About What Her Husband Would Say.

A Mich. woman tried Postum because coffee disagreed with her and her husband. Tea is just as harmful as coffee because it contains caffeine-the same drug found in coffee. She writes:

"My husband was sick for three years with eatarrh of the bladder, and palpitation of the heart, caused by coffee. Was unable to work at all and in bed part of the time.

"I had stomach trouble, was weak and fretful so I could not attend to my housework-both of us using coffee all the time and not realizing it

was harmful. "One morning the grocer's wife said she believed coffee was the cause of our trouble and advised Postum. I took it home rather dubious what my husband would say-he was fond of

coffee. "But I took coffee right off the table and we haven't used a cup of it since. You should have seen the change in us, and now my husband never complains of heart palpitation any more. My stomach trouble went away in two weeks after I began Postum. My children love it, and it does them good,

which can't be said of coffee. "A lady visited us who was usually half sick. I told her I'd make her a cup of Postum. She said it was tasteless stuff, but she watched me make it, boiling it thoroughly for 15 minutes, and when done, she said it was splendid. Long boiling brings out the fla-

vor and food quality." Name given by Postum Co., Battle Creek, Mich. Look in pkgs, for the famous little

book, "The Road to Wellville." Ever read the above letter? A new one appears from time to time. They tre genuine, true, and full of human

EIGHT COAL CARS

A TRESPASSER LOSES LIFE IN ACCIDENT ON COAST LINE RAILROAD.

DETOUR TRAINS BY FAIRFAX

Cars Jump Track and Tumble Into Coosawhatchie River Near Yemas see-Unknown Negro Found Dead Near Wreck-Cause of Accident

Charleston.-When eight cars loadtumbled over into the Coosawhatchie River the Atlantic Coast Line trestle over that stream was damaged to such an extent that trains between infected with formaldehyde. Charleston and Savannah had to be detoured by Fairfax, entailing a loss

The Coosawhatchie trestle, at which the derailment occurred, is on the main line of the Atlantic Coast Line, and considerable derangement of the schedules of the through trains befrom the accident. Coosawhatchie from Charleston. Special freight No. 391, southbound, carrying about twenty-five cars, was the train to which the derailment occurred, the eight cars of coal which fell over into the river being the only damage of consequence to rolling stock.

No cause for the accident is ascribed by officers of the Atlantic Coast Line. An unidentified negro, believed to have been a trespasser, was found dead after the accident, but beyond days. this no personal injury of any kind has been reported. In the derailment the trestle was damaged for a distance of about 100 feet. Crews were at once put to work on the structure, and the road was soon passable for

The eight cars of coals which plunged off the trestle into water below will not be a total loss. It is the belief that about half of the coal, at least will be saved.

Two Barbecues in Lexington.

Politics in Greenville County.

So far only three candidates have announced for the legislature from Walter M. Scott, Frank Epps and C. Dean and Wilton H. Earle. The new apportionment gives Greenville six three more men will have to be press ed into service. Ordinarily at thi time the woods are full of legislativ timber, and no one seems to be ab! to account for the deficiency now.

INTERNATIONAL SUNDAY SCHOOL

(By E. O. SELLERS, Director of Evening Department, The Moody Bible Institute of Chicago.)

LESSON FOR JULY 14.

THE SEED IN FOUR KINDS OF SOIL. LESSON TEXT-Mark 4:1-21.

GOLDEN TEXT-"Receive with meek-ness the implanted word which is able to save your souls." James 1:21.

Jesus tells us plainly why he taught so much by means of parables (Matt. 13:10-13) viz., to teach the truth to those who sought it, and to hide it from those who refused to receive it. The truth had to be taught, hence the parable, that those to whom it was given to know the mysteries of the kingdom might know and understand but that to the others it might be hidden (Mark 4:11-12). We have in this lesson one of the best known of the master's many parables. Like all the rest Jesus draws his picture from the common experiences of life. Jesus uses the fields, the home, etc., while Paul in his preaching and teaching draws from the city, the army, the markets, etc. We have in this picture the seed, the sower and the soil. We must turn to the parable accounts in Luke and Matthew to get the full and the complete picture.

