HOW SMALL FARMER CAN RAISE BEEF CALVES

Propressive Farmer.

As I was leaving a farmers' insticame here, to this her old home, and will tute meeting recently,-after having urged strongly the need of more livestock, and especially beef cattle on the hilly farms of the farmers comprising my audience-I heard one farmer remark that he knew what I produce. Well, I remarked to myself

waste acres cleared and well set in A new departure for this place, a barber grasses, they would afford grazing for more cattle than his 20 his waste acres and getting in position to make use of more of the capital he has invested in land.

But yet, at present with his limited area there ought to be a way he could produce on his farm more milk than an ordinary-sized family could Mrs. Britt and Miss Helen Britt, of make use of and have a surplus with course, if he is maintaining the ordinary scrub cow that produces about a gallon of milk per day, he need not |doing. But there are plenty of scrub Mrs. W. W. Bradley and children at- cows in his county that will produce the Sabbath school picnic at Long three or more gallons of milk per Saturday and after several days day if given good grazing; and were he to have six of such cows his family would have to be a larger one than the writer would care to look Miss Bettie Morrah and Miss Edua Brad- after in order to consume more than ley were guests of Miss Malvina Parker one-half of the 18 gallons of milk last week. Produced. Well, just suppose that three of these cows would produce Mrs. Bettie Caldwell and daughter, Miss milk and butter sufficient for the Sarah, will return in a few days to their needs of the family, what would home in Texas, after a pleasant stay with there be to hinder this farmer raising six beef cattle per year on the milk of the other cows of the herd? Good scrub cows nursing two calves each will make of these good big months of the nursing period; keeping the calves in a small pasture by themselves and bringing their dams Misses Rosa and Carrie Bradley, of Troy, to the calf lot at the same time the Mr. David Kennedy is in Iva, the guest hand separator, and part of the sweet skim-milk fed to the calves, the balance set in the spring house to be

Surely one of these ten or 11 children could be induced to make it his business to feed these six nice sleek calves four to five times per day during the first month, then twice per

This boy or girl could, I am sure which the calves drank their milk, the responsibility of the calf herd rested upon him.

These calves fed in this way-were they sired by a first-class beef sirewould make big strapping fellows by the time the first frost was seen down in the hollow in the fall and be worth need besides the milk and pasture a handful each per day of corn meal or cracked corn for the first three months of their lives, which amount should be increased to a pound per day each for the balance of the sum-

This corn meal should be fed in a flat-bottomed trough about a foot in width so the calves would be compelled to eat slowly.

The milk should always be fed at blood heat and always in clean tin buckets and the calves should not Interesting Locals From Cotton Mill be overfed in the beginning, one and one-half quarts at a feed, four feeds per day, would be an abundance for the first two months, then a gallon is visiting relatives near Antreville this bring them through the balance of the summer in good condition. The calves should have before them in the pasture at all times a mixture of salt and tobacco dust or stems in the proportion of one part of salt back to Georgia, their old home. There is to four of the tobacco; this to guard the danger of stomach worms. Many a boy or girl in the South would really enjoy a few min-utes work of this sort each day and many dollars would be added to the increase each year, besides causing the land to grow fat. A. L. FRENCH.

Most disease comes from germs. Kill the germs and you kill disease. Conkey's While there she had head rocks put up to her husband's grave.

Efficiency.

How Many Men Know how to Keep It at

Thousands; yes, tens of thousands of men, grow old ten years too soor.

If you are a man and realize that your efficiency is on the wane and that you are losing money and happiness in consequence, get a 50 cent box of MI-O-NA stomach tablets today and take two after or with each meal for three days; then take one with eac meal regularly until you feel well and

MI-O-NA stomach tablets disinfect, tone up, restore elasticity to the stomach and intestinal canal and end indigestion. They do more : they increase the nutrition of the body and in case of nerve exhaustion, sleeplessness, night sweats, bad dreams or any condition that requires a restorative they act with astonishing repidity. They can be found at C. A. Milford & Co.'s and helpful druggists the world over.
