WAYWARD GIRL RETURNS.

Floretta Whaley Cooke Homesick for Old

Hempstead, L. I., April 4.—Floretta Whaley Cooke, who eloped from Hemstead six years ago, when 15 years of age, with the Rev. Jere K. Cooke, recter of St. George's Episcopal church, of which August Belmont is serior warden, returned to the home of her grandmother here today with the statement that she was homesick for old friends and relatives. Cooke did not accompany her, and she stayed but a short while, then returned to New York where she joined the excommunicated elergyman. The former minister and the girl who renounced her family for his sake live in San

nounced her family for his sake live in San Francisco.

When Cooke and the girl left Hempstead he deserted his wife, who was a member of a prominent and well to do family in Hartford.

The elopement caused a sensation. The former Miss Whaley will soon inherit more than \$25,000 from her father's estate and upon the death of her grandmother, Mrs. Keziah Whaley of this place, she will receive about \$50,000 more. Cooke has gone into the decorating business in San Francisco and has prospered.

High-Grade FERTILIZERS

The farmers of Abbeville County have gotten into the way of using Standard Fertilizer -8-85-2-2 or 10-2-2. We wish to urge upon them the importance of using high-grade goods. It takes the same time and labor to haul out and distribute 8-85-2-2 as it does 8-4-4 or 8-3-3. You give it the same cultivation and the crop made with 8-3-3 or 8-4-4 is far better than the crop made with 10-2-2. It costs a little more but the extra crop will pay the difference in the cost five times over.

8-3-3 is an ideal fertilizer for red lands and 8-4-4 for gray lands. The prosperous, money-making, money-lending farmers of Anderson County have quit using anything except the high-grade fertilizer.

When a man has used the high-grade fertilizer for a while he quits asking the price of the low grade goods.

In using a fertilizer with only two per cent. ammonia, you only use eight pounds of ammonia to the acre. Some of that is washed away and some is eaten up by the grass, so very little gets to the plant. When you have around 14,000 plants to the acre, the amount to each plant is exceedingly small. When you use 8-4-4 you simply double the amount of plant food to each plant.

If you can't risk the high-grade goods on all your crops, risk it on part of it and see the difference in crops. You may take our word for ityou will find it profitable.

TEDDY POURS ORATORY AS CLOUDS POUR RAIN

Colonel Makes Dozen Speeches in Illinois, Being Greeted With Big Crowds Every-

Springfield, Ill., April 6.—With a dozen speeches and an encounter with a slashing April storm, Col. Roosevelt today put in the first half of his campaign tour of Illinois. Although in several towns the people who listened to him did so at the cost of a drenching, Col. Roosevelt was met everywhere by crowds.

Uhe pricipal speech was delivered in Springfield this evening. In it Col. Roosevelt attacked Senator Lorimer of Illinois in emphatic language. He took issue with Jos. Choate and other New York lawyers who have formed an association to combat his ideas in regard to the judiciary and expressen his opinion about what he termed the "nice. exclusive persons" of great wealth, who he said, "are easily frightened, especially by the bugbear of majority tyranny."

The formation of the Lorimer-Lincoln Republican league, which is opposed to Col. Roosevelt, furnished the theme. Col. Roosevelt expects to rest tomorrow.

"Both these men are great," said Senator Townsend. "Their natural instincts are the same. Each has the good of the county at heart. But they were widly different in their methods. One knew the value of advertising. President Taft would not advertise and though maligned, he answered not. Honest himself and judicially minded, he has given every man institution of our country the benefit of the doubt until the evidence was all in."
