

Nature's Gift from the Sunny South

Noah Was the Founder of Indigestion-- He Forgot to Leave the Pigs Ashore

People, in consequence, have ever since been victims of lard-cooked food and indigestion. Lard-soaked food is not fit for human stomachs because lard is made from greasy, indigestible hog fat, and is bound, sooner or later, to make trouble for your inner machinery.

Cottolene is the only rational, national shortening. It is a pure, vegetable product, and its source (the cotton fields of the Sunny South) is in striking contrast to the source of lard—and there is just as much difference in the healthfulness of the two products as in their sources.

Cottolene makes food that any stomach can digest—palatable, nutritious and healthful. If American housewives but knew the superiority of **Cottolene** over lard, both from a practical and health standpoint, lard would never again enter any well-regulated kitchen.

COTTOLENE is Guaranteed Your grocer is hereby authorized to refund your money in case you are not pleased, after having given Cottolene a fair test.

Never Sold in Bulk Cottolene is packed in pails with an air-tight top to keep it clean, fresh and wholesome, and prevent it from catching dust and absorbing disagreeable odors, such as fish, oil, etc.

NATIVE AND FOREIGN BORN PEOPLE.

Census Bureau's Instructions Regarding the Enumeration of Them.

Washington, D. C., February 16, 1910.—What the census enumerators are required to learn regarding the place of birth of native-born and foreign-born persons, and other personal facts concerning the latter class, in taking the Thirteenth United States Census, beginning April 15 next, is fully explained in the instructions prepared by the United States Census Bureau to guide them in filling the population schedule. It is pointed out that all the questions relate only to conditions existing on April 15, the "Census Day."

On the subject of place of birth of a native-born person the instructions state that if the person was born in the United States the enumerator is to give the State or Territory (not city or town) in which born. A person born in what is now West Virginia, North Dakota, South Dakota, or Oklahoma should be reported as so born, although at the time of birth the particular region may have had a different name.

Relative to conjugal condition, the enumerators are to report whether the person is single, married, widowed, or divorced. Married persons are to be asked if they have been married before the present marriage is the first, the fact is to be indicated by the sign "M 1," but if it is the second or subsequent marriage, then the enumerator is to write "M 2," meaning married more than once.

The question calling for the number of years of the present marriage is declared by the Census Bureau to apply only to persons reported as married, and the answer should give the number of years married to the present husband or wife. Thus a woman who may have been married for 10 years to a former husband, but has been married only 3 years to her present husband, should be returned as married 3 years. The number of years present marriage should be the number of completed years. A person who on April 15, the "Census Day," has been married 3 years and 11 months should be returned as married 3 years. If the person is married less than 1 year, the entry is to be "0," meaning less than 1 year.

In the case of persons speaking Polish or reporting that they were born in Poland which is no longer an independent country, the enumerator is to inquire whether the birthplace was in what is now known as German Poland, or Austrian Poland, or Russian Poland, and he must write the name accordingly as Poland (Ger.), Poland (Aust.), or Poland (Russ.).

If the birthplace reported is Canada, the enumerator is required to ask whether the person is of English or French descent and write Canada (Eng.) or Canada (Fr.), according to the answer.

The question calling for the year of immigration to the United States applies to all foreign-born persons, male and female, therefore, for every person whose birthplace was in a foreign country. The enumerator must enter the year in which the person came to the United States. If he has been in the United States more than one year, the year of his first arrival is to be stated.

The inquiry whether naturalized or alien applies only to foreign-born males 21 years of age and over. It does not apply to females, to foreign-born minors, or to any male born in the United States. If the person was born abroad, but has become a full citizen either by taking out second or final papers of naturalization, or through the naturalization of his parents while he was under the age of 21 years, the enumerator is to write "Na" (for naturalized). If he has declared his intention to become an American citizen and taken out his "first papers," the enumerator is to write "Ia."

The inquiry as to the ability to speak English applies to all persons 10 years of age or over. If English is spoken, the enumerator must write "English" in the proper column. If the person enumerated is not able to speak English the enumerator is required, in such cases only, to write out the name of the language spoken, as French, German, Italian, etc. If more than one language is spoken by a person who, however, does not speak English, then the enumerator is to write the name of that language which is his native language or mother tongue.

Saved From Awful Peril. "I never felt so near my grave," writes Lewis Chamblin, of Manchester, Ohio, R. R. No. 3, "when a frightful cough and lung trouble pulled me down to 115 pounds in spite of many remedies and the best doctors. And that I am alive today is due solely to Dr. King's New Discovery, which completely cured me. Now I weigh 160 pounds and can work hard. It also cured my four children of croup." Infallible for Coughs and Colds, its the most certain remedy for LaGrippe, Asthma, desperate lung trouble and all bronchial affections. 50c and \$1. Trial bottle free. Guaranteed by P. B. Speed.

Mr. E. A. Kelley, Belvidere, Ill., writes us: "I am an ex-engineer with 22 years active service to my credit. About three years ago my kidneys were affected so that I had to give up my engine. First I was troubled with severe aching pains over the hips. Then followed inflammation of the bladder, and spots appeared before my eyes. A sample of Foley's Kidney Pills that I tried, so benefited me that I bought more. I continued to take them until now I can safely testify they have made me a sound and well man." C. A. MICROBES IN THE SCALP.

The Latest Explanation is that Microbes Cause Baldness.

Prof. Uma, of Hamburg, Germany, and Dr. Sabourand, of Paris, France, share the honor of having discovered the hair microbe.

Baldness is not caused through a few years' work of these hair microbes, but is the result of conditions brought about by their presence. Baldness may not occur until years after the microbes began work, but it is certain to come sooner or later. The microbes cut off the blood supply. They feed on the fatty matter about the roots of the hair, through which the blood is absorbed. Finally the fatty matter is consumed, the food supply of the hair is gone, and it starves and finally dies.

