## There is more to a Fertilizer than Analyses

The mere mixing of materials to obtain analysis requires no special knowledge. The value of a fertilizer lies in the source from which the plant food is obtained.

Each ingredient in Royster goods is selected with a view of supplying the plant from sprouting until harvest. The plant is not overfed at one time and starved at another. Twenty-five years experience goes with every bag.

Sold by reliable dealers throughout the South.

Laxatives or cathartics do much harm. They cause a reaction, irritate and weaken the bowels and tend to make constipation more chronic. Besides, their use becomes a habit that is dangerous. Constipation is caused by a weakness of the nerves and muscles of the large intes-time or descending colon. To expect per-manent relief you must therefore tone up and strengthen these organs and restore them to healthier activity. The discovery of the active principle of our remedy involved the labor of the world's greatest research chemists. As an active agent it possesses the valuable qual-ities of the best known intestinal tonics as well as being particularly pleasant and prompt in its results. We want you to try Rexall Orderlies on our recommendation.
