

R. M. Haddon & Company's

Bulletin of Styles for Spring and Summer 1910

The Hats this Season are all large and loaded with flowers in great profusion and combinations of color. A great many plumes will be worn in connection with very wide velvet and satin ribbons. For the middle age woman the turbans and turban effects are being shown making a tasty head dress.

In Dress Goods foulards are in the lead for street and dressy wear. Some glace silks are being shown. For morning and general utility the linen and cotton goods, such as Himalaya Cloth, Repts, Bengalines, Crash, Ruff Silk and Linens are the leaders. For evening wear the Satin Meteor, Crepe de Chine, Messaline and Irish Point are the correct materials.

The morning dresses all have long sleeves, while the evening gowns all show short sleeves. Low neck gowns in walking length are the correct thing for dinner and evening wear. A great many dresses show the tunic effect of some sheer material, such as lace or chiffon. Coats are shorter and have long sleeves with V neck. All dresses are made with regards to the natural waist line, as they all have a tendency towards the Norfolk jacket or Russian blouse.

The leading colors this Spring are Green, Blue, Pomsettia, Amethyst.

Corsets are larger and longer waisted and have low busts.

Coiffure are tending towards the Grecian effect. The hair is parted, waved slightly, drawn a little over the ears. Chignon puffs stand out from the crown of the head with band all around.

Come to See Us and we will take pleasure in showing you some of the best and latest of New York and Paris styles.

All of our goods are new and our prices are as low as we can possibly sell the goods.

Milford's Sarsaparilla!

The Blood Purifier and System Renovator.

Your blood is the body current of your life. If there should be impurities anywhere in your system, your blood will find them and carry them all through the other parts until the poison is sown broadcast and your whole system is run down and you are sick.

The human body is like a piece of machinery. It is composed of many parts, all working separately, but each dependent on the other to a greater or less extent. Let one part become affected, and sooner or later the whole organism is in bad shape.

Milford's Sarsaparilla

is the blood purifier. It contains Sarsaparilla, Trifolium, Stillingea, Mandrake, Capsicum, Sassafras, Salicylic Acid, Iodide of Potash, Iodide of Iron, Cascara and Soda. You know the purifying properties of the above ingredients. You also know that each and every one of them is as good as could be used.

Milford's Sarsaparilla

also acts as a vitalizer and invigorates every nerve and fiber in the body. It tones up the liver, restores the stomach to a healthy condition and brings back the appetite. Then pure blood goes tingling through the veins, and the whole being teems with enlivened spirits.

Milford's Sarsaparilla

is pleasant and agreeable to take. You need something to build you up and to take away that tired feeling. Try Milford's Sarsaparilla. It is an honest medicine, a medicine that we are not afraid to show and tell just what it contains. If we did not think it would do the work, do you think we would tell you all of this?