What is the seed? Luke records that Jesus told the disciples that the seed is the word of God (Luke 8:11). Mark also tells us practically the same thing in v. 14 of the lesson. A great deal is being made today of seed selection and some wonderful results have been obtained. How much more important for us who deal with immortal souls that we select the best, viz., the word of God.

Sought Not Adulation.

Next the sower (v. 4). Notice he went forth not to S-O-A-R, nor is it recorded that he was S-O-R-E. He did not have a grouch nor did he enter into his work that he might receive

the adulation of men (Matt. 6:2). It is however the soil that seems to be most emphasized in this lesson, both in the direct teaching and also in the explanation of the parable. There are four kinds of soil and it is also very significant the manner by which the seed came into contact with each kind of soil. "Some fell by the wayside." The path was well trodden, the ground was preoccupied, e. g., used for other purposes rather than to yield a harvest. It was hard to be broken and hence it was an easy matter for the birds of the air (Satan v. 15) soon to pluck it away. We need to remember that if men receive with meekness the implanted word there will be of course no such opportunity for the evil one. The trouble is that in this case the word was not implant ed. Thus it is that one-fourth of the seed is lost. That the result is a de-

plorable one is shown in Heb. 2:1-4. The seed in this case fell "by" the wayside, in the next it fell "on" the rocky ground. The first is the picture fourth of an acre in cabbages and of the heedless, this is a picture of element of persistence; their surround- parlance, to make up. ings were superficial, there was no chance for the seed to get a real grip upon their lives. Luke tells us what the master taught about the man who, before building a tower sat down to consider the cost. We cannot build except upon a rock if the structure is to be a stable one. We must not play at our religion, 'tis a grim reality, a glorious abandonment. It must reach the bottomless deeps of our souls. All else must be eliminated.

Three Fourths Lost. In the third place Jesus speaks of seed that fell "among" the thorns. Here in this worldly soil it is not so much the character of the soil as the character of that which already occupied the soil ere the sower sowed the The cares of this world, the deceitfulness of riches and "other things" (v. 19) had so entered in that the good seed never had a real chance in the soil of that human heart, hence it was choked and yielded no fruit. There was no real grip of the will, no whole-hearted surrender. How often these thorns, "the cares of life," keep and birds had grown so accustomed to the housewife, or the business man away from the word. How often the "deceitfulness of riches" snare men so as to choke the word that at one time gave such promise in their lives. And then the "lusts and other things" which the evil one so well knows how to use that he may keep us from the word, for he knows that by it we may be saved (Luke 8:12).

We have thus seen three-fourths of male disguise. Sheriff Poole has is- with the pistol, the weapon being in the word lost. Of the remaining sued a circular and sent it broadcast some way discharged and the unfor fourth which fell "into" (R. V.) the good soil, not all yielded the same return. It all brought forth (v. 7) it all yielded, it all sprang up, but not all in the same ratio. We ought to remember at this point that this parable plainly teaches us that we who receive the implanted seed, we who receive and obey shall in turn become the seed of the kingdom. If, as Luke records, we receive the word in good and honest hearts, if we hear it, hold it fast, lowing a split-up caused by the forced it will bring forth fruit. The process eron a committee to call upon the resignation of Prof. D. R. Riser, who will not necessarily be rapid, we will bring it forth with patience (Luke 8:15). God speaking by the mouth of Moses exclaimed: "Oh that there were such an heart in them, that they would fear me and keep all of my commandments always that it might be well with them and their children forever.' (Deut. 5:29.)

What is it to receive the word with meekness? Clearly it is a volitional act upon the part of him who hears. He allows the word to act. He does not furnish the life germ of the seed but does furnish the proper soil conditions whereby the germinating principle of the seed may bring forth fruit It is a definite submission of our lives to the active principles of the ilving word. With resoluteness we submit purselves to its requirements and per mit it to do its work of saving.

GHOSTS EVER BOTHER YOU?

If So, Southern Negro Folks Say These Simple Precautions Will Chase 'Em.

As a part of the folklore of the negro folks the superstitions of slavery days are of great interest. The following are some of the negro's beliefs about ghosts:

To feel a hot breath of air strike you at twilight signified the nearby presence of a ghost. Should you wish to avoid him, stop and turn your coat and trousers and hat wrong side out and the spirit cannot encounter you.

