In Spring Woolens and Summer Dress Goods we will show a wonderful diversity of weaves and shadings, an exhibit far superior and much more extensive than ever shown before.

D. POLIAKOFF, - Abbeville, S. C.

Nature's Gift from the Sunny South

COTTOLENE

Shortens your food--Lengthens your life

Cottolene is a wholesome product. It is made from Cotton Seed Oil in a thoroughly modern and hygienic manner, and is just as pure as olive oil. It is a clean product because its source is clean. From Cottonfield to Kitchen—human hands never touch the oil from which Cottolene is made.

Cottolene makes a palatable, digestible, healthful food, which will agree with the most delicate stomach. Lard food, on the contrary, is indigestible, and will cause trouble sooner or later.

Cottolene is a product of nature. Warmed into life by the Sun on Southern Cotton Fields, nurtured by rain and dew, the cotton plant finally concentrates in its seed that life-giving and life-sustaining quality which is the basis of Cottolene.

There is no substitute for Cottolene, because there is no other shortening so good.

COTTOLENE is Guaranteed Your grocer is hereby authorized to refund your money in case you are not pleased, after having given Cottolene a fair test.

Never Sold in Bulk Cottolene is packed in pails with an air-tight top to keep it clean, fresh and wholesome, and prevent it from catching dust and absorbing disagreeable odors, such as fish, oil, etc.

TROY.

Troy, S. C., March 7, 1910. What a delight to all to see the sunshine with its sunny weather, for truly this has been a winter of unusual cold and blizzards.

Mr. W. P. Wideman, having stood a splendid examination, is the census enumerator for Long Cane.

Mr. W. W. Wardlaw is adding very much to his pretty home with several coats of paint. Mr. J. B. Reagan is doing the work.

Mr. M. W. Cuddy from Bellevue vicinity was in town last week, and says it was almost miraculous he reached here in safety, as he says the condition of the public highways beggars description. This is in Abbeville county.

Mrs. Ella Dorn Power, after an extended visit with relatives at Dornville, has returned to her home at Abbeville.

The children of the A. R. F. Sabbath School are preparing for Children's Day exercises, which date we will announce in our next letter.

Mr. and Mrs. J. F. Clinkscales entertained most pleasantly last Friday evening with her aunt, Mrs. Fannie Haddon.

Mrs. Fannie Palmer spent several days last week with her daughter Mrs. G. A. Talbert, of McCormick.

Mr. J. C. Kennedy of Eden Hall is nearing completion a nice new store at his home.

Messrs. R. A. Crawford and Joe Young have the contract for covering Long Cane church, and have already begun work.

Miss Bessie Long of Newberry is spending pleasantly some weeks here with her brother Mr. G. W. Long and family.

Mrs. J. H. Chiles from Millway went to Spartanburg Friday to visit relatives, returning home today.

Mrs. Rebecca Wileman is now connected with Troy Telephone Exchange. Mr. J. I. Solomon is putting in her telephone today.

Mr. J. W. Lyon is Census enumerator for Troy.

We are glad to see Rev. R. F. Bradley on our streets again. He has been quite unwell lately.

Mr. and Mrs. Jim Creswell have returned from a visit with relatives at Piedmont.

Mr. and Mrs. J. E. Bradley with their handsome sons Arthur and Jim, from McCormick, were pleasant visitors with his parents Rev. R. F. Bradley and family yesterday.

Mayor's Court will convene this a. m. A lively rap in town last night at the colored church; all parties of the colored persuasion.

Just listen! The announcement of wedding bells, and the pretty house on the corner of Church Street will be the happy home.

Capt. Bogardus Again Hits the Bull's Eye

This world famous rifle shot who holds the championship record of 100 pigeons in 100 consecutive shots is living at Lincoln, Pa. Recently interviewed, he says: "I have suffered a long time with kidney and bladder trouble and have used several well known kidney medicines, all of which gave me no relief until I started on King Foley's Kidney Pills. Before I used Foley's Kidney Pills I was subjected to severe backache and pains in my kidneys with suppression and often times cloudy voiding. While upon arising in the morning I would get dull headaches. Now I have taken three bottles of Foley's Kidney Pills and feel 100 per cent better. I am never bothered with my kidney or bladder and once more feel like my own self. All this I owe solely to Foley's Kidney Pills and always recommend them to my fellow sufferers." C. A. Milford's Sarsaparilla!

