prefer the white sepulchral biscuit to the soft sweet yellow bread.

Take a pint of "cadered" flour, mix it with branch water, throw in a pile of inpowper, stir the broth up, knead into bis, cuit, bake in a quick oven, and serve cold with glucose molasses, a dose once or twice a day. If this does not eat up your alimentary grape vine aqua regia will. Take a pint of flour which has a little o the heart left in it, unbleached, add to this

buttermilk and sods, make and bake bis cuit of it and you have good bread. Southern people eat tons of molasse Pure molasses are likely to sour in hot weather. Glucose never sours. Manufac tures mix molasses and glucose in order to get a combination which will taste sweet

and which will not sour in warm weather What is glucose? Glucose is a chemical compound, half o which comes from Pluto's work shop and

half from starch Experiment: Take a test tube of ordinary size put in it a spoonful of starch, cover with concentrated sulphuric acid and boil over an alcohol lamp. Notice the change What was once starch, and acid that would eat up a ten-penny nail, now is a viscous, clear, sweetish fluid, known as glucose.\ Some liars call it corn syrup but its glucose. It will not sour, tainted, or swell up, it is glucose.

You know what starch is and you know that sulphuric acid is made from fire and brimstone with the addition of water. Would you imagine glucose a fit article for daily food? Yet the most of our mo-

asses have more or less glucose in them. We need somebody to look after us, to look after our diet. We have been and are still in a swivit over what we drink, but no one is exercised over what we eat. Pela-Capt. W. C. Shaw Believes that his Pre- cial agent, Dr. Knapp informs us, contain gra, trichinae, cholera, dysentery, ptomaine, indigestion, appendicitis, ect., are

> A greenhorn once yoked himself with a proceeded to leave the earth if possible. ed all subscribere shoul notify the Cen-The greenhorn was much exercised in office of any changes or connections dekeeping up with the splendid pace set by sired. the bull, and passing an acquaintance velled at him, "Head us dinged fools we are running away". The poor public has its and eighteen in the Country. More than head in the yoke with the bull of commercialism and it is up to some power to 'head us dinged fools" we know we are wrong and yet it is hard to get right.

We can quit eating cadavered flour at any any rate. As the editor of the Lancaster News would put it, it is hard to see how "editors and niggers" are going to dodge the glucose.

TODAY IS LEE'S BIRTHDAY.

Washington, Jan. 14.—Official recogni-tion in a limited way of the birthday of Gen. Robert E. Lee is to be given by the treasury department. The anniversary of the birth of the famous Confederate sol-dier falls on January 19 and the collector of customs at Newport News, Va., has been authorized to close his office on that day for as long a time as public business will permit. The honor paid Gen. Lee's memory is an unnsual one: it rarely, if ever happens that a public office is closed on the occasion of the celebration of birthdays of noted Americans, except, of course where regular legal holidays provide for it.

It is a little remarkable that Gen. Lee should thus be honored. Of course we of the south know Gen. Lee, but the eyes of the parents, Mr. and Mrs. W. A. when the Diamond wedding is celebrated.

North are holden.

In all history no character stands out with less tarnish or more luster, with less tarnish or more luster, with less discounties of the control of the contr guile or more simplicity, with less artifice or more candor, with less fear or more

bravery, than that of Lee. We all love him. We need no orders to commemorate his memory, for his image has been set up

among our household gods, and his deeds and his life are ever fresh in our minds. We have woven about his brow a crown of acanthus, and placed his image in the Statuary hall of our hearts. The name of Gen. Lee will be revered as

long as men read history. It is not required to promulgate orders to observe his birthday in order that he may be re-Yet it is pleasant to see that those of the

other side see good things in Gen. Lee's life. It is an indication that we are growing better.

Mr. and Mrs. Charles Klugh, Greenwood.
Miss Georgia Kennedy, Bellvue.
Mrs. A. H. Wideman, Bradley.
The handsome appearance of the bride was the subject of remark by many, One mighty good woman said that she never saw Mrs. Bradley looking prettier than on this occasion, which expression, we assume, was meant to imply that her admiter meant to say that she was prettier of the fifteenth anniversary of her marriage than

she was when she took upon herself the marital yow. As no wife can long look pretty after her marriage, if she is not loved and carefully cared for by her husband, the remark was no doubt as compli-mentary to her husband as it was to her-

The house was beautifully decorated with fresh flowers and festooms of gracefully hung evergreens which combined with the reflecting lights and the beauty of the guests, presented a scene fit for the gods, and made old bachelors wish that they had been married fifty years, instead of fifteen.

Mr. Tusten, the octogenian father, looked on with the greatest pleasure. While the frosts of four score years are on his head this heart is still young. The beauty of the flowers and the happiness of others are now as grateful to his senses as when he was younger in years. While his mind and heart must have reverted to the recent

heart must have reverted to the recent alebration of his own golden wedding, and the sudden departure since them of the companion of more than half a century, yet he had a cheerful exterior.

The presents were many and varied—all being of cut glass. The number—about 175—included almost every conceivable shape and size of the crystal material presented to the eye of the guest a pretty exhibit of the choicest articles, but to the recipients the chief value of the whole was in the testimonials of friendship and good will that prompted their giving.

in the testimonials of friendship and good will that prompted their giving.

The refreshments consisted of a variety things with which we are not daily presented. The alimentary education of this bachelor having been neglected in his youth, he is unable to give the names, or the particulars of the good things that were placed on the plates that were handed out to the guests. The guests who were better educated on the subject of refreshments never seemed to have enjoyed themselves more or to have ever placed a greater quantity of the good things where greater quantity of the good things where they would do most good. When it came to the dispensing of the

liquids the contents of the punch bowl, which cheers, was served to the satisfac-