If, however, he is a pugnacious sprite and approaches despite the change, turn and address him thus: "In the name of the Lord, what do you want?" Whereupon he will tell you his business upon earth, then depart and never, never trouble you again. If, on the other hand, it is a prowling ghost who crawls under the house, bumps against the floor, makes strange sounds, and whispers in the midnight hours, you have only to put in a new floor and he will do so no more.

Some ghosts are obtrusive and will not only prowl about the house, but creep in through the crack of the door in the wee small hours of the night. and, once inside, expand to vast proportions. To spare yourself any disturbance in this way, sow mustard seed all about the doorstep just before going to bed, or place a sieve on the doorstep.

Before entering, the spirit will have to count all the holes in the sieve or all the mustard seeds, and by this time daylight will come and he will have to go. As the counting for one night will not do for another you are aliways safe.—Southern Workman.

ALMOST FRANTIC WITH ITCHING ECZEMA

"Eight years ago I got eczema all over my hands. My fingers fairly bled and it itched until it almost drove me frantic. The eruption began with itching under the skin. It spread fast from between the fingers around the nails and all over the whole hands. I got a pair of rubber gloves in order to wash dishes. Then it spread all over the left side of my chest. A fine doctor treated the trouble two weeks, but did me no good. I cried night and day. Then I decided to try Cuticura Soap and Ointment but without much hope as I had gone so long. There was a marked change the second day, and so on until I was entirely cured. The Cuticura Soap we have always kept in our home, and we decided after that lesson that it is a cheap soap in price and the very best in quality. My husband will use no other soap in his shaving mug." (Signed) Mrs. G. A. Selby, Redonda Beach, Cal., Jan. 15, 1911. Although Cuticura Soap and Ointment are sold by druggists and dealers everywhere, a sample of each, with 32-page book, will be mailed free on application to "Cuticura," Dept. L, Boston.

"Mug" Is Overworked Word.

The most overworked word in the Englishman's vocabulary of slang is "Mug." As a noun it may mean a face, a fool, or a student who prefers reading to sport. As a verb its meanings are still more varied. It may mean to study hard, or to strike in the they did run well, they even received face. It also means to rob or swindle, the word with gladness (v. 16) but and among actors to grimace or make they had no stability; they lacked the faces. To mug up is also, in theatrical

Finally, to mug one's self is to get drunk, the resulting condition being one of mugginess. There is more obvious sense in this last use of the word than in some of the others, for alehouses, in the eighteenth century, were commonly known as mughouses. Mug is the English equivalent of the German Zug, which Mark Twain found to mean everything. A new sense of the verb "mug" in the American slang is to photograph a face.

For Forty Years a Hermit. Isaac Sheath, who has just died in the workhouse at the age of seventy- ing some other woman's way a few eight, lived the life of a hermit for nearly forty years at Newport, Isle of Wight. He occupied a mud-hut which he erected on a piece of waste land in the village of Chale, but the hut became so dilapidated that the rural district council ordered its destruction. Sheath was greatly exasperated by the council's interference, and before he left for the workhouse he burned the hut to the ground. Mice the old man and his lonely ways that they used to come and feed from his hand.-London Mail.

The New Way.

"Going to your summer cottage this year?" "No; we've decided to stay in the city."

"But I thought you were so fond of the country?" "We used to be, but now we prefer to stay at home, where we can get fresh milk, eggs and butter every

morning." First Religious Book in America. The first religious book published or. the American continent was printed in the City of Mexico by order of the Roman Catholic bishop there. This was the first work of any kind from movable type issued in the new world and bears date 1645. In point of collaborators the most pretentious work published on this continent is "The Catholic Church in the United States.' which has six thousand different coauthors, all but a dozen of whom are actively identified in some way with the American hierarchy.

Oldest City in the World. Doctor Harkov, a Russian savant once affirmed that Samara, on the right bank of the Tigrus, near Bagdad, is the oldest city extant. Relics now discovered show that Samara flourished before the arrival of the Semites in Chaldea or Mesopotamia,
