

## TANLAC INDORSED BY EX-MAYOR

"YOU WILL HARDLY KNOW ME WHEN WE MEET AGAIN. I AM GETTING WELL."

One of the latest additions to the list of leaders of thought and action who have come forward with their unqualified endorsements of Tanlac is the name of Hon. Frank V. Evans, former Mayor of Birmingham, Ala., Ex-State Examiner of public accounts of Alabama, and one of the greatest newspapermen of the South's greatest newspapers—The Birmingham Age-Herald.

Writing to a personal friend in Atlanta, Mr. Evans says:

"Birmingham, Ala., Feb. 2, 1916—  
"\*\*\* By the way, you will hardly know me when we meet again, because I am getting well and strong again. As I told you while in Atlanta last month, I have been suffering a long time with gastritis, as the doctors called it—really a disordered stomach, with consequent constipation, pains in the shoulders, headaches, belching, heartburn, loss of appetite, loss of sleep and fainting spells. For weeks I could not sleep on my back.

"One week ago, upon recommendation of friends, who had tried the medicine, I purchased one bottle of Tanlac and began taking it. Since my second dose, I have suffered none of the troubles to which I refer, and really believe I am going to get perfectly well and strong again. Won't that be wonderful at my age? Well, certain it is that Tanlac is a wonderful medicine, and you know I am not given to 'puffing' mere experiments, and am rather orthodox as to materia medica.

"I shall continue the treatment with perfect confidence in the final result."

(Signed) "Frank V. Evans."  
Commenting on this splendid endorsement of Tanlac, T. W. Galyon, State Agent for South Carolina, said:

"Although the list of prominent endorsers is a long one, I recall a few leading names that lend both dignity and credit to the entire array. Some of them are:

"Hon. C. W. Mangum, of Atlanta, Sheriff of Fulton County; Hon. McKenzie Moss, Judge of the Eighth District of Kentucky; Hon. Moses R. Glenn, Superintendent of Printing for the State of Kentucky; Col. John B. Gaines, Editor and Publisher, Bowling Green, Ky.; C. C. Cooper, President, Georgia Cotton Oil Co.; H. W. Hill, Bank President of South Pittsburgh, Tenn.; J. F. Carroll, Cotton Mill Superintendent, of Chatahoochee, Ga.; Hon S S Shepard, for-

## CAN'T BUILD BOATS IN TIME REQUIRED

CONTRACTING COMPANY FOR 2 BIG SUBMARINES GIVES SECRETARY DANIELS NOTICE.

Washington, February 25.—Representatives of the Electric Boat Company, lowest bidder for the two big 1,500 ton submarines authorized by Congress last year, informed Secretary Daniels today that it would be impossible to turn out the vessels in twenty-two months as desired by the navy department, and that instead it would take fully two years and a half. They said it not only took a long time to get steel under present conditions, but that the company would be obliged to make certain experiments before undertaking to construct undersea boats of such proportions.

Naval officials now are considering the question of recommending to Congress a modification in the law to permit them to award contracts for a smaller type of vessel which might be built more quickly. Aside from other considerations, some experts of the navy favor keeping submarines within a limit of 1,200 tons until an actual trial has been given the largest boat now building, the Schley, of the 1,100-ton type, under construction by the Electric Boat Company. The Schley is to be completed within three years from the date of contract, or by March 19, 1918. Secretary Daniels, answering suggestions that too much time had been allowed in this case, sent a letter to Chairman Padgett, of the House naval committee, today explaining that three years had been fixed because of the lack of experience in building vessels of that size.

"The experiments made by the contractors," the letter says, "far from being the cause of delay to the completion of the vessels, have in reality saved time as compared with any other method of procedure. The information thus gained, together with the resultant changes and improvements in the vessel, have been secured without additional cost to the Government. I have been assured by the contractors that the vessel will be finished and delivered to the Government by the date fixed in the contract."

mer city councilman of Atlanta, and many others whose names have been given to the public."

Tanlac, the master medicine, is sold exclusively by P. B. Speed, Abbeville; J. H. Bell & Son, Due West; E. A. Fuller & Co.; McCormick; Cooley & Speer, Lowndesville. Price \$1 per bottle straight.—Adv.

