Not Just to Abbeville.

There is no better man and no better railroad superintendent than Mr. Henry Williams of the Southern Road, but as a weather prognosticator his judgment is good in only certain localities.

In the absence of an active board of trade Congressman Aiken has been importuning superintendent, Williams in behalf of the car service from Hodges to Abbeville. The white coach assigned to the Abbeville Branch was a dingy ramshackled old box that was incapable of being properlyheatedAftersome correspon dence Mr. Aiken succeeded in having this replaced by a good coach. And then, in an avil hour, in the midst of a cold spell the good coach was taken off and the old rookery returned. Mr. Williams wrote Mr. Aiken that he could not have foreseen the cold spell, whereupon Mr, Aiken replied that he foresaw it on the main line. Mr. Williams is reported to have said that if he could keep Wyatt Aiken warm, he would be satisfied.

We know that Superintendent Williams does not intend to be unkind or unfriendly to Abbeville, that has the friendliest feel ing for him and for his road; but it only goes to show that a person will often neg. lect his friends in his anxiety to placate those who are more exacting.

Doubtless Mr. Aiken appreciates the purpose of his life long friend to keep him warm, but he is the mould of man who is salicitous for the comfort of his neighbors primarily and himself only incidentally.

Sinhe writing the above investigation liscloses the fact that a nice clean car has been put on and our only solicitude now is to hold it.

United we Stand—Divided we Fall Under this caption the esteemed McCon a perfect organization." Assuming that the election was fairly conducted, on both sides, we will not comment on "what might have been."

We could not but feel regret that many citizens of McCormick, for whom we cherish the kindliest feeling, should conceive the idea that their only hope for future growth lies in severance from the mother County. We sympathized with McCormick in her efforts to secure a new County, for in this was the hope of local-County, for in this was the hope of localizing and centrrlizing the interests of was a remedy for its ills. The service was people for miles around. If proximity to impressive and sensible to a marked de-Greenwood meant anything one way or another to McCormick, it meant the drawing away of her trade and the establish ment of trade relations with Greenwood. But we have looked on this contest as one the surviving relatives. that the people most interested could best settle; and while we could but have regretted the severance we felt that we were impotent to prevent it.

Now that the voters of that section have declared their willingness to abide with the old county, we should establish closer and more intimate relations with each other. A direct road should be graded between the towns, and they should be kept in perfect condition. With a little friendly cooperation on the part of the people of McCormick, the Country Supervisor may be relied upon to do his duty.

Caught with the Goods.

Policeman Hall is on to his job, and when a "stray nigger" is rambling around with suspicious articles on his person, he had better eschew the presence of this

A few nights ago an old negro Abram who lives with Mr. W. W. Bradley was sent around to the home of Mr. J. F. Brad. ley for a chicken rooster. While there Mr. Jim Bradley gave him an old hen also With a chicken under each arm, he started New Train, The Carolina Special, Between for home when he came within the scope of policeman Hall's watchful eye. Nigger night, chicken—this made a compléte case and at once old Abram who is anything but bright, was in the clutches of the law. A search revealed the further fact that Abram's pockets were also filled with sweet potatoes. There the policeman saw the finish of his catch. Abram explained his association with the chicken very readily but there was no good excuse for the potatoes except that they just lay so handy in Mr. W. W. Bradley's bank.

Learning that the hen was intended for Abram's sweetheart, a maid of some sixty summers, Mr. W. W. Bradley allowed his release, with the "taters" too; he was only too glad not to be furnishing the entire meal.

A Call for Volunteers.

One man need not attempt to reform the nation, or for that matter, even the small corner of the world in which he lives; but the work of the humblest individual, if well meant, must accomplish something.

There is just now a crying need for some man or men who will rise up to condemn the extravagant waste of Christmas tide and who have the nerve to enforce the reform at home.

Southern people are naturally wasteful, and at Christmas the bridle is taken entirely off, and all regard for debt or responsibility is forgotten. One child in a family now gets more valuable presents than did a whole family, twenty years ago. If this brought satisfaction or even great-

er pleasure there would be some mitigation; but children are only grown people in embryo, and are swayed by that same spirit that demands more in exact proportion to what they have.

The fact that millions of dollars are wasted on each Christmas occasion in expensive fire works or in toys that are broken and discarded in a day, or in still more valuable presents that please scarcely for a week, is the least objectionable feature. The fact that the parent, by his own lamentable folly is cultivating the habit of extravagance and waste in his child is the greatest cause of alarm. Spending your grocers' money with the toy man, in all conscience, is bad enough, but to raise up your child to this same folly, amplified many times, is simply criminal.

We trust that we may not be misunderstood in this admonition. Peace and pleasure during the Christmas season are entirely proper; and giving within reason is a virtue. It is peculiarly fitting that the childish heart should be gladdened in celebrating the birth of Him who said: "Suffer little children to come unto me," The point here stressed is that satisfaction is not attained by extrava-

In every community there are hundreds of homes where actual want exists; where the little stocking, half filled, speaks eloquently of the unequal distribution of earthly goods. Only fifty per cent of the waste that is usual in the averaged home on Christmas occasions would gladden the hearts of thousands of little children and smoothe the troubled brow of many

Are there not fathers and mothers in this city who, on the next Christmas occasion will limit their outlay for toys within the bounds of reason, and spend just a small per cent to gladden the hearts of those less fortunate? Some great man said when he came to die, that he found no satisfaction in anything that he had done except where he had made some sacrifice for the good of his fellow creatures. This is the true philosophy of life. That some children are rich and some are poor is the accident of birth; to the unselfish heart, we are one in the name of humanity.

Lamar Clinkscales Improving-

Mr. Lamar Clinkscales who last week suffered a stroke of paralysis from which he was totally paralised on his right side seems to be in a fair way to recover. While he can not move his right side his speech is very much improved and there are other evidences of recovery.

Mr. Clinkscales moved from his plantation near Lowndesvill about three year ago and bought a farm of about sixty acres just out of the corporate limits of this city. He is a farmer of unusual thrift and ability and has prospered well. He has just finished one of the handsomest homes in Abbeville into which he recently moved He is big hearted and charitable of the faults of others, and he has many friends who will be glad to hear of the prospects for his early recovery,
