BRILLIANT tale of the Orient, full of color and with never a dull moment, is the new serial we have secured and which we will print in installments.

SIL

The Carpet from **Bagdad**

is probably the best and most fascinating story that has thus far come from the pen of Harold MacGrath. The plot, starting with the theft of a rare and holy rug by an American adventurer from its Moslem owner and sold to an American collector, is MacGrath's most salient stroke of originality.

You will enjoy following the fortunes of the little group of Americans who meet dangers amid the strange surroundings of the Near East, and who come home only to be involved in more dangerous and remarkable complications.

was red-hot stuff. A moment later struck something better. While searching for information from the ferry hands I ran across a porter who had found a valise in the lavatory and had taken it to the lost and found department. It did not take me long to get there and see that bag. It was a medium-sized affair, and had been found unlocked and empty. There was no mark on it to indicate where it had come from. I sent it to the bank and in a few moments received word that it was the bag which had been used by the messengers.

"That point being cleared, up, 1 next started the telegraph lines working, and kept them hot until the train dispatcher held up the Scranton train at a station, and got the conductor on the wire. He had noticed every one on the train, simply as a matter of business, soon after leaving Jersey City. He was positive that no person answering the descriptions of either of the men who had brought the bas

to the ferry house had been on board his train. This settled beyond reasonable doubt that the thieves had not left the city, at least by that route. "The porter who had found the hag

had got a very good look at the two men. He remembered them even more accurately because he had associated them with the lost bag. His description tallied with that given by the street vender, except that he gave more complete details. In thinking it over it suddenly struck me that I had read a similar description somewhere. could not place it until the next day. Then it came over me like a flash. What I had seen was the alarm which had been sent out at the request of the Erie county police giving the descriptions of Sam Ellis and Phil Heinrich, fugitives from justice.

"The case then appeared perfectly plain to me. Ellis and Heinrich, after leaving Buffalo, had come to New York instead of going to Canada, as had been generally believed. They probably had adopted the red-pepper scheme of robbery in order to raise money at once, since their scheme had been frustrated to flood Canada with counterfeit money. The job was not exactly in the line of either of the men, but they were, I knew, fully competent to undertake anything in

any, branch of thievery. "Unfortunately the newspapers got hold of the story of the finding of the bag and the description of the men. This was, of course, sufficient warning to the team of worthles to, dive. deeper into their hole, and made my work so much harder. How was I to get to Ellis and Heinrich? I did not know. They were a cunning lot, and I knew I had a stiff game.

"I knew all the haunts of both men. and after putting on some togs to suit the occasion I spent my days and nights bumming around booking tips. It was slow work, but it was all that could be done. I got in with a lot of people and heard all the gossip that was going on among crooks, but it was over a month before I heard anything of importance. I had to go very quietly in order not to excite suspicion. I did not dare to ask leading questions of anybody or I might

have got a tip sooner. "One evening, while I was having some oysters in Billy the Bite's in Wooster street. Jack Griffin came in. A few moments later in came his old friend, Reddy the Blacksmith. They were both friends of Ellis and Heinrich. To my utter amazement Griffin egan telling in my presence about the arrest of both Ellis and Heinrich in Pittsburgh for fighting and cleaning out a joint. Griffin was with them, but had got away safely. Both men were sent to the county prison for thirty days under fictitious names. I ate my oysters without any show of hurry, but I need not tell you that I did not lose any time when I reached the street.

THE RIGHT SOAP FOR BABY'S SKIN

In the care of baby's skin and hair, Cuticura Soap is the mother's favorite. Not only is it unrivaled in purity and refreshing fragrance, but its gentle emollient properties are usually sufficient to allay minor irritations, remove redness, roughness and chafing, soothe sensitive conditions, and promote skin and hair health generally. Assisted by Cuticura Ointment, it is most valuable in the treatment of eczemas, rashes and other itching, burning infantile eruptions. Cuticura Soap wears to a wafer, often outlasting several cakes of ordinary soap and making its use most economical.

Cuticura Soap and Ointment sold throughout the world. Sample of each free, with 32-p. Skin Book. Address post-card "Cuticura, Dept. L. Boston." Adv.

IT'S THE FOOD. The' True Way to Correct Nervous Troubles.

Nervous troubles are more often caused by improper food and indigestion than most people imagine. Even doctors sometimes overlook this fact. A man says: "Until two years ago waffles and

butter with meat and gravy were the main features of my breakfast. Finally dyspepsia came on and I found myself in a bad condition, worse in the morning than any other time. I would have a full, sick feeling in my stomach, with pains in my heart, sides and head.

"At times I would have no appetite, for days, then I would feel ravenous, never satisfied when I did eat and so nervous I felt like shrieking at the top of my voice. I lost flesh badly and hardly knew which way to turn until one day I bought a box of Grape-Nuts food to see if I could eat that. I tried it without telling the doctor, and liked it fine; made me feel as if I had something to eat that was satisfying and still I didn't have that heaviness that I had felt after eating any other food.

"I hadn't drank any coffee then in five weeks. I kept on with the Grape-Nuts and in a month and a half I had gained 15 pounds, could eat almost anything I wanted, didn't feel badly after eating and my nervousness was all gone. It's a pleasure to be well again."

One of the most extraordinary clocks in the world is the clepsydra, or water clock, of Canton, in China. This time-teller is housed in a temple on the city walls and is a sight no traveler to the Chinese city ever fails to take in.

In a hall called the "Temple of Time" are four big earthen jars placed upon shelves. The fourth and lowest one has a wooden cover. This, together with the others, constitutes the whole clepsydra.