Resorcin is one of the most effective germ destroyers ever discovered. Beta Naphthol is a most powerful, yet absolutely safe germicide and antiseptic, which prevents development of germ matter, and creates a clean, healthy condition.

Pilocarpine, although not a coloring matter or dye, is an ingredient well established for its power to restore natural color to human hair when loss of color has been caused by a disease.

Borax, because of its well-defined softening and cleansing properties, is most useful in the treatment of scalp and hair diseases. Glycerin acts as a stimulant to the hair bulbs, and has a soothing, healing and nourishing influence. Alcohol is indispensable in medicine because of its antiseptic, stimulating and preservative qualities.

We want every one who has scalp or hair trouble to try Rexall "33" Hair Tonic, which contains all these ingredients. If it does not give you complete satisfaction in every particular, we will return every penny you paid us for it, for the mere asking and without question or formality.

Of course you understand that when we say that Rexall "33" Hair Tonic will grow hair we do not refer to cases where the roots are entirely dead, the pores of the scalp closed, and the hair has the shiny appearance of a billiard ball. In cases like this there is no hope. In all other cases of baldness Rexall "33" Hair Tonic will grow hair, or cost the user nothing. Two sizes, 50 cents and \$1.00. Beware of cheap imitations. WHO ARE TO BE ENUMERATED.

The Census Bureau's Instructions to Enumerators on This Point.

Washington, D. C., February 19, 1910.—The explicit and lengthy printed instructions to the census enumerators, which have been prepared by the United States Census Bureau, give a clear idea of the character of the answers expected from the people of the United States with regard to the questions in the population schedule to be carried in the Decennial Census April 15 next.

All answers are to have reference solely to the "Census Day," which is April 15, persons living on that day, but who died after it and before the enumerators call, are to be counted, but persons born after April 15 are not to be included in the count. Persons who were single on April 15 are to be reported as single, even though they have married subsequently and before the canvasser has called. This is true, similarly, of persons who became widowed or divorced after that date, but shall be enumerated at their "usual place of abode" on April 15. This means the place where they may be said to live or belong on the place which is their home.

As a rule, the usual place of abode is not the place where a person works or where he eats, but where he regularly sleeps. The enumerators are cautioned, however, that where a man happens to sleep at the time of the enumeration may not be the place where he regularly sleeps.

There will be a number of persons having their usual places of abode in enumeration districts who will be absent April 15. These are to be included and enumerated after the facts regarding them have been obtained from their families, relatives, acquaintances, or other persons able to give the information. For instance, if a member of any family in enumeration district is temporarily away from home on a visit, or on business, or traveling for pleasure, or attending school or college, or sick in a hospital, such absent person is to be enumerated, and included with other members of the family. But a son or daughter regularly living in another locality should not be counted with the family at home.

Servants, laborers, or other employees, who live with the family, and sleep in the same house or on the premises, should be enumerated with the family.

The Census Bureau states that there will be, on the other hand, a certain number of persons present and perhaps lodging and sleeping in districts at the time of the enumeration who do not have their usual place of abode there. These are not to be enumerated. It must be assumed that they will be enumerated elsewhere. The canvassers should not, therefore, unless it is practically certain that they will not be enumerated anywhere else, enumerate or include with the members of a family they are enumerating any of the following classes:

Persons visiting a family; Transient boarders or lodgers who have some other usual or permanent place of abode; Students or children living or boarding with a family, but not attending some school, college, or other educational institution in the locality but not regarding the place as their home;

Persons who take their meals with a family, but lodge or sleep elsewhere;

Servants, apprentices, or other persons employed by a family and working in the house or on the premises, but not sleeping there; or Any person who was formerly in a family, but who has since become a permanent inmate of an asylum, almshouse, home for the aged, reformatory, prison, or any other institution in which the inmates may remain for long periods of time.

Sour Stomach

Mi-o-na Puts the Stomach in Fine Shape in Five Minutes

If your stomach is continually kicking up a disturbance; if you feel bloated and distressed; if you belch gas and sour food into the mouth, then you need Mi-o-na Stomach Tablets.

Mi-o-na stomach tablets give instant relief, of course, but they do more; they drive out the poisonous gases that cause fermentation of food and thoroughly clean, renovate and strengthen the stomach so that it can readily digest food without artificial aid.

Mi-o-na stomach tablets are guaranteed to cure indigestion, acute or chronic, or money back. This means that nervousness, dizziness, faintness, and all ailments of the stomach disappear. Druggists everywhere sell Mi-o-na for 50c.

"I was under the care of four different doctors during nine months and was cured of dyspepsia by Mi-o-na." Mr. Joseph Grondine, 197 Fountain Street, Fall River, Mass.

CURE YOUR KIDNEYS.

Do Not Endanger Life When an Abbeville Citizen Shows You the Cure.

Why will people continue to suffer the agonies of kidney complaint, backache, urinary disorders, lameness, headaches, languor, why allow themselves to become chronic invalids, when a certain cure is offered them? Doan's Kidney Pills is the remedy to use, because it gives to the kidneys the help they need to perform their work.

If you have any, even one, of the symptoms of kidney diseases, cure yourself now, before diabetes, dropsy or Bright's disease sets in. Read this Abbeville testimony:

D. M. Keller, Main St., Abbeville, S. C., says: "I suffered for some time from a dull ache across the small of my back, caused by disordered kidneys. I decided to try a kidney remedy and went to P. B. Speed's drug store and procured a box of Doan's Kidney Pills. I now feel much better and believe them to be a good, reliable kidney medicine. I have no hesitation in recommending Doan's Kidney Pills."
