

## Fair Committee Hard at Work

More than usual interest is being shown in the livestock and agricultural departments of the Abbeville county fair this year. A very attractive program is being arranged and liberal prizes are to be offered in each department, and according to reports many exhibits are now in course of preparation.

Contracts have been closed with one of the largest amusement companies in the South. The company agrees to bring to Abbeville during fair week some 15 high class attractions. The racing program, which has always been a feature of the fair, promises to be more interesting than ever this year, as the purses have been greatly increased and the entries will be of a much higher order.

Within a few days work will begin at the grounds, buildings will be put in repair and other improvements made.

It will pay you to sow grain to get the stubble.

Fertilizer is with our Fish and Blood Guano when you sow it and make grain and stubble too.

### How Pineapple Juice and Pepsin Relieves Stomach Trouble

The juice of pineapples contains ferments used by the stomach in the digestion of food. Pepsin is supplied by every stomach, but many times in insufficient quantities. These two when combined with the other ingredients in Natol Pineapple Pepsin Compound furnish to the stomach exactly the right proportion to digest the food. Strong laxatives are an injury and are not needed where the food is properly digested.

Natol Pineapple Pepsin Compound is not a patent medicine but a corrective and assistant in overcoming all stomach troubles. One bottle (50c) is usually enough to give permanent relief. The McMurray Drug Company.

### FROM MR. EVANS.

To the Voters of Abbeville County: I wish to thank you for the nice vote you gave me for Superintendent of Education in both the first and second primary elections. I appreciate it very much and shall endeavor to perform my duties as diligently and impartially as I can.

W. J. Evans.

Fertilizer isn't as high as you heard it was. You can buy our Fish and Blood Goods for the same money you would pay for the cheap goods. When it is all the same price, get the best. Get the Fish and Blood Goods.

The present solicitors over the state managed in most cases to pull through. Some, however, were defeated, among them being Albert E. Hills of Spartanburg, a Blease follower, who will be succeeded by I. C. Blackwood, formerly a member of the house from Spartanburg, and an unsuccessful candidate vacancy caused by the elevation of Congressman Johnson to the bench. Solicitor Saley of Orangeburg and Solicitor Grimboll of Charleston, appointees of Governor Manning, for vacancies, were defeated at the polls.

Make your own Flour. It is cleaner and purer and better than any you can buy.

It is no trouble to make it if you use our Fish and Blood Guano when you sow your Wheat.

## SOUTH CAROLINA.

(By N. O. Pyles.)

South Carolina, rich in historic lore, with a refined and patriotic people, full of hope and aspiration, is in historic interest and natural advantages among the foremost States of the Union.

From the rugged crests of the Blue Ridge Mountains to the shell-strewn seashore of the Atlantic Ocean, flow numerous streams of limpid water, along whose banks dwell happy and prosperous people of almost every vocation and profession.

Of world-wide fame is South Carolina's scenery of verdure-clad mountains and honeysucked glens, many of her gardens being among the most beautiful in the world, notable among which are the historic gardens surrounding Chora College for Women at Columbia, and the far-famed Magnolia gardens near Charleston.

Here, in South Carolina, the mocking-bird warbles forth his musical notes on the fragrant and balmy air; the sprightly wren cheerily twitters among the green boughs of pine and cedar, and "Bob-White" loudly whistles down in rich, daisy-bordered meadow lands, or in sweet-scented fields of crimson clover, blooming cotton and golden grain, where the winsome girl and the playful boy delight to roam.

Fertilize your Wheat with our Fish and Blood Guano and make your own bread. You can make it cheaper than you can buy it and you will have the best bread made.

W. P. Odom of Chesterfield county, joint author of the famous Laney-Odom act, was reelected a member of the house from his county. He had decided not to offer again, but when the insurance muddle caused such an uproar in the state he changed his mind and cast his hat into the ring.

Fish and Blood is the best material that goes in Fertilizer. There is nothing as good. We have plenty of it.

### ORPHANAGE DAY IS SEPTEMBER 30

Attention once more is called to the Orphanage Work Day that has been announced for September 30 next. Appeals have gone out from the various institutions to Sunday-school superintendents and all others who are likely to be interested in the project. Emphasis might be given to the fact that Sunday-school and church people are not the only ones who could take part in such a deserving work. The destitute and helpless orphan should appeal to every individual within our State. Contributions may be sent to any institution that one may prefer. It certainly looks as if any person might afford to give one day out of the year as Labor Day for the orphan children and contribute the results of the day, or the income of the day, to their care and training. It is to be hoped that thousands and thousands of our people will co-operate in the Work Day effort.

Flour is \$8.00 a barrel and they are talking \$10. You can make it cheaper than that and better. Use our Fish and Blood Guano.

### FROM MR. DOMINICK.

To the People of the Third Congressional District:

I am deeply grateful to you for your confidence and trust in nominating me for Congress.

As your Congressman, I will give the best that is in me to the best interests of my District, State and Country, and use my utmost endeavors to fill the office with credit to myself and honor to the District—and thereby measure up to the expectations of my friends.

Again thanking you, I am,  
Sincerely yours,  
(Signed) Fred H. Dominick.