## AUGUSTA IS SUING EDGEFIELD COUNTY

Washington, Feb. 25.—Attorney General Thomas H. Peeples, Assistant Attorney General F. H. Dominick, State Senator B. E. Nicholson, of Edgefield, and former Senator D. S. Henderson of Aiken, came to Washington, yesterday from Richmond, Va., where they had appeared before the federal circuit court of appeals in the case of the city council of Augusta, Ga., against the tax officers of Edgefield county. Tax officers of Edgefield assessed a dam which the city of Augusta had built across the Savannah river for municipal and other purposes. This property had been unassessed for many years. Augusta sued in the Western federal district of South Carolina for an injunction to restrain the officers of Edgefield from collecting the tax, citing the South Carolina statute against taxing municipal water-works. Judge Johnson refused the injunction, holding that if the tax was illegal, there was due recourse for recovery under state law. Appeal was taken to the circuit court, and may later be taken to the supreme court. Senator Nicholson represents the Edgefield authorities and former Senator Henderson represents Augusta in the litigation. Messrs. Peeples and Dominick represent the State of South Carolina as an interested party. The South Carolina side of the case, on its merits, is that the statute exempting municipal water-works was intended to apply only to South Carolina plants.

## RADIO MESSAGES SENT BROADCAST

Chicago, Feb. 23.—The message sent by wireless to governors of the states and mayors of the large cities, at eleven o'clock last night from Davenport, Iowa, as a demonstration of the radio preparedness of the country's 25,000 licensed amateur operators reached the remotest parts of the country through various relays, according to advices received here today.

The message was authorized by the United States government and signed by Col. J. W. Nicholson, commander at the Rock Island arsenal, as follows: "A democracy requires that a people who govern and educate themselves should be so armed and disciplined that they can protect themselves."

Boy scouts were on hand today to deliver the message to the various executives throughout the country.

## C. C. WYCHE A CANDIDATE FOR LIEUTENANT GOVERNOR

Spartanburg, February 24.—Special: C. C. Wyche, of the local Bar, has announced his candidacy for Lieutenant Governor of South Carolina. Mr. Wyche has always been a supporter of former Governor Bleas-

A good reputation soon goes lame if it isn't lived up to.

## PROGRAM FOR THE STATE TEACHERS' ASSOCIATION

Spartanburg, Feb. 28.—The program for the annual meeting of the State Teachers' Association in Columbia, March 16-18, is regarded as one of the most attractive in a number of years. The chief address of the convention will be delivered on the right of the opening session, March 16th at 8:30 o'clock, by Dr. Bruce R. Payne, President of Peabody College for teachers, Nashville, Tenn. The teachers are expecting a treat in this address. The annual address by Dr. Henry Nelson Snyder, the President of the Association, will also be delivered on Thursday evening. The report of the special committee on the reorganization of the Associations will be delivered Thursday evening by Mr. R. S. Rogers, Chairman of Dillon County.

The first session Friday will be given over to a discussion of the next steps in Educational Progress from various view points. Among those who will take part in this discussion will be R. T. Hallum, Pickens, T. C. Easterling, Marion, Miss Elizabeth Dickson, Miss Madeline Spigener, Lueco Gunter, W. H. Hand, and Dr. D. M. Douglas, President of the Presbyterian College.

Friday afternoon a reception will be tendered the visiting teachers at the University of South Carolina gymnasium.

Friday evening an address will be delivered by Rev. Arthur W. Dunn, of the United States Bureau of Education. Superintendent of Education Swearingen and Dr. D. M. Ramsey will also deliver addresses.

Saturday will be given over to reports of committees. Attractive programs have also been arranged by all of the departments.

## ANDERSON WAS CENTER OF THE EARTHQUAKE

According to articles appearing in the Atlanta papers, this city was about the center of the earthquake which occurred on last Monday afternoon. The area of the earthquake was about 226,000 square miles, somewhat smaller than the state of Texas.

The tremble was felt as far north as Richmond, Va., as far east as Charleston, S. C., southward to Columbus and westward to Suwanee, Tenn. At no place did it do any appreciable damage.

From data sent in to Dr. McCallie including a letter of much importance from J. S. Welborn, vice president of the Federal Reserve bank, it was apparent that the shock passed from east to west. At Mr. Welborn's stout stone house it was strong enough to make window shades sway out six inches from the casements of closed windows. He gave the exact time of the shock as 5:39 o'clock.

Though the quake of Monday was nearly three times as large in area affected, as the one last year, Dr. McCallie does not attribute any especial importance to this.—Anderson Intelligence.