The Blood Purifier and System Renovator.

Your blood is the body current of your life. If there should be impurities anywhere in your system, your blood will find them and carry them all through the other parts until the poison is sown broadcast and your whole system is run down and you are sick.

The human body is like a piece of machinery. It is composed of many parts, all working separately, but each dependent on the other to a greater or less extent. Let one part become affected, and sooner or later the whole organism is in bad shape.

Milford's Sarsaparilla

is the blood purifier. It contains Sarsaparilla, Trifolium, Stillingea, Mandrake, Capsicum, Sassafras, Salicylic Acid, Iodide of Potash, Iodide of Iron, Cascara and Soda. You know the purifying properties of the above ingredients. You also know that each and every one of them is as good as could be used.

Milford's Sarsaparilla

relieves all affections of the skin and blood, such as pimples, boils, syphilis, old sores, tetter, salt rheum; it acts on the liver, and imparts new blood to the entire system.

Read What People You Know has to say about this Medicine.

Abbeville, S. C., March 1, 1910.
C. A. Milford & Co.,
Abbeville, S. C.

Gentlemen—It gives me pleasure to say to you that I have used your Milford's Sarsaparilla for the blood and found it to be everything you claim for it, and to my mind second to none on the market. You can safely recommend it for boils, etc., arising from impure blood.

Yours very truly,
W. G. Riley,
Chief of Police.

Abbeville, S. C., March 1, 1910.

C. A. Milford & Co.,
Abbeville, S. C.

Gentlemen—It is with pleasure that I say to you that I have used your Milford's Sarsaparilla for rheumatism and blood, and can truthfully say it is the best medicine for either I have ever used. Any one suffering from either of the above troubles cannot get anything better than Milford's Sarsaparilla. It does the work.

Yours very truly,
Charley J. Bruce.

Milford's Sarsaparilla

also acts as a vitalizer and invigorates every nerve and fiber in the body. It tones up the liver, restores the stomach to a healthy condition and brings back the appetite. Then pure blood goes tingling through the veins, and the whole being teems with enlivened spirits.

Milford's Sarsaparilla

is pleasant and agreeable to take. You need something to build you up and to take away that tired feeling. Try Milford's Sarsaparilla. It is an honest medicine, a medicine that we are not afraid to show and tell just what it contains. If we did not think it would do the work, do you think we would tell you all of this?

PRICE \$1. 3 Bottles for \$2.75. Made and guaranteed by

C. A. MILFORD & CO., Abbeville, S. C.

Boys' Intensive Farming.

More than 12,000 Southern boys less than years old planted and cultivated an acre corn each last year under the direction of the department of agriculture. Persons interested in the experiment in Arkansas, Mississippi, South Carolina and Virginia are to pay the expenses of a trip to Washington for the boy in each State who used the greatest amount of corn on his acre. The winning boys will soon visit the National Capital, says the Baltimore American.

The average yield of corn to the acre in 1909 was a little more than 125 bushels. South Carolina boy, who made the record, produced 152 1-2 bushels. The winning Mississippi boy raised 147 bushels, Arkansas boy 135 and the boy in Virginia 122. The average raised by each of 12,000 was 80 bushels.

The instructions given to those boys by the department of agriculture are available to every farmer in the country. If they could be followed exactly the yield of corn to the acre could easily be doubled in a single year.

Intense cultivation is worth while on all crops. The average yield of potatoes to the acre in 1909 was 107 bushels, but the best farmers averaged 225 bushels, and one of the most progressive of them dug 300 bushels to the acre. The yield of corn potatoes depends more upon the soil, there is practically no part of the United States in which these crops cannot be raised successfully.

It is beyond doubt that larger crops can be produced from 10 acres thoroughly tilled than from two and even three times 10 acres cultivated as they usually are. The fact that the South Carolina prize winner dug more corn on one acre than the average farmer produces from six tells a tale that should not be lost upon those whose benefit the experiment was.