## WANTS TO COME BACK HOME

DOUGLAS JENKINS WANTS TO GIVE UP POST AS U. S. CONSUL.

Greenville, Feb. 25.—Douglas Jenkins, formerly of Greenville, and once editor of the Greenville Daily News, who now is United States consul at Riga, Russia, has asked to be relieved of the post he now holds. This request is made by Mr. Jenkins as he has served longer than the usual term at one post, and has not been granted the usual leave from duties. He has been at Riga nearly four years, and has given efficient service.

If the request of the consul is granted it will probably mean that he will be given a leave of absence, and then appointed to some other post of importance. Since entering the consular service, he has steadily advanced, until now he is consul in one of the most important cities of Russia. Mr. Jenkins, in addition to his duties as American consul, has charge of the affairs in Riga of some of the belligerents who are at war with Russia.

Mr. Jenkins was in Riga at the outbreak of the war and remained there during the terrific fighting to capture this port. He has remained at Riga about two years longer than is customary, according to information from a kinsman. The fact that he wants to be relieved for a time is taken from a letter he wrote to a relative here.

## STATE HAS EXPERIMENTED

Greenwood Index.

This state warehouse system is not brand new in this state. South Carolina had a public warehouse for tobacco on the site of the Citadel in Charleston prior to 1840. Inspectors were provided for grading, etc., all the same sort of thing we hear about cotton these days. Some one who has the time can dip into this and make a monograph out of it for his Ph. D. degree some day and get by with it. Come to think of it, there is mighty little new under the sun anyway. One who reads the old records, early arrives at the conclusion that the men in public life one hundred or more years ago had as much sense and judgment, if not more, than a whole lot of them in public life today.

Note. The state abandoned that tobacco warehouse system after a few years.

Self-trust is the first secret of success.—Emerson.

## MARKING GRAVES OF CONFEDERATES

GOVERNMENT COMMISSIONER REPORTS PROGRESS OF WORK UNDER HIS DEPARTMENT.

Washington, February 25.—Progress in the work of marking the graves of Confederate soldiers who died while prisoners of war was reported to Congress today by Samuel E. Lewis, the Government commissioner in charge of the plan. Lewis reported that the work remaining to be done is the replacing of approximately 596 old headstones by new ones, marking the graves of 372 citizens from the Confederate States, completion of the existing registers and preparation of a comprehensive final report to Congress and the public generally of the magnitude and character of the work and the extent and manner in which it has been accomplished. The report says there is an unexpended balance of \$40,000, which is sufficient to continue the work the coming year.

"The number of deaths and burials of prisoners of war held by the United States authorities, the report adds, is authentically reported to have been 80,716, of which number the graves of 3,615 are reported as lying within the area of the seceded States. There are reported to be 9,300 prisoners of war lying in national cemeteries. The original records, including registers and placed burial in cemeteries, have been in most cases lost or are inaccessible. Data has been obtained by personal visits of the commission to Alexandria, Hampton and Newport News, Va., Charleston, Morris Island, Beaufort and Hilton Head, S. C., and Savannah and Fort Pulaski, Ga."

## U. S. EXPORTS FOR JANUARY \$68,000,000 GREATER THAN JAN. PRECEDING YEAR.

Washington, Feb. 25.—The country's exports declined during January, although the month's total was far above the same month last year. The department of commerce figures puts exports for January about three hundred and thirty-five million dollars, as compared with about three hundred and fifty-two million in December. An increase was made this January over last of nearly sixty-eight million. Imports for January were about one hundred and eighty-four million, showing an increase over December of more than twelve million.

It may console the self-confessed coward to realize that he is still in a position to admit it.

# HADDON-WILSON CO.

Are now well equipped for early Spring trade. Anticipating an advance in all lines of Merchandise we placed our orders for all Staple Goods early last Fall. This is a day of PREPAREDNESS. You will find by careful inspection of our stock that we are fully prepared in EVERY DEPARTMENT to meet all the wants of our trade.

## Ladies' Ready-to-Wear GARMENTS

This department has grown so rapidly, we are giving more space and more attention to it than heretofore. We have now in stock an elegant line of the Latest Styles in COATS SUITS, SPORT COATS, SEPARATE SKIRTS and SHIRT WAISTS. Our stock in these garments are all new and up-to-date.

You can select any of these garments with absolute confidence that you are getting an up-to-date garment.

## Special Offering in White Goods
